Results for the Third Quarter Ended December 31, 2002 (US GAAP)

Consolidated Income (Billions of Yen)	FY2003			FY2001		Outlook for FY2003 (Forecasted in Nov.2002)		Summary of year-on-year changes
	Nine months ended Dec.31,2002			Nine months ended Dec.31,2001		Percent of achievement	Increase or decrease	
	Six months ended Sept. 2002	Three months ended Dec. 2002			Increase or decrease			
Operating transactions	6,325.6	3,356.5	9,682.1	9,971.2	(289.1)	12,800.0	75.6%	<p>a. [Gross profit] Metal resources-related and food-related subsidiaries performed well, mainly due to expanded business through M&As. In addition, food distribution-related companies were newly consolidated. Together, these factors led to a Y 62.5 billion increase in gross profit.</p> <p>b. [Selling, general and administrative expenses] Increased due to rise in retirement-related expenses at the parent company, business expansion through M&As at food-related subsidiaries, and the effect of newly consolidated subsidiaries.</p> <p>c. [Provision for doubtful receivables] Reflects absence of provisions for metals-related subsidiaries in North America recognized in the previous fiscal year.</p> <p>d. [Dividends] Decreased due to absence of higher dividends from energy resource-related businesses recorded in the previous fiscal year, and decline in dividends from copper-related investments due to worsening market conditions.</p> <p>e. [Gain on marketable securities and investments-net] Reflects the absence of the previous fiscal year's gain on sale of PIRI/SDL shares and recognition of the changes of unrealized holding gains on investment securities as gains at U.S. investment subsidiaries in the previous fiscal year. The loss of Y 2.5 billion in the third quarter primarily reflects write off of marketable securities (available for sale).</p> <p>f. [Gain (loss) on property and equipment] Reflects gains on the sale of real estate owned by the parent company and absence of impairment losses on land and buildings held for lease and company use in the previous fiscal year.</p> <p>g. [Equity in earnings of affiliated companies-net] The increase reflects improved results at Asian and European automobile-related operations and the effect of ceasing the amortization of goodwill following the adoption of a new accounting standard, SFAS No. 142, "Goodwill and Other Intangible Assets."</p> <p>h. [Cumulative effect of a change in accounting principle-net] Wrote off the aggregate unamortized amount of negative goodwill and equity method goodwill based on SFAS No.141, "Business Combinations," which was adopted effective from the current fiscal year. As a result, the companies recognized a gain for the cumulative effect of an accounting change.</p>

For Immediate Release

**Mitsubishi Corporation Announces Consolidated Financial Results
for the Third Quarter Ended December 31, 2002
(Based on US GAAP)**

TOKYO, February 6, 2003.....Mitsubishi Corporation announced today its consolidated results, using accounting principles generally accepted in the United States, for the third quarter ended December 31, 2002.

Outline of Consolidated Results

For the nine-month period ended December 31, 2002, operating transactions were ¥9,682.1 billion, down ¥289.2 billion, or 2.9%, year on year. However, gross profit rose ¥62.4 billion, or 13.2%, to ¥533.9 billion mainly due to business expansion through M&As at subsidiaries, and the effect of newly consolidating food distribution-related subsidiary.

Selling, general and administrative expenses increased in line with the increase in the number of consolidated subsidiaries and higher retirement and pension expenses at the parent company. On the other hand, provision for doubtful receivables decreased.

As a result, operating income surged ¥25.9 billion, or 52.6% year on year, to ¥75.1 billion.

In other income (expenses), gain or loss on property and equipment-net improved due to gains on the sale of a company-owned facility and the absence of impairment losses on land and buildings held for lease and company use in the same period of the previous fiscal year. However, Mitsubishi Corporation recorded a loss on marketable securities and investments-net due to a decrease in gains on share sales, compared with the same period of the previous fiscal year, and write-down on listed marketable securities. Consequently, other expenses increased ¥15.1 billion year on year.

Equity in earnings of affiliated companies-net rose ¥7.2 billion in line with improved results at overseas automobile-related companies and the ceasing of amortization of goodwill on a straight-line basis.

Accordingly, consolidated net income leapt ¥17.8 billion, or 34.0% year on year, to ¥70.2 billion. This represents an achievement rate of 82.6% relative to the full-year forecast of ¥85.0 billion.

- (1) The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.
- (2) In July 2001, the companies adopted SFAS No. 141 "Business Combinations" and SFAS No. 142 "Goodwill and Other Intangible Assets." SFAS No. 141 prohibits the use of the pooling-of-interest method, and all business combinations are required to be accounted for under the purchase method. SFAS No. 142 addresses the accounting for acquired goodwill and other intangible assets. Upon the adoption of this new Statement, the companies determined that goodwill, intangible assets which have indefinite useful lives and equity method goodwill will no longer be amortized. As a result, the companies' net income for the nine months ended December 31, 2002 increased by approximately JPY 4,800 million (\$40 million). Also required by SFAS No. 141, the companies have written off the aggregate unamortized amount of negative goodwill and equity method goodwill. As a result, the companies recognized an income of JPY 8,636 million (\$73 million) as a cumulative effect of an accounting change.
- (3) The U.S. dollar amounts represent translations, solely for the convenience of readers outside Japan, of yen amounts at the rate of JPY 119=\$1.
