NEWS RELEASE

TSX Venture Exchange: YGH.V
S.E.C. Exemption: 12(g)3-2(b)

February 6, 2003

The Company intends to do a follow-up basal till sampling program on its jointly held MacDougall Inlet South property (Golden Hope Mines Limited 50%, Fancamp Exploration 50%) located in the Clarence Stream district of southwestern New Brunswick, where Freewest Resources Canada Inc. has made a number of intrusion related gold discoveries.

Geochemically anomalous gold and arsenic values were identified in basal till on the trace of a major fault zone in the course of a reconnaissance till sampling program, and serious follow-up is warranted.

ON BEHALF OF THE BOARD

"Debra Chapman"

Debra Chapman
Assistant Secretary
