Commentary

The Directors of Jamaica Broilers Group are pleased to release the un-audited financial statements for the second quarter ended 12 October 2002. The Group's turnover increased by 10% to \$1.55 billion and gross profit increased by a similar 10%. Gross profit as a percentage of turnover has remained unchanged at 25.7%. The 5% price increase effected in September, combined with operational efficiencies have stabilized the gross margins. Excellent operational performances in our grow-out operations have offset some of the negative impact of increased grain prices. Distribution costs for the quarter are above last year due to the restructuring of our cold storage management, which is now the responsibility of our marketing division. Administrative expenses have increased by 12%, while other income has increased in excess of 65%. Taxation provision shows an increase of \$5.4M over last year, due mainly to carried forward losses available last year. As a result of the above, earning per stock unit has remained fairly flat at just over 10 cents per share.

The quarter under review was a challenging one due mainly to the impact of increased grain prices and market resistance to a price increase which only partially offset the grain price increases. The staff, management and Board continue to strive to achieve international competitiveness and increased shareholder value and look forward under God's guidance, to improved results for the remainder of the coming year.

Hon. R. Danvers Williams
Chairman

Notes

(1) Cost of Sales and Distribution cost for the quarter ended 21 July 2001 has been restated for comparative purposes. As a part of our restructuring exercise last financial year, our marketing division is responsible for cold room operations (reported in distribution cost) , which was previously reported in cost of sales.

(2) Exceptional Item

The Exceptional item of \$100,000,000 represents a return of surplus from the company's Superannuation Scheme.

(3) Accounting Periods

The Company's financial year consists of 13 four-week Periods. The quarterly Profit and Loss Account for each of the first three quarters consists of 3 four-week Periods, with the fourth quarter being 4 four-week Periods. The accounting year ends on the Saturday closest to April 30.
