Announcement of Results

for the Year Ended 31 December 2002

CITIC Pacific Limited

Chairman's Letter to Shareholders

CITIC Pacific's performance in 2002 was more than satisfactory. Profits rose 85% to reach HK\$3,902 million, and in doing so generated significant cash flow. In light of the good performance, it is proposed to pay shareholders a special dividend of HK\$1.00 per share in addition to a final dividend of HK\$0.70. This result has been brought about by our focusing on traditional businesses, working hard to raise revenue and finding more efficient ways to do business.

The aviation business was robust in 2002. Cathay Pacific's profit increase was five times 2001's results, and Dragonair posted a 60% gain in profit compared with 2001. Increased demand by both passenger and cargo transportation, combined with new products and well managed unit costs, confirm CITIC Pacific's belief in the potential of the airline business in China.

On 3 March 2003, CITIC Pacific signed an agreement with Air China and Beijing Capital Airport Group Corporation to form Air China Cargo Co. Ltd in which CITIC Pacific has a 25% interest. This joint venture will handle all of Air China's existing and future international and domestic cargo and their related ground service businesses. As China has become the world's manufacturing base and the joint venture has the largest domestic and international networks of all Chinese airlines, it will certainly benefit from

power industry is now operating under new, clearer policies, under which we believe there will be many opportunities for independent power producers such as CITIC Pacific who provide the excellent management and efficient production necessary for success.

Contracts for the civil facilities in Shanghai came under review pursuant to the State Council directive that all projects with guaranteed returns had to be renegotiated. CITIC Pacific began investing in large infrastructure projects in Shanghai in early 1990s to assist the City's, in particular, Pudong's economic development. The Shanghai government has always followed through its contractual commitment to CITIC Pacific. We have had several recent friendly meetings with the relevant authorities in Shanghai. The final outcome is still awaited.

In Hong Kong, traffic at the Eastern Tunnel was adversely affected by the opening of the Tseung Kwan O extension to the Mass Transit Railway. The toll increase at the Western Harbour tunnel in February 2003 is expected to alleviate financial strain.

Our marketing and distribution business performed satisfactorily in 2002. The total number of vehicles sold in Hong Kong declined 23%. Although Dah Chong Hong's market share increased by 4%, total

On the property front, in January 2002, we purchased CITIC Square and Royal Pavilion, both located in Shanghai. They made a first contribution to the Group's profits. The foundation work of Westgate Garden – a large residential development property in the Huang Pu district of the city – began in late 2002. We are actively pursuing opportunities to expand our property business in Mainland China.

In Hong Kong, sales at Discovery Bay's Siena One were good, and those at Siena Two are slower. CITIC Tower and other investment properties remain well let, but rentals are soft. The Festival Walk shopping center remains very popular and returns are steady.

As envisaged, our communications businesses have become more significant and now represent 12% of the contribution of all businesses compared with 10% in 2001. CITIC Telecom 1616's IDD wholesale business has grown to become the Asian market leader. It is now serving more than 165 telecom carriers in over 80 countries, setting the foundation for future value added service business. Short Message Switching is being developed and has shown good future prospect. CPCNet launched its "TrueConnect" VPN to customers in the Greater China region, which has proved to be a success. CPCNet's traditional business has maintained its solid base of corporate customers using its connectivity solutions to the Internet. Despite increased competition, CTM's profits rose due to a larger number of both mobile and Internet subscribers. Communications businesses have great potential and are expected to grow further in the coming years.

Our existing power stations continued to operate smoothly generating a total of 14,046 million kwh, an increase of 23% over 2001. The Ligang power station generated a record 8,505 million kwh of total electricity reflecting the increased demand for electricity in Eastern China. Following the completion of the second 200MW unit at the Hohhot cogeneration plant and the first 100MW unit at Jilin, the second 100MW unit in Jilin will be completed in June 2003. Preparation work for the third phase of Ligang (2 X 600MW) is currently underway. Approval for construction is expected soon. The first unit is expected to commence operation in 2006. China's

The Mainland China automobile market has grown rapidly in recent years. Our auto sales in Mainland China in 2002 more than doubled the level in 2001. In both motor and general trading, Dah Chong Hong will continue to develop its businesses in Mainland China, and is following a systematic program of expansion of sale network, operating facilities and control systems. Up to now, more than 20 integrated sales, service and spare parts centers, regional parts distribution and traditional service centers in 14 cities have been set up.

In Hong Kong, the new vehicle registration tax was raised significantly in the recent budget, which will have a potentially serious effect on vehicle sales, in particular, the sales of luxury vehicles. In addition, the new budget also proposed increases in taxes of other categories including salaries tax. This, again, will be negative to Dah Chong Hong's and Sims Trading's overall business. Both Dah Chong Hong and Sims Trading will continue to reduce the cost of delivering their products, eliminate costs that are not productive today, while investing money in areas that are relevant to the future.

In late 2002, CITIC Pacific's major shareholder - CITIC - signed a joint venture agreement with Wal-Mart to develop stores in Eastern China. Dah Chong Hong has already begun working actively to find ways in which its expertise in sourcing and delivering products can be of value to Wal-Mart.

In 2003 we expect the economy of Mainland China to continue its steady growth, and remain highly competitive. This offers bright future for the Group's businesses in power generation, communications, aviation, property and trading, and investments in high tech areas. CITIC Pacific's deep knowledge of China, the businesses in which we operate, and the careful way we evaluate opportunities and manage our finances will continue to guide the company as it moves ahead.

The economic situation in Hong Kong is unclear. The war with Iraq is looming, causing an increase in the oil price which will adversely affect our aviation business. The tax increases proposed in the new Hong Kong budget will potentially lead to a reduction in consumption, which in turn will affect our marketing and distributing businesses. In this environment, controlling costs, raising efficiency and creating synergies among our businesses will remain a preoccupation. With our team of experienced and committed professionals, our abundant financial resources and balance sheet strength, the company is ready to take on new challenges and opportunities when they arise.

Every step of the way all the employees of CITIC Pacific, my fellow directors, bankers and investors have supported this company, and I send everyone my sincere thanks.

Larry Yung Chi Kin

These adoptions have no significant impact on the Group's financial statements except that the adoption of SSAP No. 34 by CITIC Pacific's associated company, Cathay Pacific Airways Limited, has reduced CITIC Pacific's attributable opening retained earnings by HK\$148 million.

As business continued to grow in the PRC, cross border cooperation between the Hong Kong and PRC operations offered training and development opportunities for staff members. The Group's remuneration policy is to reward employees on a fair and equitable basis and in line with market practice. To promote a culture of pay for performance, an annual discretionary bonus linked to Group results and individual employee performance was implemented last year. At the end of 2002, office based employees agreed to end alternate Saturday work by a 5% reduction in salary effective from 1 January 2003. The shortened working hours did not apply to operations staff who continued to serve customers during weekends.

Under the CITIC Pacific Share Incentive Plan 2000 ("the Plan") adopted on 31 May 2000, the Board may invite any director, executive or employee of the Company or any of its subsidiaries to subscribe for options over the Company's shares.

The total dividend of HK\$2.00 per share will amount to HK\$4,377 million of the Company's profit for the year ended 31 December 2002 (2001: HK\$1,753 million).

The proposed final dividend of HK\$0.70 per share and a special dividend of HK\$1.00 per share, the payment of which is subject to approval of the shareholders at the forthcoming annual general meeting of the Company to be held on Tuesday, 6 May 2003, is to be payable on Monday, 12 May 2003 to shareholders whose names appear on the Register of Members of the Company on 6 May 2003.

PURCHASE, SALE OR REDEMPTION OF SHARES
During the year ended 31 December 2002, the Company made the following repurchases of its own shares on the Stock Exchange for the purpose of enhancing its earnings per share:

Month/Year	Number of Shares Repurchased	Price Per Share		Aggregate Price Paid HK\$ million
		HK\$	Lowest HK\$	
December 2002	1,320,000	14.95	14.85	20

As of 31 December 2002, the Group's undrawn available facilities totalled HK\$10.3 billion of which approximately HK\$7.5 billion were committed long term loans, HK\$1.8 billion money market lines and the balance trade facilities. These available facilities, combined with cash and deposit on hand and the Group's strong recurrent cash flow generated from operations, provide ample financial resources and flexibility to the Group to implement its business plans.

As of 31 December 2002, the Company had interest rate swap agreements outstanding with a notional amount of approximately HK\$2 billion. Under these agreements, CITIC Pacific is to exchange either fixed or floating rate interest with its counterparties, without the exchange of the underlying notional amounts. Other financial products such as forward rate agreement are employed when deemed appropriate to stabilize the overall cost of borrowings over time.

As at 31 December 2002, approximately 56% of the Group's total borrowings after swaps bear interest at floating rates and the remaining 44% are at fixed rates. The average all-in cost of debt including hedging costs in 2002 was 4.6% compared with 6% a year before.
