**TOFAŞ TÜRK OTOMOBİL FABRİKASI ANONİM ŞİRKETİ
FINANCIAL STATEMENTS AS OF DECEMBER 31, 2002
TOGETHER WITH REPORT OF INDEPENDENT AUDITORS**

We have audited the balance sheet of Tofaş Türk Otomobil Fabrikası Anonim Şirketi ("the Company") as of December 31, 2002 and the related statement of income for the year then ended. Our audit was made in accordance with the generally accepted auditing principles, basis and standards in Turkey issued by the Capital Market Board (CMB), and accordingly included, in connection with the accounts and transactions, tests of accounting records and other auditing procedures and techniques we considered necessary.

The financial statements of the Company for the year ended December 31, 2001 were audited by other auditors who have ceased their operations and whose report dated March 15, 2002 expressed an unqualified opinion on those statements.

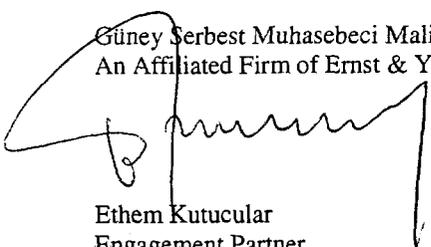

In our opinion, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of Tofaş Türk Otomobil Fabrikası Anonim Şirketi as of December 31, 2002 and the result of its operations in accordance with the generally accepted accounting principles in Turkey issued by Capital Market Board, applied on a consistent basis, except for the matter discussed in Note 11 (e) to the balance sheets, with the preceding year.

As disclosed in the Note 5 to the statement of income, the significant portion of the Company's sales is conducted to its related parties. Furthermore, other significant transactions with Fiat Auto S.p.A. in 2002 are disclosed in Note 11(e) to balance sheet and in Note 5 to the statement of income.

Additional paragraph for convenience translation to English:

As discussed further in detail in Note 34 to the balance sheet, the effects of the differences between CMB accounting and reporting principles and the accounting and reporting principles generally accepted in the countries in which the accompanying financial statements are to be used and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position and result of operations in accordance with the accounting principles generally accepted in the countries of users of the financial statements and IFRS. If IFRS had been applied, components of net income and financial position could be materially different than those reflected in the accompanying financial statements. Further, especially due to the effect of hyperinflation, the accompanying financial statements may not provide a suitable basis on which to make comparisons between years.

34. Explanation Added For Convenience Translation to English

As indicated in Note 11, these financial statements are prepared and presented in accordance with the generally accepted accounting principles issued by Turkish CMB. Such accounting and reporting principles differ from the accounting principles generally accepted in the other countries in which the accompanying financial statements may be distributed and from International Financial Reporting Standards (formerly referred to as International Accounting Standards ("IAS")) issued by the International Accounting Standards (IAS) Committee, principally with respect to the presentation of financial statements, accounting for the effects of hyperinflation, capitalization of financial expenses, depreciation, deferred taxation and certain accruals. The effects of such differences have not been quantified herein. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position, fund flows and cash flows in accordance with accounting principles generally accepted in such countries and IFRS. If IFRS had been applied, components of net income and financial position could be materially different than those reflected in the accompanying financial statements. Further, especially due to the effect of hyperinflation, the accompanying financial statements may not provide a suitable basis on which to make comparisons between years.
