INDEPENDENT AUDITORS' REPORT

The Board of Directors
Government Capital Securities Corporation

We have audited the accompanying balance sheets of Government Capital Securities Corporation as of December 31, 2002 and 2001, and the related statements of income, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Government Capital Securities Corporation as of December 31, 2002 and 2001, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the schedules on pages 10 through 12 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

R.C. Neal, P.C.

GOVERNMENT CAPITAL SECURITIES CORPORATION
INDEX TO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2002 and 2001

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES

NOTE 2 – NET CAPITAL REQUIREMENTS

NOTE 3 – RELATED PARTY TRANSACTIONS

NOTE 4 – INCOME TAXES

GOVERNMENT CAPITAL SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2002 and 2001

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization – Government Capital Securities Corporation (Company) was incorporated on January 25, 1999, and became registered with the United States Securities and Exchange Commission as a broker-dealer in February 1999. The Company was established to broker revenue bond offerings primarily in the state of Texas.

Cash equivalents – The Company considers time deposits with original maturities of three months or less to be components of cash.

Revenue recognition – The Company receives commissions in connection with the offering of revenue bond offerings. Commissions are earned only after the bond offerings are complete.

Management estimates - In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions which could affect the reported amounts of assets, liabilities, revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Income Taxes – Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. The differences relate primarily to prepaid expenses which are expensed for income tax purposes and capitalized for financial statement purposes and accrued expenses which are deducted for financial statement purposes but not for income tax purposes. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

NOTE 2 – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Net Capital Rule (Rule 15c3-1) which requires maintenance of minimum net capital, as defined, and requires that the ratio of aggregate indebtedness to net capital, as defined, shall not exceed 15-to-1. The Company operated in the state of Texas in 2002 and 2001 which has no minimum requirement. The Company had net capital of \$12,868 and \$27,930 at December 31, 2002 and 2001 respectively, which exceeds the \$5,000 minimum required. The Company was also in compliance with their ratio of aggregate indebtedness at December 31, 2002 and 2001.

GOVERNMENT CAPITAL SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2002 and 2001

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company shares office facilities with its parent corporation and, as a result, certain overhead expenses are borne by the Company. The Company was allocated \$4,756 in 2001, for overhead and management fees, which is included in general and administrative expenses in the accompanying statement of income.

NOTE 4 – INCOME TAXES

Income tax expense was computed as follows:

	<u>2002</u>	<u>2001</u>
Federal income tax		
Current income tax	\$ 11,813	\$ 30,192
Deferred income tax (benefit)	<u>210</u>	<u>(620)</u>
Federal income tax	12,023	29,572
State franchise tax	<u>3,275</u>	<u>5,416</u>
Total taxes	<u>\$ 15,298</u>	<u>\$ 34,988</u>

The Company files a consolidated income tax return with its parent corporation. The Company recognized its share of the consolidated income tax based on the federal statutory income tax rates and reimbursed the parent corporation for that amount which was \$11,813 and \$30,192 for the years ended December 31, 2002 and 2001, respectively.

Deferred income taxes arise from temporary differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. The sources of deferred tax assets and liabilities as of December 31 are as follows:

	<u>2002</u>	<u>2001</u>
Accrued expenses	\$ 3,400	\$ 3,400
Prepaid expenses	<u>(505)</u>	<u>(295)</u>
Deferred tax benefit	<u>\$ 2,895</u>	<u>\$ 3,105</u>

NET CAPITAL PER FINANCIAL STATEMENTS	<u>\$ 12,868</u>

Board of Directors
Government Capital Securities Corporation

In planning and performing our audit of the financial statements of Government Capital Securities Corporation for the period ended December 31, 2002, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study (where applicable) of the practices and procedures (including tests of compliance with such practices and procedures) followed by Government Capital Securities Corporation that we consider relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e). We did not review the practices and procedures followed by the Company (1) in making the quarterly securities examinations, counts, verifications and comparisons and the recordation of differences required by rule 17a-3; (2) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (3) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3 because the Company does not carry securities accounts for customers or perform custodial services relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of the internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that

Board of Directors
Government Capital Securities Corporation
Page Two

transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure design or operation of the specific internal control structure elements do not reduce to a relative low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the use of management, the Securities and Exchange Commission and other regulatory agencies which rely on rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
