Notes to the statement of financial condition

December 31, 2002

Note 1. Organization and net capital

Bristol Investment Group, Inc. (the "Company") was incorporated in 1995 in the state of New York. The Company is registered as a broker-dealer in securities with the Securities and Exchange Commission ("SEC"). The Company is a member of the National Association of Securities Dealers, Inc.

The Company acts as agent in the private placements of securities and provides consulting services. During the year ended December 31, 2002, two customers comprised approximately 72% of the Company's fee income.

As a registered broker-dealer the Company is subject to the Uniform Net Capital Rule 15c3-1 of the SEC which requires that the Company maintain minimum net capital, as defined, of \$5,000 or one-fifteenth of aggregate indebtedness, whichever is greater. Net capital and aggregate indebtedness change from day to day, but as of December 31, 2002, the Company's net capital exceeded this requirement by approximately \$8,000.

Note 2. Significant accounting policies

Private placement fees and consulting fees are recorded at the time the private placement or service is completed.

Computer equipment is stated at cost. Depreciation is provided by the straight-line method over the estimated useful lives of the related assets.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3. Related party transactions

The company is dependent on the shareholder for continuing financial support. The shareholder has indicated his intent to continue funding the Company through January 1, 2004.

Note 5. Loan payable

The Company has borrowed money under a line of credit at its commercial bank. At December 31, 2002, the outstanding balance was \$15,826. The terms of the loan require monthly minimum payments of interest and principal of approximately 3% of the prior month's outstanding balance.

The rate of interest at December 31, 2002, is 10.75% per annum.

Note 6. Income taxes

The Company files its tax returns on a cash basis. A summary of the Company's net operating losses for federal income tax purposes is the following:

\$23,000	2020
57,000	2021
180,000	2022

A 100% valuation allowance of approximately \$64,000 has been established to reserve for the deferred tax asset arising from the net operating loss since there is no assurance that the benefit will be realized in the future.
