INDEPENDENT AUDITORS' REPORT

To The Shareholders
FM Ventures, Inc.
New York, New York

We have audited the accompanying statements of financial position of FM Ventures, Inc. as of 31 December 2002 and 2001 and the related statements of operations and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of FM Ventures, Inc. as of 31 December 2002 and 2001, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, III, and IV is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Abrams and Company, P.C.

30 January 2003

Abrams & Company, P.C.

**REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5
FOR A BROKER-DEALER CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3**

To The Shareholders
FM Ventures, Inc.
New York, New York

In planning and performing our audit of the financial statements and supplemental schedules of FM Ventures, Inc. (the Company), for the year ended 31 December 2002, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management

with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at 31 December 2002, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Abrams and Company, P.C.

FM VENTURES, INC.
NOTES TO FINANCIAL STATEMENTS

1. Organization and Nature of Business

FM Ventures, Inc. ("FMV") is a privately held New York corporation, established in May 1998, that provides advisory services and leases equipment. On 1 April 1999, FMV's application with the U.S. Securities and Exchange Commission for registration as a broker/dealer pursuant to Section 15(b) of the Securities Exchange Act of 1934 was approved (effective upon the Company becoming a member in a self-regulatory organization). On 9 July 1999, pursuant to a membership agreement and business plan, FMV became a member of the National Association of Securities Dealers, Inc.

2. Significant Accounting Principles

Revenue Recognition

Revenue is recognized as earned excepting revenue arising from contingent advisory fee assignments, which is recognized – subject to the absence of uncertainties as to the amount of the success fee or the completion of the assignment – at the earlier date of when FMV's work is substantially completed (and the transaction is successfully consummated prior to the issuance of the financial statements) or when the transaction is successfully consummated. In instances where uncertainties exist as to the amount of the success fee payable or as to whether the assignment was completed as agreed upon, revenue is recognized when such uncertainties cease to exist. Expenses are recorded when incurred excepting expenses arising from contingent advisory fee assignments, which are recorded as such expenses are paid.

Fredericks Michael & Co., a 49% shareholder of FMV, may undertake transactions in which FMV participates. The services, and revenue and expense associated with such transactions, are rendered and accounted for pursuant to an income and expense sharing agreement.

Furniture and equipment

Furniture and equipment are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

FM VENTURES, INC.
NOTES TO FINANCIAL STATEMENTS

Cash and cash equivalents

Cash and cash equivalents consist primarily of cash in banks and highly liquid investment securities that have maturities of three months or less when purchased. The carrying amount approximates fair value due to the short-term maturity of these instruments.

Fair value of financial instruments

Carrying amounts of certain of FMV's financial instruments including cash, accounts receivable and other current assets, accounts payable and accrued expenses and other liabilities approximates fair value due to the short-term maturity of the instruments. The fair value of the other assets approximates its carrying value.

Long-lived assets

Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment and Disposal of Long-Lived Assets," requires that long-lived assets and certain identifiable intangibles to be held and used or disposed of by an entity be reviewed for impairment whenever events of changes in circumstances indicate that the carrying amount of an asset may not be recoverable. FMV has adopted this Statement and determined that no impairment loss need be recognized for applicable assets.

3. Investment

Investment, which has a restricted market, is valued at cost. In the opinion of management, there has been no diminution in value.

4. Furniture and Equipment

Furniture and equipment consists of the following:

	<u>31 Dec 01</u>	<u>31 Dec 02</u>
Furniture	\$ 38,739	\$ 38,739
Computer and office equipment	<u>89,332</u>	<u>90,140</u>
	128,071	128,879
Accumulated depreciation	<u>(113,578)</u>	<u>(124,637)</u>
	<u>\$ 14,493</u>	<u>\$ 4,242</u>

FM VENTURES, INC.
NOTES TO FINANCIAL STATEMENTS

The computer and office equipment is leased over periods ranging from twelve to sixty months. The majority of the lease agreements include options for the equipment to be purchased at the end of the lease term for \$1.00. As of 30 June 95, the Company purchased used equipment and furniture with a market value of \$60,900 (and an original cost of \$112,132), which was leased to a third party over a five-year period. Upon the expiration of the initial term of this lease, the lease contained a provision that the equipment and furniture could be purchased by the related party at fair market value. During 2000, the lease was extended for a twelve-month period and the option to purchase the equipment and furniture at the end of the extended period now provides for the equipment and furniture to be purchased for \$1.00.

5. Related-Party Transactions and Concentrations of Risk

FMV leases 100% of its furniture and equipment to a related party, which owns 49% of FMV. Accordingly, all lease revenue is earned from the related party.

Included in accounts payable and accrued expenses are amounts due to the related party of approximately \$5,300 and \$0 at 31 December 2001 and 2002, respectively.

During 2001 and 2002, FMV earned all of its advisory income from the related party. Advisory income for 2001 and 2002 amounted to \$6,000 and \$13,500, respectively.

Accounts receivable of \$3,000 at 31 December 2002 is due from the related party.

6. Income Taxes

Income taxes are provided using the liability method prescribed by Financial Accounting Standards Board Statement No. 109, "Accounting for Income Taxes."

The difference between FMV's effective tax rate and the normal statutory rate is primarily attributable to state and local taxes.

The Company has net operating loss carryforwards of approximately \$20,000, which expire in 2021 and 2022, in approximately equal portions.

SCHEDULE I

FM Ventures, Inc.

Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission

As of 31 December 2002
