Report of Independent Certified Public Accountant

To the Stockholders and Board of Directors
of Asia Pacific Investors Services:

I have audited the accompanying statements of financial condition of Asia Pacific Investors Services (a Guam Corporation) as of December 31, 2002 and 2001, and the related statements of income (loss), changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with generally accepted auditing standards of the United States of America. Those standards require that I plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Asia Pacific Investors Services as of December 31, 2002 and 2001, and the results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles of the United States of America.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedule 1 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

ASIA PACIFIC INVESTORS SERVICES
(A Guam Corporation)

Notes to Financial Statements

December 31, 2002 and 2001

(1) Nature of Business

Asia Pacific Investors Services (APIS) was incorporated under the laws of the Territory of Guam on March 2, 1993 with the filing of its incorporation documents at the Government of Guam Department of Revenue and Taxation. The Company is registered as a broker-dealer in securities under the Securities and Exchange Act of 1934, as amended. The Company renders broker-dealer services in principally mutual funds and corporate stocks on both an agency and principal basis to its Guam located customers on a fully disclosed basis through other broker-dealers. The Company is exempt from the reserve requirement under SEC Rule 15c3-3(k)(2)(ii), since it does not handle or carry customer securities and cash.

(2) Summary of Significant Accounting Policies

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

Security transactions and related commission revenue and expense are recorded on a trade date basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

For purposes of reporting cash flows, cash includes cash on hand and cash due from banks and brokerage accounts.

ASIA PACIFIC INVESTORS SERVICES
(A Guam Corporation)

Notes to Financial Statements, Continued

Furnitures, Equipment and Leasehold Improvements

Furnitures, equipment and leasehold improvements are recorded at cost or estimated net book value at the date of transfer. Depreciation is provided on furnitures and equipment by the straight-line method over their estimated useful lives. Leasehold improvements are amortized over the lives of the respective lease or the service lives of the improvements.

(3) Furnitures, Equipment and Leasehold Improvements

Furnitures, equipment and leasehold improvements at December 31, 2002 and 2001 consist of the following:

	<u>2002</u>	<u>2001</u>
Furnitures	\$ 7,164	7,164
Equipment	88,639	84,448
Leasehold improvements	<u>8,607</u>	<u>8,607</u>
	104,410	100,219
Less: accumulated depreciation	<u>77,325</u>	<u>62,423</u>
	<u>\$ 27,085</u>	<u>37,796</u>

Included in equipment is a xerox machine which has been recorded as a capital lease at a cost of \$17,641. Terms of the lease agreement call for monthly payments of \$408 until September, 2005. Interest is calculated at a borrowing rate of 12% as of the purchase date.

(4) Guam Income Tax

Guam income tax consists of the following components:

	<u>2002</u>	<u>2001</u>
Current	\$ 3,641	-
Deferred payable (credit)	<u>729</u>	<u>(1,228)</u>
	<u>\$ 4,370</u>	<u>(1,228)</u>

Deferred taxes are recognized for temporary differences between the basis of assets and liabilities for financial statement and income tax purposes. Differences relate primarily to depreciable assets (using accelerated depreciation methods for income tax purposes).

ASIA PACIFIC INVESTORS SERVICES
(A Guam Corporation)

Notes to Financial Statements, Continued

APIS's provision for Guam income tax does not differ significantly from applying the statutory income tax rate to income before income taxes.

(5) Lease Commitment

APIS leases its administrative office under a noncancelable operating lease which expires on June 30, 2004 at a monthly rate of \$2,400. The building and related improvements from which APIS conducts its operations is owned by U.D.P. Corporation, a Guam corporation. Two-thirds of U.D.P. common stock is owned by APIS' two stockholders.

Rent expense before reimbursements for the years ended December 31, 2002 and 2001 was \$31,200 and \$33,600, respectively. Each APIS broker representative was required to reimburse the Company for office space and utilities at the rate of \$155 per month. Broker reimbursements were discontinued after February, 2001 with the change in commission rates paid to them. Rental payments through the end of the lease term at June, 2004 are as follows: 2003, \$28,800, and 2004, \$14,400.

(6) Net Capital Requirement

APIS is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2002, APIS had net capital of \$59,660, which was \$54,660 in excess of its required net capital of \$5,000. The Company's net capital ratio was .91 to 1.

SUPPLEMENTARY INFORMATION

Telefax: (671) 637-4050

Report of Independent Certified Public Accountant on
Internal Control Structure Required by Rule 17a-5
of the Securities and Exchange Commission

To the Stockholders and Board of Directors
of Asia Pacific Investors Services:

In planning and performing my audit of the financial statements of Asia Pacific Investors Services for the year ended December 31, 2002, I considered its internal control structure in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, I have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Asia Pacific Investors Services that I considered relevant to the objectives stated in Rule 17a-5(g), (1) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and (2) the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. I did not review the practices and procedures followed by the Company in complying with the requirements for prompt payment for securities under Section 8(b) of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles of the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

John A. Halloran, P. C.
Certified Public Accountant

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses. Under standards established by the American Institute of Certified Public Accountants, a material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure that I consider to be material weaknesses as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives, in all material respects, indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2002 to meet the Commission's objectives.

In addition, my review indicated that Asia Pacific Investors Services was in compliance with the conditions of exemption from Rule 15c3-3 pursuant to paragraph K(2)(ii) as of December 31, 2002, and no facts came to my attention to indicate that such conditions had not been complied with during the period.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers and other regulatory agencies which rely on Rule 17a-5(g) of the Securities Exchange Act of 1934 and should not be used for any other purpose.

February 21, 2003

John A. Halloran, P.C.
