REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
Quantitative Analysis Service, Inc.

We have audited the accompanying statement of financial condition of Quantitative Analysis Service, Inc. as of December 31, 2002 and the related statements of income, changes in stockholders' equity and cash flows for the year then ended, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Quantitative Analysis Service, Inc. as of December 31, 2002 and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the schedules listed on the accompanying index is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SEE NOTES TO FINANCIAL STATEMENTS

QUANTITATIVE ANALYSIS SERVICE, INC.
NOTES TO FINANACIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2002

- 1) Summary of significant accounting policies:

Accounting for commission income is on a settlement date basis.

Securities owned are valued at market.

- 2) The corporation and shareholders have elected effective January 1, 1985 to be treated as a Subchapter S Corporation under applicable Federal and New Jersey State Law. Accordingly no provision has been made for Federal Corporation Income Tax.

- 3) Net Capital Requirements:

The corporation is subject to the uniform net capital rule (Rule 15C3-1) of the Securities and Exchange act of 1934, which requires the corporation to maintain a ratio of aggregate indebtedness to net capital as defined, not to exceed 15 to 1. At December 31, 2002

Quantitative Analysis Service, Inc. net capital was \$128,013 whereas the required net capital was \$50,000. The ratio of aggregate indebtedness to net capital was 295% compared to a maximum amount allowance of 1500%.

The corporation solicits and services customer accounts, which are introduced on a fully disclosed basis to Schroder & Co., Bear Stearns Securities Corp., and UBS Paine Webber. The corporation's principal sources of revenue are commissions earned on customer accounts and management fees. The corporation does not hold customer's cash and/or securities and is exempt from the provision of SEC Rule 15C3-3 under subparagraph K (2)(b).

- 4) The corporation is exempt under Rule 15C3-3 since all customer transactions are cleared through another broker dealer on a fully disclosed basis. We have ascertained that the conditions of this exemption were being complied with as of December 31, 2002 and that no facts came to our attention to indicate that the exemption had not been complied with during this period.
- 5) The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from these estimates. We do not consider any differences in these financial statements to be material.
- 6) The corporation maintains cash in bank accounts which, at times may exceed federally insured limits.
- 7) Quantitative Analysis Service, Inc. is obligated under the terms of a lease for its office space, storage and parking, dated January 7, 2002, expiring January 31, 2007. The yearly base rent is \$209,103.12.

REPORT ON INTERNAL CONTROL

Board of Directors
Quantitative Analysis Service, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Quantitative Analysis Service Inc. for the year ended December 31, 2002 we considered its internal control structure including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g) (1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by Quantitative Analysis Service, Inc. including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a) (11) and or determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control structure and practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the company has responsibility and safeguarded against loss from unauthorized use or disposition and that the transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity

with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in an internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection on any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy of such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2002 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers and should not be used for any other purpose.

New York, New York
