Patrick J. Collins, Inc. (the Company), is a broker-dealer registered with the Securities and Exchange Commission.

2. **Significant Accounting Policies**

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The company follows the policy of charging the costs of advertising to expense as incurred. For the year ended December 31, 2002, advertising expense was \$30,700.

Profit Sharing Plan

The Company maintains a noncontributory qualified defined contribution profit sharing plan for eligible employees. The Company's contribution to the plan is determined as a percentage of the covered employee's salary, subject to the Employee Retirement Income Security Act limitations. SCHEDULE 2

PATRICK J. COLLINS, INC.

STATEMENT OF EXEMPTION FROM RULE 15c3-3
COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS

DECEMBER 31, 2002

Patrick J. Collins, Inc. (an S Corporation) clears all customer transactions through another broker-dealer on fully disclosed basis and therefore claims exemptive provision (K)(2)(B) of S.E.C. Rule 15c3-3, which exempts the Corporation from the computation for determination of reserve requirements as provided for in that Rule.

**REPORT OF INDEPENDENT ACCOUNTANTS ON
INTERNAL ACCOUNTING CONTROL
REQUIRED BY SEC RULE 17a-5**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL
CONTROL STRUCTURE REQUIRED BY S.E.C. RULE 17a-5**

To The Stockholder
of Patrick J. Collins, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Patrick J. Collins, Inc. (an S Corporation) for the year ended December 31, 2002, we considered its internal control structure, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2002, to meet the SEC's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the New York Stock Exchange, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.
