QUINTIN GROUP, LLC
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2002

Note 1 - Nature of Business

Quintin Group, LLC (The "Company") is a New York State limited liability company formed for the purpose of conducting business as a broker on the floor of the New York Stock Exchange. The Company is registered as a broker-dealer with the Securities and Exchange Commission ("SEC").

Note 2 - Summary of Significant Accounting Policies

a) Revenue Recognition

Securities transactions (and the recognition of related income and expenses) are recorded on a trade date basis. Commission income and related expense are recorded on a settlement date basis. There is no material difference between settlement date and trade date.

b) Income Taxes

Income taxes are not payable by, or provided for, the Company. Members are taxed individually on their share of Company earnings for federal and state income tax purposes. The accompanying financial statements have been adjusted to provide for unincorporated business tax based upon Company income, if applicable.

c) Cash and Cash Equivalents

The Company considers demand deposited money market funds to be cash equivalents.

d) Equipment

Equipment is carried at cost and is depreciated over a useful life of 5-7 years using accelerated methods.

e) Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses.

Note 3 - Profit Sharing Plan

The Company is a sponsor of a defined contribution profit sharing plan for its eligible employees. Contributions to the plan, if any, are determined by the employer and come out of its current accumulated profits. The employer's contribution for any fiscal year shall not exceed the maximum allowable as a deduction to the employer under the provisions of the IRS Code Section 404, as amended, or replaced from time to time.

The Company's liability to the plan for the year ended December 31, 2002 was \$5,640.

Note 7 - Financial Instruments With Off-Balance Sheet Credit Risk

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company introduces these transactions for clearance to another broker-dealer on a fully disclosed basis.

The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair customers' ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such non-performance by its customers. The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions, when necessary.
