To: The Compensation and Governance Committee of Kraft Foods Inc., the Management Committee for Employee Benefits of Kraft Foods North America, Inc., the Administrative Committee and all Participants as a group (but not individually) of the Nabisco, Inc. Capital Investment Plan:

In our opinion, the accompanying statements of net assets available for plan benefits and the related statements of changes in net assets available for plan benefits present fairly, in all material respects, the net assets available for plan benefits of the Nabisco, Inc. Capital Investment Plan (the "Plan") at December 30, 2002 and 2001, and the changes in net assets available for plan benefits for the years ended December 30, 2002 and 2001, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 12, effective January 1, 2003, the Plan was merged into the Kraft Foods Thrift Plan.

NABISCO, INC. CAPITAL INVESTMENT PLAN NOTES TO FINANCIAL STATEMENTS

1. General Description of the Plan:

The Nabisco, Inc. Capital Investment Plan (the "Plan") is a defined contribution plan for certain eligible salaried employees of Kraft Foods North America, Inc. ("Kraft Foods") who are members of the Nabisco Biscuit and Snacks Group of Kraft Foods and who are not eligible to participate in the Kraft Foods Thrift Plan. The Plan is designed to encourage employees to save for retirement by providing eligible employees with an opportunity to invest a portion of their compensation and to share in a matching contribution by Kraft Foods (the "Kraft Foods Matching Contribution") by making such investment. Kraft Foods is a wholly-owned subsidiary of Kraft Foods Inc., which, in turn, is a subsidiary of Altria Group, Inc. (formerly Philip Morris Companies Inc.).

In general, eligible salaried employees are immediately eligible to make pre-tax and/or after-tax contributions to the Plan. Eligible employees who make pre-tax contributions are eligible to receive Kraft Foods Matching Contributions (see Note 3). The provisions of the Plan are detailed in the official Plan document that legally governs the operation of the Plan.

The administration of the Plan has generally been delegated to the Management Committee for Employee Benefits of Kraft Foods (the "Committee") comprised of employees of Kraft Foods. The Committee has appointed the Administrative Committee to handle certain Plan administration matters. The Compensation and Governance Committee of the Kraft Foods Inc. Board of Directors (the "Investment Committee") is responsible for the selection of the investment options set forth below in which participants elect to invest their Plan Accounts (see Note 4), the appointment of investment managers to manage one or more of the investment options and the monitoring of the performance of these investment options. The Committee and the Investment Committee are hereinafter collectively referred to as the "Fiduciaries".

The assets of the Plan (except for the assets of the Altria Stock Fund (formerly the Philip Morris Stock Fund) and the Kraft Stock Fund) are co-invested with the assets of the Nabisco, Inc. Employee Savings Plan in a commingled investment fund for which Fidelity Management Trust Company ("Fidelity") serves as trustee. Effective November 1, 2001 (the inception of the offering of the Altria Stock Fund and the Kraft Stock Fund), the assets of the Plan that are invested in the Altria Stock Fund and the Kraft Stock Fund are co-invested with the assets of the Nabisco, Inc. Employee Savings Plan in a commingled investment fund for which Deutsche Bank Trust Company Americas ("Deutsche") (formerly Bankers Trust Company) serves as trustee. The aggregate of the commingled investment funds for which Fidelity and Deutsche serve as trustees is hereinafter referred to as the Nabisco, Inc. Defined Contribution Master Trust (the "Trust").

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The financial statements are prepared using the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Fiduciaries to make estimates and assumptions that affect the reported amounts in the financial statements and related disclosures. Actual results could differ from those estimates.

Valuation of Trust Investments:

Investments in common trust funds are valued on the basis of the relative interest of each participating investor (including each participant) in the fair value of the underlying assets of each of the respective common trust funds.

Investment contracts and the pools of mortgage-backed and asset-backed securities and other investments held in the Interest Income Fund are recorded at their contract values, which represent contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, withdrawals influenced by employer-initiated events, such as in connection with the sale of a business, may result in a distribution at other than contract value. There are no reserves against contract values for credit risk of contract issuers or otherwise. The fair value of the investment contracts and the pools of mortgage-backed and asset-backed securities and other investments at December 30, 2002 and 2001 were \$360,878,259 and \$262,398,093, respectively. The average yield of the Interest Income Fund for the years ended December 30, 2002 and 2001 was approximately five percent and six percent, respectively. The crediting interest rate of the Interest Income Fund at December 30, 2002 and 2001 was approximately five percent and six percent, respectively. The crediting interest rate for the investment contracts is either agreed-to in advance with the contract issuer or varies based on an agreed-to formula, but cannot be less than zero. The crediting interest rate for the pools of mortgage-backed and asset-backed securities and other investments is reset periodically by the contract issuer based on the relationship between the contract value and the fair value of the underlying securities, but cannot be less than zero.

Securities listed on an exchange are valued at the closing price on the last business day of the year; listed securities for which no sale was reported on that date are recorded at the last reported bid price. Securities that are not listed on an exchange are generally traded in active markets and valued by Fidelity or Deutsche from quoted market prices. Equity securities, including Altria Common Stock and Kraft Common Stock, which represent approximately 2% and 3%, respectively, of the total Trust investments at December 30, 2002 and .5% and .6%, respectively, of the total Trust investments at December 30, 2001, are subject to significant market fluctuations.

NABISCO, INC. CAPITAL INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

Short-term temporary investments are generally carried at cost, which approximates fair value.

Investment Transactions and Investment Income of the Trust:

An investment transaction is accounted for on the date the purchase or sale is executed. Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, the net appreciation (depreciation) in the fair value of investments reflects both realized gains or losses and the change in the unrealized appreciation (depreciation) of investments held at year-end. Realized gains or losses from security transactions are reported on the average cost method.

3. Contributions:

No contribution is required from any eligible employee under the Plan. Employees may make pre-tax contributions through payroll deductions of up to 16% of compensation (as defined in the Plan). An employee who does not affirmatively make an application to participate in the Plan is deemed to have authorized pre-tax contributions to the Plan equal to 3% of compensation. The Plan allows participants to make after-tax contributions up to 16% of compensation, either in lieu of or in combination with, pre-tax contributions. The combined percentage of compensation for pre-tax and/or after-tax contributions is a minimum of 1% and a maximum of 16%. Kraft Foods Matching Contributions equal 50% of each participant's pre-tax contributions not in excess of 4% or 6% of compensation (depending on the participant's location). Pre-tax contributions in excess of 6% of compensation and contributions made on an after-tax basis are not eligible for Kraft Foods Matching Contributions.

The aggregate contributions actually made by participants may not cause the Plan to violate limitations on such contributions set forth in the Internal Revenue Code of 1986, as amended (the "Code"). The Code also imposes a dollar limitation on the amount of pre-tax contributions for a calendar year. For 2002 and 2001, a participant's pre-tax contribution was limited to \$11,000 and \$10,500, respectively.

Kraft Foods Matching Contributions and participant contributions are subject to specified limitations as described in the Code and the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

NABISCO, INC. CAPITAL INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

4. Valuation of Participant Accounts:

A third-party recordkeeper affiliated with Fidelity and retained by the Committee maintains Accounts for each participant to reflect the source and the participant's share of the funds invested in the Trust as follows:

<u>Account</u>	<u>Source</u>
Kraft Foods Matching Contributions Account	Kraft Foods Matching Contributions
Trolli Company Match Account	Employer contributions merged into the Plan
Basic Contributions Account	Pre-tax contributions not in excess of six percent of compensation
Supplemental Pre-Tax Account	Pre-tax contributions in excess of six percent of compensation
Supplemental After-Tax Account	After-tax contributions
Rollover Contributions Account	Amounts transferred, directly or indirectly, from another plan qualified under Section 401(a) of the Code
After-Tax Basic Contributions Account	After-tax contributions made to predecessor plan
Loan Account	Outstanding loans obtained from the Plan

Each business day Fidelity determines the current fair value of each of the investment funds in the Trust (described in Note 1) for which it serves as trustee and Deutsche determines the current fair value of the Altria Stock Fund and the Kraft Stock Fund. The third-party recordkeeper retained by the Committee determines the current fair value of each participant's share in the Trust with respect to their Accounts on the basis of their proportionate share in each investment fund. However, the fair value of each participant's share in the Trust may not be determined as of any business day if unforeseen circumstances makes such determination impractical or not in the best interest of Plan participants.

NABISCO, INC. CAPITAL INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

The following rules have been adopted by the Committee in connection with the valuation of the Altria Stock Fund and the Kraft Stock Fund. If trading in Altria Common Stock or Kraft Common Stock has been suspended on the New York Stock Exchange ("NYSE") on a trading day and not resumed before the end of the trading day, Deutsche will use the composite price of the respective Common Stock as listed in *The Wall Street Journal* on the next business day. In the event that trades need to be executed to meet current liquidity needs, Deutsche will use a weighted average sale price method for valuing the portion of participants' Plan Accounts transferred from the Altria Stock Fund or the Kraft Stock Fund if using the NYSE closing price or composite price of Altria Common Stock or Kraft Common Stock results in a value of the respective Stock Fund which is at least one-tenth of one percent (0.1%) more than the value using the weighted average sale price method. The weighted average sale price method uses the average of all of the prices for which Altria Common Stock or Kraft Common Stock is sold over one or more business days as determined by Deutsche Bank Securities, Inc.

5. Withdrawals and Distributions:

Participants may make in-service withdrawals against their Accounts under limited circumstances in accordance with the provisions outlined in the Plan.

Upon termination of employment, including retirement, a participant has numerous options available, as described in the Plan, with respect to the distribution of his or her Plan Accounts. Normally, distributions are made within two weeks after a distribution request is made.

In the event the Plan is terminated, distributions will be made in accordance with the then current value of participants' Plan Accounts under the direction of the Committee and in accordance with the Code.

6. Participants' Loans:

Participants may apply to the Committee to borrow vested funds from their Plan Accounts in accordance with the provisions outlined in the Plan.

A participant's Loan Account equals the original principal amount less principal repayments. The principal amounts of loan repayments reduce the Loan Account and are added back to the participant's Plan Accounts originally used as the source of the loan. The repaid amount (including interest) is reinvested in the funds according to the participant's investment authorization in effect at the time of repayment.

NABISCO, INC. CAPITAL INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(continued)

7. Investments Held by the Trust:

The Plan's allocated share of the Trust's net assets and investment activities is based upon the total of each individual participant's share of the Trust. 9. Transactions with Parties in Interest:

The Fiduciaries are not aware of any transaction between the Plan and a party-in-interest (as defined by ERISA) or disqualified person (as defined in the Code) to the Plan (1) which is prohibited under the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of the Code, or (2) which has not been exempted from such prohibitions pursuant to a class exemption issued by the Department of Labor.

10. Tax Status:

By letter dated August 29, 2002, the Internal Revenue Service has determined that the Plan, as amended and in effect as of December 31, 2000, continues to qualify under Section 401(a) of the Code and that the related Trust continues to be exempt from federal income taxes under Section 501(a) of the Code.

The Fiduciaries believe that the Plan continues to be designed and operated in accordance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
