Monterrey, Mexico, April 30, 2003 — Grupo Dataflux, S.A. de C.V. (BMV: Dataflux B, ADR I: GDFXY) and its subsidiary, the CNCI University; the Mexican Education company with the largest geographical reach, today reported its first quarter 2003 results.

March 2003 - Quarterly Results

Operating Income registered Ps\$5.1 million pesos as of March 2003, coming from Ps\$4.9 million as of March 2002; this represents a 2% growth. EBITDA reached Ps\$11.1 million.

Net Income Cash (net income excluding entries that do not impact cash flow) registered Ps\$8.3 million.

QUARTERLY INCOME STATEMENT			
	1Q02	1Q03	Gwth %
Sales	174,785.0	138,653.0	-21%
Gross Income	54,485.0	52,899.0	-3%
Operating Income	4,981.0	5,069.0	2%
EBITDA	11,918.0	11,135.0	-7%
Net Income	3,684.0	(238.0)	-106%
Net Income Cash	9,139.0	8,331.0	-9%

Dataflux remains posting a strong Balance Sheet. As of March 2003 its bank debt registered only Ps\$29.1 million and cash assets Ps\$46.8 million.

"We continue to decrease our Bank debt and with our strategy to grow our network of schools at a reasonable rate and without interest bearing debt. We now have a network of schools composed of 80 locations and launched our college and university programs without bank debt. We have financed our growth with our operation cash flow, and we are confident that we will see good results from this strategy in the coming quarters" commented Celestina Aguilar, Dataflux CFO.

Education- CNCI University

"Although we maintained our network at 80 locations, it is important to mention that on a quarter to quarter comparison, we significantly increased the number of courses and programs that we provide on each of our locations. We grew from 3 to 12 regular college locations, from 0 to 55 open college locations and from 0 to 1 university campus", commented Alberto Hinojosa-Canales, Dataflux's Executive President. "This will bring important benefits to our network profitability for two main reasons; a larger student base studying 2 to 3 years programs -rather than short technical careers and courses- and the occupancy of our locations at non peak ours".

The CNCI University recorded accumulated sales for the first three months of 2003 of Ps\$54.1 million pesos, growing 1% versus 1Q02. Its operating expenses decreased 2% to Ps\$36.6 million, leading to an accumulated operating income of Ps\$7.0 million, growing 9% compared to the same period of 2002. The CNCI University reported an EBITDA of Ps\$11.9 million.

"In this quarter we are also operating 5 CNCI University locations as franchises in the cities of; Oaxaca, Tuxtla Gutierrez, Tapachula, Tijuana and Zacatecas. We are also ready to launch 11 additional franchise locations in the cities of; Culiacan, Chihuahua, Ciudad Juarez (2), Matamoros, Cancun (2), Hermosillo (2), Leon and Villahermosa" commented Guillermo Enriquez, CNCI University's new Dean. Mr. Enriquez joined this position since December 2002 as part of the new CNCI University's academic and management team. "Our Franchising plan aims at allowing to keep the CNCI University's growth in regions that due to its location or market characteristics we would not cover on our own, regions that demand the expertise of a local partner in order to implement a successful program."

The CNCI University closed 1Q03 with an average of 13,500 students taking technical careers and courses, 1,102 college students, and registered 21 students on its first University Campus enrollment.

Distribution - Makrocomputo (Colombia)

"In this quarter Makrocomputo posted an important decrease in sales mainly driven by the Compaq-HP integration and the Colombian peso fluctuations," commented Juan D. Tovar, Dataflux's, CEO. "Additionally the Colombian PCs distribution industry is also experimenting a similar pattern to the one Mexico experimented in 1999 in which PC manufacturers started serving customers directly".

Accumulated sales registered Ps\$84.5 million Mexican pesos, coming from Ps\$120.9 million, a 30% decrease. Operating income recorded Ps\$2.7 million compared to Ps\$2.9 million for the first three months of 2002, this represents a 7% decrease. Accumulated EBITDA recorded Ps\$3.1 million with a 6% reduction.

"We do not foresee a promising future for our Colombian subsidiary. The PCs and computer equipment wholesale business it's a low margin business, and the role of the wholesaler is not providing an important value added to the distribution chain anymore. Dataflux future is based on its Education Division, and it is in this direction that we will be aiming our attention and resources. We expect to see similar sales decreases in the coming quarters due to this fact, but we also expect to keep growing on our operation profit and EBITDA lines." Said Mr. Guillermo Salinas-Pilego, Dataflux's COB.

Internet - Todito.com (non-consolidated operation)

Todito's total sales were Ps\$38.6 million pesos for the first three months of the year, a growth of 33% versus 2002. Its gross income grew 31% reaching Ps\$27.6 million.

Operating expenses registered Ps\$64.5 million, of this total Ps\$46.9 million relates to TV advertising on TV Azteca, which do not imply cash outflows. As a result, Todito registered an EBITDA of Ps\$13.8 million pesos growing 57%.

Todito also registered excellent results on its prepaid Internet access service Todito Card. In this line, Todito recorded a 332% sales increase reaching Ps\$13.1 million, and new user activations grew 565% with a total of 112,988.

Other Dataflux Consolidated Results

Sales decreased 21% from Ps\$174.8 million as of March 2002 to Ps\$138.6 million as of March 2003. Operative expenses decreased 3% reaching Ps\$47.8 million. Dataflux's integral financing cost registered Ps\$0.8 million as of March 2003. Dataflux registered a net loss of Ps\$0.2 million.

With the exception of historical information, the matters discussed in this press release are forward-looking statements.
