- CONSOLIDATED REVENUES GROW AT 15% TO 494 MILLION USD
- INTERNATIONAL BEER REVENUES UP BY 38% TO 160 MILLION USD
- CONSOLIDATED COP REMAINS AT SAME LEVEL AS 2002 AT 113 MILLION USD
- INTERNATIONAL BEER COP GROWS BY 29% TO 37 MILLION USD
- CONSOLIDATED NET INCOME GROWS FROM 6 MILLION USD TO 58 MILLION USD

Efes Beverage Group

- The Efes Beverage Group ("EBG") is a system of companies producing and marketing beer, malt and soft drinks across a geography including Turkey, South East Europe and Central Asia. The Group with an annual brewing capacity in excess of 1.6 billion liters, malting capacity of 150,000 tonnes and Coca-Cola bottling capacity of over 360 million unit cases per year is one of the leading beverage systems in the region.

Consolidation Principles

- The audited consolidated financial statements of EBG for 2002 (in comparison with 2001) prepared in accordance with International Financial Reporting Standards ("IFRS"-previously referred to as "IAS") also includes the restatements based on IAS 29 (Financial Reporting in Hyper-inflationary Economies). Thus 2001 TL figures are also restated as of 31.12.2002 in the audit report. On the other hand, in the attached financial results, 2001 figures are presented in USD without restatement for a better comparison.
- The consolidation is composed of Anadolu Efes and its subsidiaries in which Anadolu Efes holds the majority stake; Efes Pazarlama (marketing, sales & distribution of beer products in Turkey), Tarbes (hops production in Turkey), Efes Sinai (Efes Invest - international Coca-Cola operations), Efes Breweries International (international beer operations) and Cypex (beer distribution in Cyprus).
- The results of Interbrew Efes Brewery in Romania, a 50% JV of Efes Breweries International with Interbrew of Belgium, are consolidated on a proportionate basis. In other words 50% of the financial results of Interbrew Efes Brewery, including sales volume, have been accounted in both the audited consolidated financial statements as well as the financial results of the international beer operations.
- The equity and net income attributable to minority shareholders are shown separately in the balance sheet and income statement, respectively.
- Coca-Cola İçecek ("CCI"), in which Anadolu Efes holds a 33.3% stake is accounted for by using the equity method based on CCI's IFRS financial statements, including IAS 29.
- EBG headquarter expenses that are classified under "Operating Expenses" in the consolidated financial statements of the EBG are reclassified under "Other Expenses" in the results of the Turkish Beer Division in 2001 and 2002.
- For Efes Invest, the net effects of beer products that are distributed by the franchises, which were shown separately under the revenue and cost items in the previous financial statements, are presented under other operating income.

FOR GENERAL RELEASE TO THE PUBLIC
MAY 30TH, 2003

Therefore the sales volumes of such products are excluded from the sales volumes for 2002 and 2001. On the other hand, Turkmenistan franchise, 33% subsidiary of Efes Invest, is fully consolidated in 2001 and on equity basis in 2002.

- For Alternatifbank, majority stakes owned by the parent Anadolu Group, in which Anadolu Efes decreased its shareholding to 9.3% in 2002, equity method is discontinued and it is carried as an investment in the consolidated financial statements.
- A brief summary of the USGAAP financial statements of CCI is presented as an attachment of this announcement. Following the restructuring of the Turkish Coca-Cola Bottling operations as a production company, CCI, and a sales & marketing company which became a wholly owned subsidiary of CCI, the special consumption tax, which has been previously included in the Net Sales and Cost of Goods Sold separately, are excluded from both lines in 2002 and 2001.

Sales Volumes

- As of end of 2002 our total beer sales volume reached 914 million liters (2001: 819 million liters), growing by 12% vs. 2001.
- **In Turkey**, following the serious turbulence of 2001, the economy started to recover albeit at a slower pace. However in 2002, despite the effects of the crisis especially on the disposable income of the Turkish consumers, sales volume of our Turkish beer operations increased by 5%, reaching 572 million litres (2001: 546 million litres), exceeding the pre-crisis sales volume levels. Despite competitive pressure, we finished the year with 76% market share and maintained our volume ratio vs competition at 3:1. The total sales volume of our Turkish beer operations, including the exported volumes, reached 596 million litres (2001: 569 million litres), posting a growth of 5% vs. 2001.
- Our **International Beer Operations** continued to grow substantially, consolidated sales volumes increasing by 27% in 2002 to reach 318 million liters (2001: 250 million liters). Consequently, the share of international beer volumes, including Turkey originated exports, which was 33% of our total beer sales volume in 2001, increased to 37% in 2002. In our Russian beer operations, constituting 66% of our international beer operations by volume, the impressive growth trend resumed throughout 2002, resulting in a 31% sales volume growth. "Stary Melnik"; captured the number 1 position in the Russian local premium beer segment with 20% market share, based on AC Nelsen as of December 2002. "Efes Pilsener" on the other hand; is also leading the licensed premium beer segment in Russia with 20% market share. In Kazakhstan, that delivers 14% of our total international beer sales volume, we have generated strong results by posting 28% volume growth in 2002. "Karagandiskoe" is the leader of the Kazakh beer market with 20% market share. Ukraine has delivered 70% volume growth in 2002 off a low base and constituted 4% of the total international beer sales volume. In Romania, "Interbrew Efes Brewery", our 50% JV with Interbrew, has grown by 7% by volume in 2002, with 9% share in the Romanian brewing industry.
- In the **International Coca-Cola Business**, although the level of economic well being is yet to reach the pre-Ruble crisis level, improvement in consumer disposable income levels has continued in our operating territories. Consolidated sales volume in Kazakhstan, Azerbaijan and Kyrgyzstan franchises, which are fully consolidated in our international Coca-Cola operations, grew by 22% in 2002 to 17.8 million unit cases (2001: 14.6 million unit cases) after the exclusion of the distributed beer sales volume. Our average market share in the CSD segment in these territories increased to 43% in 2002 from 41% in 2001.
