## PRESS RELEASE

**Interpump Group: the Board of Directors approves the results of the 2002 fiscal year  
PROPOSED DIVIDEND OF 0.11 EURO, A 10% INCREASE COMPARED  
WITH 2001**

**NET REVENUES: +15.7% TO 492.9 MILLION EURO**

**PROFIT BEFORE TAX: +11.3% TO 49.3 MILLION EURO**

**NET PROFIT TO 21.1 MILLION EURO (21.4 MILLION EURO IN 2001)**

**CASH FLOW FROM OPERATIONS: +18.1% TO 55.9 MILLION EURO**

**ROCE TO 20.4% (20.3% IN 2001)**

**30% RISE IN TURNOVER IN NORTH AMERICA**

Giovanni Cavallini, CEO of Interpump Group stated: *“ The distribution of a 0.11 euro dividend, with an increase of 10% compared with last year, is the result of Interpump Group’s high profitability also in 2002 and the result of the attention aimed at constant creation of value for shareholders. Interpump Group also achieved double figure growth rates during the course of 2002 in keeping with its trend of continual development, which has been in progress for many years, with a significant rise – over 30% – on the competitive North American markets. In addition to this, the acquisition of the German Gansow in March 2002 has accelerated the Group’s growth in the Cleaning sector and, in particular, in the most promising segment of Floor Care ”.*

Milan, 13 March 2003 – The Board of Directors of Interpump Group S.p.A., meeting today in Milan, approved the draft 2002 Annual Report. Moreover, the Board of Directors has also proposed to the Shareholders’ Meeting, which has been convened for 15 April (16 April in its second date), the **distribution of a dividend of 0.11 euro, an increase of 10% compared with the previous year.** The dividend, if approved, will be paid from 12 June 2003, with a coupon detachment date of 9 June.

For the fiscal year 2002, Interpump Group recorded a considerable performance both in terms of **consolidated net revenues, with an increase of 15.7% to 492.9 million euro** (426.1 million euro in 2001) and **profit before tax, which recorded a growth of 11.3 % reaching 49.3 million euro.** A 30.1% increase in the North American market is of particular significance and importance, as it is the most advanced and competitive market in the world.

These results were achieved despite the fact that 2002 was characterized by a macro-economic scenario of acute difficulty, especially regarding the markets of the major western economies, which are historically targeted by Interpump Group. **Like for like, turnover grew sharply,** rising 11.6% to 475.5 million euro.

**Consolidated gross operating margin (EBITDA) reached 84.5 million euro** (+3.9% compared with 81.3 million euro from the previous fiscal year).

**Consolidated operating profit (EBIT) increased by 2.5% to 69.2 million euro**, compared with 67.6 million euro as at year-end 2001.

**Consolidated net profit** in 2002 was **21.1 million euro** with a slight reduction (-1.6%), due exclusively to an **increase in the effective tax rate** of 8.6 percentage points. In 2001 it had been 21.4 million euro.

**Consolidated net equity grew to 193.4 million euro (+5.8%)** compared with 182.8 million euro as at year-end 2001.

**Net financial indebtedness** is equal to 175.4 million euro compared with 176.4 million euro in 2001. This improvement was made possible by the high level of **cash flow from operations** reaching **55.9 million euro in 2002, +18.1% compared with the fiscal year 2001**, when cash flow from operations amounted to 47.3 million euro.

**Net earnings per share**, adjusted for the amortization of goodwill and calculated on the weighted average of outstanding shares, was in line with the level achieved in 2001, reaching **0.398 euro**.

**The increase in turnover in 2002** was driven by the Cleaning Sector, which grew by 35.8%, led by the consumer segment. The diversified turnover mix reduced the ratio of EBITDA to net revenues to 17.1%. Profitability however increased as measured by ROCE (operating income on invested capital net of own shares), from 20.3% in 2001 to 20.4%.

The **Cleaning Sector** reported 258.9 million euro in revenues (+35.8% compared with 190.7 million euro from the previous year). Like for like, the sector's revenues grew 28.7% to 245.5 million euro. **Operating profit (EBIT)** increased to 26.0 million euro compared with 24.2 in 2001. The **gross operating margin (EBITDA)** also grew, reaching 33.0 million euro, compared with 29.6 from the previous year. **ROCE** (Operating result of sector/assets less liabilities) for the sector was 15.2% in line with 2001 (15%). This strong growth is essentially due to an increase in turnover from the consumer segment, linked to an increase in the North American market share and in Europe and through the consolidation of IP Gansow GmbH acquired in March 2002, whose contribution to the total consolidated revenues amounted to 15 million euro (IP Gansow's turnover, including infra-group, was 18 million euro).

**The Hydraulic Sector** (128.1 million euro of revenues) grew by 0.5%, despite the difficulties encountered by the North American market for industrial vehicles, on which the sector's products are mounted and in spite of euro's appreciation against the dollar, which penalized sales made by the American subsidiary Muncie, once converted into euro. In 2002, Muncie recorded, in dollar, a decrease in sales of 2.6%. On the contrary, a growth of 8.2% was recorded in the other markets, mainly in Europe and Asia. **Operating profit (EBIT)** increased to 21.2 million euro compared with 20.6 in 2001. The **gross operating margin (EBITDA)** also grew, reaching 25.1 million euro compared with 24.8 from the previous year. **ROCE** for the sector grew, reaching 25.5% (23% in 2001).

**The Industrial Sector** (with revenues of 103.4 million euro) has decreased by 0.8% due to a reduction in turnover of electric motors, equal to 3.8%. High-pressure pumps increased by 0.2%, despite the difficulties of the US economy, which constitutes the main sales market for these products, as well as the trend of the dollar. **Operating profit (EBIT)** increased to 20.1 million euro compared with 19.4 in 2001. The **gross operating margin (EBITDA)** also grew, reaching 24.4 million euro compared with 23.5 from the previous year. **ROCE** for the sector grew, reaching 23.7% (23.1% in 2001).

The performance of Interpump Group in creating value for Shareholders is confirmed also by the figures related to the **EVA (Economic Value Added) analysis**, which shows a constant growth in the latest years. The EVA value grew from 5.8 million euro in 1998 (the first year in which the EVA was calculated) to 14.3 million euro in the year 2002, with an average yearly growth rate of 25.5%, showing an absolute value which is more than two times as much. **In the year 2002 the EVA value grew by 10.6%**. Furthermore the EVA figure related to each of the Market Sectors in which Interpump Group operates did grow as well. The EVA in the **Cleaning Sector** grew from 0.2 million euro in 1998 to 2.5 million euro in 2002 (+6% compared to 2001). The EVA in the **Hydraulic Sector** grew from 2.4 million euro in 1998 to 6.8 million euro in 2002 (+9% if compared to 2001). The EVA in the **Industrial Sector** grew from 3.2 million euro in 1998 to 5 million euro in the year 2002 (+15% if compared to 2001).

The Parent Company, Interpump Group S.p.A., showed a net profit of 10.3 million euro, with a growth of 8.3% compared with 9.5 million euro in the year 2001.

Giovanni Cavallini, CEO of Interpump Group stated: *"The distribution of a 0.11 euro dividend, with an increase of 10% compared with last year, is the result of Interpump Group's high profitability also in 2002 and the result of the attention aimed at constant creation of value for shareholders. Interpump Group also achieved double figure growth rates during the course of 2002 in keeping with its trend of continual development, which has been in progress for many years, with a significant rise –over 30%– on the competitive North American markets. In addition to this, the acquisition of the German Gansow in March 2002 has accelerated the Group's growth in the Cleaning sector and, in particular, in the most promising segment of Floor Care". These results are again due to the technological innovation and recognized excellence of our products, as well as the commercial push on all markets and our policy of constant attention to costs. Despite the threatening clouds on the international horizon, I think I can expect Interpump to continue along its expansionary path, both through internal growth and through selected acquisitions in our core areas."*
