Shareholder Profit Participation

Snackie Jack will distribute, on average, not less than 20 percent of its annual net profit after tax to shareholders.

Management Profit Participation

Board Of Directors

Snackie Jack believes that outside directors provide independent counsel and discipline. One quarter of the members of Snackie Jack's board of directors will be outsiders.

Article II - Statement of corporate governance practices

The following are the guidelines for corporate governance:

1. The board of directors of the corporation shall explicitly assume responsibility for the stewardship of the corporation and as part of the overall stewardship responsibility, shall assume responsibility for the following matters:
 - a) Adoption of a strategic planning process;
 - b) The identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks;
 - c) Succession planning, including appointing, training and monitoring senior management;
 - d) A communications policy for the corporation; and
 - e) The integrity of the corporation's internal control and management information systems.
2. The board of directors of the corporation shall be constituted with two individuals who qualify as unrelated directors. An unrelated director is a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interest of the corporation, other than interests and relationships arising from shareholding. A related director is a director who is not an unrelated director. If the corporation has a significant shareholder, in addition to a majority of unrelated directors, the board shall include a number of directors who do not have interests in or relationships with either the corporation or the significant shareholder and which fairly reflects the investment in the corporation by shareholders other than the significant shareholder. A significant shareholder is a shareholder with the ability to exercise a majority of the votes for the election of the board of directors.
3. **The application of the definition of "unrelated director" to the circumstances of each individual director shall be the responsibility of the board which will be required to disclose on an annual basis whether the board has a majority of unrelated directors or, in the case of a corporation with a significant shareholder, whether the board is constituted with the appropriate number of directors which are not related to either the corporation or the significant shareholder. Management directors are related directors. The board will also be required to disclose on an annual basis the analysis of the application of the principles supporting this conclusion.**
4. The board of directors of the corporation shall appoint a committee of directors composed exclusively of outside, i.e., non-management, directors, a majority of whom are unrelated directors, with the responsibility for proposing to the full board new nominees to the board and for assessing directors on an ongoing basis.
5. The board of directors shall implement a process to be carried out by the nominating committee or other appropriate committee for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors.
6. The corporation, as an integral element of the process for appointing new directors, shall provide an orientation and education program for new recruits to the board.
7. The board of directors shall examine its size and, with a view to determining the impact of the number upon effectiveness, undertake where appropriate, a program to reduce the number of directors to a number which facilitates more effective decision-making.
8. The board of directors shall review the adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being an effective board of director.

9. Committees of the board of directors shall generally be composed of outside directors, a majority of whom are unrelated directors, although some board committees, such as the executive committee, shall include one or more inside directors.
10. The board of directors shall expressly assume responsibility for, or assign to a committee of directors the general responsibility for, developing the corporation's approach to governance issues. This committee will amongst other things, be responsible for the corporation's response to these governance guidelines.
11. The board of directors, together with the CEO, shall develop position descriptions for the board and for the CEO, involving the definition of the limits to management's responsibilities. In addition, the board shall approve or develop the corporate objectives which the CEO is responsible for meeting.
12. **The board of directors shall have in place appropriate structures and procedures to ensure that the board can function independently of management. An appropriate structure will be to (i) appoint a chair of the board who is not a member of management with responsibility to ensure the board discharges its responsibilities or (ii) adopt alternate means such as assigning this responsibility to a committee of the board or to a director, sometimes referred to as the "lead board of director". Appropriate procedures will involve the board meeting on a regular basis without management present or may involve expressly assigning the responsibility for administering the board's relationship to management to a committee of the board.**
13. The audit committee of the board of directors shall be composed only of outside directors. The roles and responsibilities of the audit committee should be specifically defined so as to provide appropriate guidance to audit committee members as to their duties. The audit committee shall have direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties shall include oversight responsibility for management reporting on internal control. While it is management's responsibility to design and implement an effective system of internal control, it is the responsibility of the audit committee to ensure that management has done so.
14. The board of directors shall implement a system which enables an individual director to engage an outside adviser at the expense of the corporation in appropriate circumstances. The engagement of the outside adviser shall be subject to the approval of an appropriate committee of the board.
