## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2002 AND 2001 AND YEAR ENDED DECEMBER 31, 2002

### 1. DESCRIPTION OF PLAN

The following description of the BorgWarner Morse TEC Inc., Ithaca Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**—The Plan is a participating plan in the BorgWarner Inc. Retirement Savings Master Trust (the "Master Trust"). The Plan sponsor is BorgWarner Morse TEC Inc. (the "Company"), a wholly owned subsidiary of BorgWarner Inc. (the "Corporation").

The Plan was established as a defined contribution plan under Section 401(a) of the Internal Revenue Code, designed to provide eligible employees of the Company with systematic savings and tax-advantaged long-term savings for retirement. The Corporation has assigned the Retirement Savings Plan Committee (the "Committee") to oversee the Plan and the Master Trust. The Committee has appointed Putnam Investor Services, Inc. and Putnam Fiduciary Trust to perform the administrative, investment, and trustee services for the Plan and the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

**Plan Merger**—The BorgWarner Westran Savings Plan (the "Westran" plan) and the BorgWarner Fuel Systems Savings Plan (the "Fuel Systems" plan) were merged into the Plan effective October 30 and 31, 2001, respectively. On these dates, all plan assets were appropriately transferred from the Westran and Fuel Systems plans into the Plan.

**Eligibility**—Hourly employees of the Company's Ithaca plant who are covered by the collective bargaining agreement between the Company and the Cayuga Machinist No. 1607 International Association of Machinists and Aerospace Workers become participants in the Plan after they have been employed for at least six consecutive months, provided, however, such employee is not eligible to accrue benefit in the BorgWarner Morse TEC Inc., Ithaca Plant Hourly Rated Employees Pension Plan.

**Participants' Account**—A Retirement Savings Plan account is established for each participant in the Plan. The participant's account consists of the following:

**Company Retirement Account**—The Company will contribute an amount to this account for each straight-time hour worked or for which employees receive holiday, vacation, jury duty, or bereavement pay. No employee contributions are made to this account.

**Employee Retirement Account**—Participants may voluntarily contribute from one to three percent of their compensation to this account. The Company makes contributions equal to 100 percent of participants' contributions to this account. Beginning January 1, 2002, the Company match is automatically invested in the BorgWarner Inc. Stock Fund. Once invested, participants may transfer the Company match to any of the other investment choices.

**Savings Account**—Participants may voluntarily contribute from one to ten percent of their compensation to this account. No Company contributions are made to this account.

**Retiree Health Account**—Participants hired after October 4, 1998 can voluntarily contribute up to 20 cents per hour of service. The Company makes contributions equal to 100 percent of participants' contributions to this account, limited to \$500 per year.

**Investment Options**—Participants elect to invest their Company Retirement Account, Employee Retirement Account, Savings Account, and Retiree Health Account in one or more of the following funds of the Master Trust maintained by Putnam Fiduciary Trust, other than the Pending Account and Loan Fund, which are not fund elections available to participants: Barclays Mid Cap Equity Index Fund, Barclays Russell 2000 Index Fund, Barclays US Debt Index Fund, Barclays Equity Index, which are all collective trust funds; One Group Mid Cap Value Fund, The George Putnam Fund of Boston, Putnam Voyager Fund, Putnam Small Cap Value Fund, Putnam OTC Emerging Growth Fund, Putnam International Growth Fund, Putnam Vista Fund, and Global Growth Fund, which are all mutual funds; Investment Contracts Fund, BorgWarner Inc. Stock Fund, Loan Fund, and Pending Account.

The BorgWarner Inc. Stock Fund invests solely in the common stock of BorgWarner Inc. All purchases of BorgWarner Inc. stock are made on the open market.

**Vesting**—Fund assets attributable to voluntary participant contributions are fully vested at all times. Fund assets attributable to Company contributions vest 100 percent upon three years of vested service or upon permanent disability, death or attaining age 65 provided, however, the participant is employed by the Company on that date.

**Withdrawals**—While participants are actively employed, no withdrawals may be made from the Company Retirement Account, Employee Retirement Account, or the Retiree Health Account. Withdrawals may be made from the Savings Account at the participants' option subject to certain limitations. Upon termination of employment, participants may elect an immediate or future distribution of their vested account balances as permitted by the Plan and by ERISA regulations.

**Loans**—Participants may borrow up to 50 percent of their Savings Account balance with a minimum of \$500 and a maximum of \$50,000 limited to a single loan outstanding at any time. Loan terms range from six months to five years, with interest charged at the rate established by the Trustee for similar loans on the origination date. Interest rates on loans outstanding as of December 31, 2002 range from 5.25% to 10.5%. No loans are permitted from the Company Retirement Account, the Employee Retirement Account, or the Retiree Health Account. Loans are secured by the remaining balance in the participant's Savings Account. Principal and interest is paid ratably through payroll deductions.

**Priorities Upon Termination**—Although the Company has not expressed any intent to discontinue the Plan, it has the right to do so at any time, subject to the provisions set forth in ERISA. In the event of termination, the interests of the affected participants shall become fully vested. The Plan assets then remaining shall be used to pay administrative expenses and benefits equal to the balance in the participants' accounts.

**Payment of Benefits**—Distribution of benefits is made upon retirement, death or other termination of employment. Participants may elect to receive distributions in the form of installments or a lump sum.

**Forfeited Accounts**—At December 31, 2002 and 2001, forfeited nonvested accounts totaled \$36,000 and \$29,000, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2002, employer contributions were reduced by \$61,000 from forfeited nonvested accounts.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Investments**—The Investment Contracts Fund of the Master Trust is stated at cost plus interest earned to date (i.e., contract value) as reported by the Trustee. The contract value of the Investment Contracts Fund was \$136,311,000 at December 31, 2002, compared to the fair value of \$146,118,000. The average yield for the Investment Contracts Fund was 5.93 percent for the year ended December 31, 2002. The crediting interest rate was 5.93% and 6.75% at December 31, 2002 and 2001, respectively. The Investment Contracts Fund is fully benefit-responsive. The Loan Fund is valued at cost plus accrued interest, which approximates fair value. Investments in all other funds of the Master Trust are stated at market value as reported by the Trustee.

**Estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits as of the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. The Plan utilizes various investment instruments, including mutual funds, collective trusts, and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

**Miscellaneous Expenses**—Transfer taxes and brokerage expenses attributable to the Master Trust assets are charged to the applicable fund as a reduction of the return on that fund. Any other expenses incurred with respect to Master Trust income or property are charged to the accounts of the participants, where applicable, or are paid in such manner as the Company determines.

**Payment of Benefits**—Benefits are recorded when paid. There were no amounts allocated to accounts of persons who had elected to withdraw from the Plan but had not yet been paid at December 31, 2002 and 2001.

**Transfers**— Along with the Plan, other entities of the Corporation sponsor defined contribution plans. When an employee transfers to any other BorgWarner entity covered by a different BorgWarner sponsored plan during the year, that participant's account balance is transferred to the corresponding plan.

## 3. TAX STATUS

The Plan obtained a determination letter, dated November 19, 2001, in which the Internal Revenue Service stated that the Plan, as amended through March 27, 2001, was designed in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan's management believes the Plan is currently designed and being operated in accordance with the applicable rules and regulations of the Internal Revenue Code; therefore, no provision for income taxes has been made in the Plan's financial statements.

#### 4. INVESTMENTS

The Plan's investments in the Master Trust of the Plan as of December 31, 2002 and 2001 are as follows:

	2002	2001
	(In thousands)	
Investment in Master Trust	\$ 35,084	\$ 37,454

During 2002, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$4,993,000 as follows:

	(In thousands)
Mutual funds	\$ (3,842)
Collective trust funds	(1,037)
BorgWarner Inc. Stock Fund	<u>(114)</u>
Total	<u>\$ (4,993)</u>

#### 5. RELATED-PARTY TRANSACTIONS

The Master Trust invests in BorgWarner Inc. common stock and makes loans to participants, which are permitted party-in-interest transactions. Certain Master Trust investments are shares of mutual funds and other investments managed by Putnam Fiduciary Trust Company. Putnam Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Putnam amounted to \$5,000 for the year ended December 31, 2002, and are included in miscellaneous expenses.

#### 6. MASTER TRUST INFORMATION

Use of the Master Trust permits commingling of the trust assets of a number of defined contribution plans of the Corporation for investment and administrative purposes. Although assets are commingled in the Master Trust, Putnam Fiduciary Trust maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the various participating plans.

The Master Trust consists of the investments of ten defined contribution plans sponsored by entities of the Corporation. The investment account of the Master Trust is valued at fair value at the end of each business day. The net gain (loss) in the account is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of all participating plans.

At December 31, 2002 and 2001, the Plan's interest in the net assets of the Master Trust was approximately 6.38 percent and 6.04 percent, respectively.

The following tables present the carrying value of investments of the Master Trust as of December 31, 2002 and 2001 and the components of investment income for the Master Trust for the year ended December 31, 2002:
