Knoxville Utilities Board Takes Advantage of SPL WorldGroup's New Approach to Customer Support

Morristown, NJ, June 30, 2003 — SPL WorldGroup has announced that the Knoxville Utilities Board (KUB) is its first customer to sign up for post-implementation operational support services under its new Retention Services option.

Under the terms of the agreement, KUB will have access to SPL's operational support staff for assistance on issues ranging from maintaining extension code, to data errors, to support for all updates and upgrades both to the application and the operating system. KUB also has the option to use SPL support to extend or add new functionality to its existing system, providing the company with critical flexibility in continuing to meet the needs of the changing utility industry. (Note that SPL products accommodate extensions and maintain the integrity of the extensions when the products are upgraded.)

Last November, KUB implemented with PeopleSoft® CIS, a customer management product designed, developed, and implemented by SPL. "The new system replaced our 30-year-old mainframe system, which was becoming costly to maintain," said Lynnda Tenpenny, KUB director of Customer Service. "It is helping us operate more efficiently, keep rates low, and give customers more information and better service."

KUB customers have already realized one benefit of the new system — more information on their bills:

- ✓ Charges are unbundled and itemized.
- ✓ New graphs show utility use for the past year to help customers better visualize and manage utility costs.

"KUB is a most valued customer," said Guerry Waters, SPL's CTO senior vice president, marketing and strategy. "We look forward to a long and mutually beneficial partnership that helps KUB maximize its

return on its IT investments."
