News Release - Appointment of new Chief Executive Officer @ SingNet

Attached is a news release made by Singapore Telecommunications Limited on the above.

Rel27Jun031.pdf

Submitted by Chan Su Shan (Ms), Company Secretary on 27/06/2003 to the SGX

News Release

Appointment of new Chief Executive Officer @ SingNet

Singapore, 27 June 2003 – Singapore Telecommunications Ltd (SingTel) today announced the appointment of Ms Ooi Lay Yong as the Chief Executive Officer of SingNet Pte Ltd, the Group's wholly-owned Internet subsidiary, with effect from 1 July 2003.

Ms Ooi takes over the helm of SingNet from Mr Andrew Buay, who has been seconded to Globe Telecom, SingTel's associate in the Philippines, as its Chief Operating Advisor. As CEO of SingNet, Ms Ooi will report to Mr Lucas Chow, SingTel's Executive Vice President (Consumer Business).

Ms Ooi will oversee and strategise SingNet's broadband and dial-up Internet businesses. She said: "SingNet has made significant strides to be the leading ISP in Singapore today with over 130,000¹ broadband customers. I am delighted to be given this opportunity to be involved in a dynamic part of the Group's business and contribute to SingNet's growth and future development."

Besides her new appointment as CEO of SingNet, Ms Ooi is also SingTel's Vice President (Consumer Sales) and CEO of Telecom Equipment Pte Ltd, SingTel's retail arm. She brings with her years of experience in retail, channels and indirect sales and procurement of telecommunications products and services.

Mr Chow said: "Lay Yong's previous experience in sales and management, including her wide exposure to markets in other countries, will help her immensely in the fast changing environment of the Internet world. Under her leadership, SingNet will continue its tradition of offering best-in-class quality and reliability to meet the needs and expectations of its customers."

Ms Ooi added: "SingNet will leverage the latest technologies to offer more innovative services and applications at competitive rates to our customers. With more content and applications, we hope to drive usage and increase average revenue per user moving ahead."

Ms Ooi joined SingTel in 2001. Prior to that, she held various appointments in large corporations. These include positions in Philips Singapore, AT&T, Olivetti and SunBeam.

¹ As at 31 March 2003

About SingTel

SingTel is Asia's leading communications company with operations and investments in more than 20 countries and territories around the world. Serving both the corporate and consumer markets, it is committed to bringing the best of global communications to customers in the Asia Pacific and beyond.

Operating out of two major centres, Singapore and Australia (through wholly-owned subsidiary SingTel Optus), the SingTel Group provides a comprehensive portfolio of services that include voice and data services over fixed, wireless and Internet platforms.

In Singapore, SingTel has had more than 120 years of operating experience and has played an integral part in the development of the city as a major communications hub in the region. In Australia, Optus serves more than six million customers. It has driven the competition as the challenger brand and led the way in technological innovations and breakthroughs.

The Group's other major investments in the region include Advanced Info Service of Thailand, the Bharti Telecom Group of India, Globe Telecom of the Philippines and Telkomsel of Indonesia. Together with its regional partners, SingTel is Asia's largest multi-market mobile operator, serving 35 million customers in six markets.

SingTel has been recognised Best Asian Telecom Carrier by industry publication, *TelecomAsia*, for six consecutive years since 1998. The Group employs more than 19,000 people around the world and had a turnover of S\$10.26 billion (US\$5.80 billion) for the year ended 31 March 2003. More information can be found @ www.singtel.com and www.optus.com.au.

About SingNet

Launched in 1994, SingNet is the leading Internet Service Provider in Singapore and a wholly owned subsidiary of SingTel. It has more than 330,000 broadband and dial up customers.

SingNet caters to a wide customer base and offers a full range of Internet services with different usage plans to suit home and business users. It was the first ISP in Singapore to launch a broadband service, providing customers with surfing speeds of up to 512Kbps using ADSL technology. SingNet is also the first broadband ISP to introduce supplementary email accounts, child-friendly services and movie-on-demand (Movie Magix) to its users. With SingNet Wireless Surf, customers can now gain broadband wireless access on the move using their laptop and wireless LAN cards at 160 SingTel Wireless Surf Zones island-wide.

In the forefront of technology, customer service and Internet innovations, SingNet has been voted the Best Internet Access Service Provider for 2000, 2001 & 2002 by readers of leading Singapore IT magazine, *Computerworld*. SingNet is also a Domain Name Registrar accredited by the Singapore Network Information Centre (SGNIC).

News release - SingTel's solution adopted for SMS portability in Singapore

Attached is a news release made by Singapore Telecommunications Limited on the above.

Rel21Jun03.pdf

Submitted by Chan Su Shan (Ms), Company Secretary on 23/06/2003 to the SGX

News Release

SingTel's solution adopted for SMS portability in Singapore

Singapore, 21 June 2003 – A Short Messaging Service (SMS) portability solution conceptualised and proposed by Singapore Telecommunications Limited (SingTel) has been adopted for the implementation of enhanced Mobile Number Portability (MNP) in Singapore.

SMS portability, expected to be available from 1 October 2003, will extend the current voice-only MNP service to allow ported customers to enjoy Short and Enhanced Messaging Services as well. Both voice and SMS MNP use a call/message forwarding solution to effect number portability.

Mr Lucas Chow, Chief Executive Officer of SingTel Mobile, said: "We fully understand the frustration of those who port when they cannot receive SMS sent to their old number. Mindful of this, SingTel conceptualised a simple forwarding solution for SMS portability. We are pleased that the other operators have also decided to adopt this solution. This will benefit all mobile customers in Singapore."

Mr Chow said that he did not expect the new MNP regime in Singapore to have a big net impact on the industry. "While there will be some who may be tempted by certain calling plans or promotional offers in the market, most customers are discerning enough to know that quality, reliability, coverage and service are equally important."

Mr Chow added: "Having said that, we are not resting on our laurels either as we constantly strive to meet the needs and expectations of our customers. They can count on our commitment to serve them well while at the same time enjoy loyalty discounts, excellent coverage and innovative services, such as *Send which is available only to SingTel customers.

"We welcome those who wish to port over to SingTel's network. We are confident that they will be more than satisfied with our services¹."

In conjunction with the enhanced MNP service, SingTel will be offering new and existing mobile customers value deals at its *hello!* outlets. These include a choice of a \$99 handset discount voucher or a free *JetPack* broadband modem worth \$99 for selected handset purchases.

¹ According to a recent survey by J.D. Power Asia Pacific, SingTel Mobile ranks highest in mobile phone service customer satisfaction among operators in Singapore.

SINGAPORE TELECOMMUNICATIONS LIMITED

ANNOUNCEMENT - DEUTSCHE TELEKOM OFFERS TO SELL GLOBE SHARES

Singapore Telecommunications Limited ("SingTel") wishes to announce that Singapore Telecom International Pte Ltd ("STI"), a wholly-owned subsidiary of SingTel, and Ayala Corporation ("AC") have received an offer from DeTeAsia Holding GmbH ("DT"), a wholly-owned subsidiary of Deutsche Telekom AG, to sell DT's entire 24.8% stake in Globe Telecom, Inc. ("Globe"), comprising 37,674,681 common shares, to STI and AC. STI and AC will evaluate DT's offer and will respond to DT within 45 days in accordance with the rights of first offer among the three parties.

As at 26 June 2003, STI, AC and DT own 29.1%, 32.7% and 24.8% of the common shares of Globe respectively.

SINGAPORE TELECOMMUNICATIONS LIMITED

Announcement - C2C Convertible Loan Agreement

Singapore Telecommunications Limited ("SingTel") announced today that it had notified C2C Pte Ltd, a 59.5 per cent owned subsidiary, of the cancellation of its commitment to C2C under a Convertible Loan Agreement. The undrawn portion of the convertible loan stood at US\$164 million.

SingTel stated that it had obtained legal advice on its rights and obligations prior to issuing the notification to C2C, which had subsequently notified its syndicate of banks ("Lenders"). As a result of this cancellation, SingTel is no longer obligated to extend the balance amount of US\$164 million to C2C.

The Convertible Loan Agreement was entered into in conjunction with a secured Facility extended to C2C by the Lenders and in respect of which C2C had commenced talks with the Lenders on possible restructuring. The outstanding amount under the Facility is US\$592 million.

Notwithstanding the cancellation, SingTel stated that it views C2C as an important asset, and is, on a without prejudice basis, prepared to consider making further contributions to the project if it is in the interests of all parties, including SingTel. On this basis, SingTel has expressed a willingness to work with C2C and its Lenders to put in place an appropriate balance sheet and operations restructuring plan that achieves a permanent solution to C2C's financial difficulties. As such, SingTel has informed C2C and its Lenders that subject to agreeing terms, it is prepared to consider committing additional funds to C2C.

Despite SingTel's proposal above and whilst the Lenders have indicated that they continue to work towards a consensual restructuring, they have now issued a notice to SingTel calling upon it to disburse to C2C the US\$164 million. SingTel has been advised that it is not obliged to so disburse in view of the cancellation.

Separately, the Lenders have informed C2C that an event of default under the Facilities agreement has occurred and that they are converting the floating charge relating to the Facility into a fixed charge in relation to, inter alia, the Convertible Loan Agreement.

As previously disclosed, C2C, like most of its industry peers, has faced an extremely challenging operating environment over the past 18 months, with rapidly falling bandwidth prices and lower-than-expected market demand. In such an environment, it is extremely unlikely that C2C will be able to meet all of its financial obligations, resulting in the need to restructure.

In SingTel's view, any restructuring plan should be designed to achieve the following objectives:

- Permanently address C2C's financial difficulties which have been significantly contributed to by an unsustainable amount of debt in a challenging operating environment;
- Ensure that the balance sheet and cost structure of C2C allow it to compete on a level playing field with its competitors, most of whom have undergone substantial restructuring;
- Achieve an appropriate restructuring which results in a viable company; and
- Enable SingTel to justify in economic and financial terms to its own stakeholders the commitment of any additional support to C2C.

SingTel remains hopeful that together with C2C and its Lenders, it can work towards achieving a mutually satisfactory solution to appropriately equip C2C to execute a revised business plan and thereby maximise value for all of the latter's stakeholders.

SingTel also announced that C2C and companies in the Tyco group are currently in discussions to resolve outstanding disputes over the Supply Contract relating to the construction of certain segments of the C2C Cable Network and the C2C Cable Network Fibre Right of Use Agreement relating to the sale of one dark fibre pair by C2C ("Contracts") as part of a global settlement and revision of contractual relations between the parties ("Settlement"). In the meantime, C2C has received notices (information on which is provided below) from companies in the Tyco group with respect to the Contracts. Tyco Asia Networks Ltd has a 19.25 per cent. shareholding interest in C2C.

Tyco Contracting Ltd is claiming approximately US\$9 million from C2C under the Supply Contract. However, Tyco Contracting Ltd has stated that it will withdraw the default notice if a satisfactory settlement agreement relating to Settlement is concluded within a prescribed period.

Tyco Global Networks Ltd has given notice to terminate the C2C Cable Network Fibre Right of Use Agreement. The validity and subject matter of the notice has been disputed by C2C. Under the notice, Tyco Global Networks Ltd has demanded payment of all monies paid under such agreement or closing of a satisfactory settlement agreement relating to the Settlement within a prescribed period. The amount paid by Tyco Global Networks Ltd to-date under the C2C Cable Network Fibre Right of Use Agreement stands at approximately US\$410 million.

While C2C has responded to Tyco Contracting Ltd and Tyco Global Networks Ltd to dispute the notices, the parties continue to discuss a mutually acceptable solution in the meantime.

Submitted by Chan Su Shan (Ms), Company Secretary on 20/06/2003 to the SGX
