Invensys completes Baan sale for US\$135m

Invensys plc announces that it has completed the sale of its Baan business to SSA Global Technologies, Inc., a leading provider of enterprise solutions for process manufacturing, discrete manufacturing, consumer services and public companies worldwide and which is jointly owned by Cerberus Capital Management, L.P. and General Atlantic Partners, LLC, for the previously agreed cash consideration of US\$135m. The sale proceeds will be used by Invensys to continue to reduce its level of indebtedness.

Rick Haythornthwaite, CEO of Invensys said: "With the completion of the sale of Baan, we have made a good start to our disposal programme which will result in a sharper-focused, financially-stronger Invensys."

About Invensys plc

Invensys is a global leader in production technology. The group helps customers improve productivity, performance and profitability using innovative services and technologies and a deep understanding of their industries and applications.

Invensys Production Management works closely with customers to increase performance of production assets, maximise return on investment in production and data management technologies and remove cost and cash from the supply chain.

The division includes APV, Avantis, Eurotherm, Foxboro, IMServ, SimSci-Esscor, Triconex, M&I and Wonderware. These businesses address process and batch industries -- including oil and gas, chemicals, power and utilities, food and beverage, pharmaceuticals and personal health care products, metals and mining -- plus the discrete and hybrid manufacturing sectors.

Invensys Rail Systems is a global leader in the design, manufacture, supply, installation, commissioning and maintenance of safety-related rail signalling and control systems as well as a complete range of rail signalling and communications products. The business includes Westinghouse Rail Systems Limited (WRSL), Dimetronic Signals, Safetran Systems, Burco Services, Westinghouse Signals Australia and Foxboro Transportation. WRSL was recently awarded a contract valued at more than £850m (US\$1.3 billion) for the renewal of signalling on the London Underground.

Invensys also currently serves other market sectors through its Development Division. The businesses in this division are: Appliance Controls, APV Baker, Baan, Climate Controls, Hansen Transmissions, Lambda, Metering Systems, Powerware and Teccor. Invensys is actively seeking to develop these businesses through equity partners or new owners.

Invensys operates in more than 60 countries, with its headquarters in London. For more information, visit www.invensys.com.
