A. Announcement of Tsingtao Brewery Company Limited.

TSINGTAO BREWERY COMPANY LIMITED

(a Sino-foreign joint stock limited company established in the People's Republic of China)

ANNOUNCEMENT

According to statements or insinuations made in recent publicity campaigns by certain PRC breweries, some of their competitors have included formaldehyde as an ingredient of their beer products which is harmful to human health. These comments have aroused some press concerns. We wish to make the following statement:

1. We are one of the very few PRC breweries that have implemented the traditional process of twice yeastings in beer production. Such process has a long yeasting cycle, stringent technology and stable beer quality without the need of process additive. We have received ISO 9001 quality management, ISO 14001 environmental management and OHSAS18001 occupational health and safety management certifications. We are the only PRC brewery that has been accredited in terms of such three certifications by Det Norske Veritas (Norway), an international certification authority in Norway. Our duly tested products have been under bulk export to over forty countries and areas such as the US, western Europe and Japan, since the 70's in the last century, fully satisfying the quality standards and requirements for imported food as imposed by those countries.
2. We are the first PRC brewery that has no formaldehyde as an ingredient. We believe that our technology can fully ensure quality of own products. It will prove meaningless for competitors to make such rumours.
3. For protection of our own interests, we reserve the right to initiate legal actions against those competitors and press for making such false insinulative reports on the quality of Tsingtao Beer.
