CONSOLIDATED SALES FOR FIRST-HALF 2003

Consolidated sales for the first half 2003 stands at **1,422.8 millions euros**, down 1.4% compared with the same period 2002 but up **+2.7% on a like for like basis**.

Following the first quarter trends, the business shrank in France and the United States. Southern Europe and Emerging Countries excluding India, are continuing to enjoy growth. Pressure on sales prices continues to hit operational performances in India and Turkey. In such an uncertain economic background, with increasingly exchange rate volatility, a further result improvement might be difficult.
