Report of Independent Auditors

To the Participants and Administrator
of the Bridgewater, LLC Savings
and Investment (401k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Bridgewater, LLC Savings and Investment (401k) Plan (the "Plan") at December 31, 2002 and 2001, and the changes in net assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying notes are an integral part of these financial statements.

Bridgewater, LLC Savings and Investment (401k) Plan

Notes to Financial Statements December 31, 2002 and 2001

Note 1 - Description of the Plan

The Bridgewater, LLC Savings and Investment (401k) Plan (the "Plan") is a defined contribution plan adopted effective January 1, 1999 for participation by eligible employees of Bridgewater Interiors, a production facility of Johnson Controls, Inc. ("JCI", the "Company" and "employer") and a joint venture partner. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is administered by the Benefits Administrative Committee appointed by the Company.

Note 2 - Organization and Accounting Policies

Accounting Method

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses are paid by the Plan, as allowed by plan provisions, with all remaining expenses paid by Bridgewater Interiors.

Savings and Investment Master Trust

All of the investments and participant loans of the Plan are included under a master trust arrangement, the Johnson Controls, Inc. Savings and Investment Master Trust ("Master Trust"), trustee by Fidelity Management Trust Company. All investments of the Master Trust, except the investment in the U.S. Equity Index Commingled Pool and the Fixed Income Fund, are stated at market value, based on quoted market prices. The fair value of the investment in the U.S. Equity Index Commingled Pool reflects a unit value computed daily based on share price, dividend information and the value of the fund's short-term investments. The guaranteed investment contracts within the Fixed Income Fund are stated at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals.

Bridgewater, LLC Savings and Investment (401k) Plan

Notes to Financial Statements (cont.)
December 31, 2002 and 2001

Note 2 - Organization and Accounting Policies (cont.)

Savings and Investment Master Trust (cont.)

Investment income of the Master Trust is allocated among the participating plans daily based on the plans' relative equity interests in each of the Master Trust's investment programs as of the beginning of the applicable day. Interest income and share price appreciation or depreciation are recorded daily by each of the applicable investment programs. Dividend income is recorded either quarterly or semi-annually, depending on the investment program.

The Statements of Financial Position as of December 31, 2002 and 2001 and the Statement of Operations and Changes in Participating Plans' Equity for the year ended December 31, 2002 for the Master Trust are presented in Note 9.

The Plan's assets accounted for less than one percent (1%) of the assets held in the Master Trust at December 31, 2002 and 2001.

Participant forfeitures of unvested employer contributions of \$44,884 and \$19,491, related to the Plan, were in the Master Trust at December 31, 2002 and 2001, respectively.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Participant Loans

The Plan allows participants to borrow funds from their accounts. Monthly payroll deductions are required to repay a loan. The interest rate on a loan is based on the prime rate of interest at the loan's inception. Loans must be repaid in full at the time of retirement or termination.

Note 3 - Investments

The fair value of investments, including those individual investments that represent 5% or more of the Plan's assets, are as follows:

Note 4 - Participant Accounting

Participant recordkeeping is performed by Fidelity Investments Institutional Retirement Services Company ("Fidelity"). For all investment programs other than the JCI Common Stock Fund and the U.S. Equity Index Commingled Pool, Fidelity maintains participant balances on a share method. Participant investments in the JCI Common Stock Fund and the U.S. Equity Index Commingled Pool are accounted for on a unit value method. The unit value for the fund is computed daily based on share price, dividend information and the value of the fund's short-term investments. At December 31, 2002 and 2001, the Plan held 1,092 and 1,065 units, respectively, of the JCI Common Stock Fund at a unit value of \$84.75 and \$83.33, respectively. As of the same dates, the Plan held 361 and 29 units, respectively, of the U.S. Equity Index Commingled Pool at a unit value of \$26.27 and \$33.75, respectively.

Plan assets of \$49,124 and \$39,502 have been allocated to the accounts of persons who are no longer active participants of the Plan as of December 31, 2002 and 2001, respectively, but who have not yet received distributions as of that date.

Note 5 - Contributions

Participants can designate an amount up to fifteen percent (15%) of their gross wages for contribution to the Plan. The employer may contribute a percentage of each eligible participant's pre-tax contribution at its discretion. Participant contributions are deposited in the investment programs of their choice. Participant contribution balances may be reallocated by participants among the investment programs at any time in increments of one percent. However, participants can reallocate deposits out of the Fixed Income Fund no more than once each calendar quarter in order to maximize the rate of return for that fund.

Bridgewater, LLC Savings and Investment (401k) Plan

Notes to Financial Statements (cont.)
December 31, 2002 and 2001

Note 5 – Contributions (cont.)

A participant's interest in employer contributions, including increases and decreases in value, vests at the rate of twenty percent (20%) per year for each year of employment with the Company. If employment terminates other than by reason of retirement, death or total and permanent disability and the participant is not reemployed within 72 months of that date, the participant's interest in the nonvested portion of the employer contributions may be applied to reduce future employer contributions under the Plan.

Note 6 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 20, 2002 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8 - Party-in-Interest Transactions

Transactions involving JCI common stock, participant loans and the funds administered by Fidelity Management Trust Company, trustee of the Plan, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.
