UBS PaineWebber 401(k) Plus Plan

Notes to Financial Statements

December 31, 2002

1. Description of the Plan

The following description of the UBS PaineWebber 401(k) Plus Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

General

The Plan is a defined contribution plan which covers substantially all employees of UBS PaineWebber Inc. (the "Company"), or any of its subsidiaries or affiliates which has adopted the Plan. The Company is a wholly owned subsidiary of UBS Americas Inc. ("UBS Americas"), which in turn is a wholly owned subsidiary of UBS AG ("UBS"). Prior to January 1, 2002, the Plan covered substantially all of the employees of UBS Americas.

The Plan became effective October 1, 1979, and has been amended from time to time. Although it is anticipated that the Plan will continue indefinitely, the Board of Directors of the Company can amend, suspend or terminate the Plan at any time provided that such action does not reduce accrued benefits of any participant. At December 31, 2002, there were 22,418 Plan participants.

The Plan is a defined contribution plan that includes four contribution types: employee contributions, a Company match, a Company retirement contribution and a qualified deferred payment (the "QDP").

The Plan's assets are invested in insurance contracts (GIC's) and a diversified pool of fixed income securities managed by UBS Global Asset Management, the S&P 500 Index Fund managed by UBS PW Trust Company (a wholly owned subsidiary of UBS Americas), the UBS Company Stock Fund and several UBS PaineWebber and non-UBS PaineWebber mutual funds.

1. Description of the Plan (continued)

Effective April 8, 2002, UBS renamed the UBS PaineWebber mutual funds' investment advisors, administrator and distributor from Brinson Advisors to UBS Global Asset Management. Effective February 20, 2001, Mitchell Hutchins Asset Management ("MHII") merged with UBS Asset Management and was renamed Brinson Advisors on April 30, 2001. As a result of the merger, MHII, a subsidiary of Mitchell Hutchins Asset Management was replaced by Brinson Advisors as investment advisor, administrator and distributor for the PaineWebber mutual funds.

Certain accounting and other administrative services are provided by affiliates of the Company at no charge to the Plan.

Master Trust

Effective January 1, 2000, the Company amended the Plan and introduced a separate retirement savings plan, the PaineWebber Puerto Rico Savings Plus Plan (the "PRSP Plan"), for employees who are residents of and working in Puerto Rico. The PRSP Plan consists of employee contributions, a Company match, a Company retirement contribution and QDP. The PRSP Plan is established under the laws of Puerto Rico and is subject to Puerto Rico contribution limits. All other features of the PRSP Plan are similar to those of the Plan. Given identical investment options, the UBS PaineWebber 401(k) Plus Plan Master Trust ("Master Trust") was established for the two Plans. The Plan's investments are all held in the Master Trust administered by The Northern Trust Company (the "Trustee").

Participant Contributions

Participant contributions can consist of "Pre-tax Contributions," which reduce the participant's taxable compensation, "After-tax Contributions," which do not reduce a participant's taxable compensation, or "Rollovers," which are transfers from other qualified retirement plans.

Prior to Plan year 2002, participants were eligible to make Pre-tax Contributions through payroll deductions of 1% to 16% of their eligible compensation. Effective January 1, 2002, as part of the Economic Growth and Tax Relief Reconciliation Act "EGTRRA," the Plan no longer places a percentage limit on the portion a participant can contribute to the Plan. However, dollar limits on participants' contributions still apply. Eligible compensation is defined as W-2 earnings (subject to certain adjustments), not to exceed \$200,000 and \$170,000 for 2002 and 2001, respectively, as adjusted by the Internal Revenue Service ("IRS"). Pre-tax Contributions are limited by the IRS to \$11,000 and \$10,500 for 2002 and 2001, respectively. As a result of EGTRRA, participants who attained age 50 on or before December 31, 2002 are limited to Pre-tax contributions of \$12,000, effective for Plan Year 2002. The limit will be subject to change in future years consistent with IRS limits.

UBS PaineWebber 401(k) Plus Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Prior to Plan Year 2002, participants were also permitted to make After-tax Contributions of 1% to 16% of their eligible compensation provided that the maximum combined rate of a participant's Pre-tax and After-tax Contributions did not exceed 16%. Effective January 1, 2002, After-tax contributions are limited to \$10,440 for Highly-Compensated Employees ("HCE's") and \$18,000 for non-HCE's. After-tax Contributions may be considered in determining the Company's matching contribution.

Rollover Contributions may also be made to the Plan. A Rollover represents a transfer from another qualified retirement plan, an individual retirement account ("IRA"), 403(b) or 457(b) arrangement provided the entire amount transferred from the IRA was attributable to a rollover from a tax-qualified plan. The amount rolled over will be credited to a participant's Employee Account and, for plan accounting and Federal income tax purposes, will be treated in a manner similar to appreciation on Pre-tax Contributions.

Company Contributions

For each plan year, Pre-tax and After-tax Contributions are used in determining the amount of the Company's matching contribution for each participant. The Company match is calculated by multiplying each participant's Pre-tax and After-tax Contributions (up to 6% of eligible compensation) by 50% and is capped on a graduated scale, which is based on UBS PaineWebber's pre-tax earnings. Company match contributions and earnings are invested according to the participant's investment elections.

The Company also provides a retirement contribution (basic profit sharing contribution) equal to a percentage of the participant's eligible compensation based on the participant's years of service with the Company as of the beginning of the Plan year. The retirement contribution is invested according to the participant's investment election in effect for Pre-tax and After-tax Contributions. If an investment election is not in place, the retirement contribution is invested in the UBS Liquid Institutional Reserves Money Market Fund ("UBS LIR Money Market Fund").

The QDP feature is a supplemental profit sharing contribution provided to participants who satisfy certain eligibility requirements. The amount of the contribution is based on a participant's age at the beginning of the Plan year. If an investment election is not in place, the QDP is also invested in the UBS LIR Money Market Fund.

1. Description of the Plan (continued)

“415 Limitation”

Under Section 415 of the Internal Revenue Code (“Code”), the annual additions to a participant’s account under the Plan (plus annual additions to any other qualified defined contribution plan in which they participate), may not exceed the lesser of \$40,000 or 100% of covered compensation, and \$35,000 or 25% of covered compensation, for 2002 and 2001, respectively. Should this occur in the Plan, the Plan would first, return After-tax Contributions, second, return Pre-tax Contributions, and third, return Company contributions.

Limitation on Contributions for HCE’s

Sections 401(k) and 401(m) of the Code also limit the amount of Pre-tax, After-tax and Company contributions that can be made to the Plan for HCE’s. As a result of those limitations, the ability of HCE’s to make Pre-tax or After-tax Contributions may be restricted and, to meet those limitations, the Plan may be required to refund Pre-tax or After-tax Contributions previously made.

Investment Options

Participants in the Plan have the option to invest their account balances and current contributions in the sixteen investment funds of the Master Trust:

1. UBS Company Stock Fund (“Stock Fund”) — The Stock Fund is a nondiversified fund consisting primarily of UBS AG ordinary shares.
2. Cash Proceeds Fund — a money market fund that was set up for a temporary period of time to hold Cash Proceeds in participant accounts related to the UBS merger.

The balance in the Cash Proceeds fund was required to be transferred into one or more of the Plan’s other investment funds no later than February 13, 2001. Any amounts remaining in this Fund after this deadline were automatically transferred to the UBS LIR Money Market Fund.

3. Putnam Vista Fund—a mutual fund sponsored and managed by Putnam Investments which is invested in a diversified portfolio of equity securities of medium size companies.

1. Description of the Plan (continued)

Vesting

A participant is always fully vested in their Employee Account. A participant is fully vested in the Company match and earnings thereon after attaining three years of service, reaching age 65, becoming totally and permanently disabled or upon death. A participant is vested in the retirement contributions and QDP contributions and earnings thereon after attaining five years of service, reaching age 65, becoming totally and permanently disabled or upon death.

The nonvested portion of a terminated participant's account ("forfeitures") is used to reduce Company contributions for the plan year during which the participant terminates.

Distributions and Withdrawals

After-tax Contributions, including all income and loss thereon, may be withdrawn by participants at any time in accordance with the provisions of the Plan. Withdrawals of Pre-tax Contributions or vested Company contributions are permitted, subject to certain limitations as set forth in the Code. All withdrawals or a portion thereof are subject to taxation as set forth in the Code.

Any unallocated assets of the Plan then held by the Trustee shall be allocated among the appropriate Company Accounts and Employee Accounts of the participants and will be distributed in such a manner as the Company may determine.

2. Significant Accounting Policies

Valuation of Investments

With respect to the Plan's investment in the Master Trust, investments are stated at fair value except for its insurance contracts (GICs) and benefit responsive agreements, which are valued at contract value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Common stock is valued at the last sales price reported on the Composite Tape on the day of valuation. Investments held in the Trustee's short-term investment fund are valued at cost, which approximates market. Fair Value is determined by quoted market prices.

Securities Transactions

Purchases and sales of investments are recorded on a trade date basis. Realized gains and losses on investments are computed using average cost.

Investment Income

Dividend income is accrued on the ex-dividend date. Dividend income for 2002 includes one dividend on UBS's common stock.

Use of Estimates

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities in the financial statements. Actual results could differ from those estimates.
