EMPLOYEE BENEFIT FUNDS OF UNITED TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1 - Organization:

The Employee Benefit Funds (the "Funds") were organized pursuant to the Master Plan for Exempt Collective Investments Funds of United Trust, formerly United National Bank, in October 1985. The Funds are comprised of the Employee Benefit Bond Fund and Employee Benefit Equity Fund. United Trust is the trustee (the "Trustee") and the administrator of the Funds.

The Funds provide common trust funds exclusively for the collective investment and reinvestment of contributions by the Trustee (or its affiliates) as an administrator or trustee of accounts under Section 501 of the Internal Revenue Code. The Funds are also maintained in conformity with the rules and regulations for common trust funds of the Comptroller of the Currency, and any other applicable laws of the United States and the State of New Jersey.

The investment policy of the Employee Benefit Bond Fund is to select securities with the primary emphasis on current income while preserving principal values. The assets of the fund may be invested by the Trustee in corporate preferred stocks, bonds or other obligations yielding a definite income return, including convertible securities. Assets may be temporarily invested in commercial paper, certificates of deposit, short-term United States Government obligations or other similar short-term taxable cash equivalents.

The investment policy of the Employee Benefit Equity Fund is to select securities for capital appreciation. The assets of this fund may be invested by the Trustee in common or other capital stocks or securities convertible into common or other classes of capital stock. Assets may be temporarily invested in commercial paper, certificates of deposit and short-term United States Government obligations or other similar short-term cash equivalents.

The Trustee is entitled to reimbursement for any reasonable expense it incurs in administering the Funds. However, the Trustee has elected to charge the Funds for the cost of the annual audit and to absorb all other costs of administration.

Note 2 - Significant accounting policies:

Securities transactions and investment income:

Securities transactions are recorded on the trade date (the date purchased or sold). Gains and losses are based on the specific identification method. Interest income is accounted for on the accrual basis; dividend income is recorded on the ex-dividend date.

EMPLOYEE BENEFIT FUNDS OF UNITED TRUST

NOTES TO FINANCIAL STATEMENTS

Note 2 - Significant accounting policies (concluded):

Valuation of investments:

Investments in securities traded on a national securities exchange are stated at the last reported sales price on the last business day of the year or any other valuation date. Securities traded in the over-the-counter market, and listed securities for which no sale was reported, are stated at the mean between the last available bid and asked prices or on the basis of quotes obtained from one or more brokers and dealers. If quotes cannot be obtained readily, the value of the security is estimated through matrix pricing, which takes into consideration such factors as coupon interest rates, maturity, credit rating, market indices and other market data as they relate to the security being valued and to similar securities for which quoted prices are available. Other investments are stated at cost plus accrued interest or amortized cost, which approximates market.

Cash and cash equivalents:

Investments in money market funds are classified as cash equivalents. The Funds maintain cash and cash equivalents in bank deposit and other accounts the balances of which, at times, may exceed Federally insured limits.

Income taxes:

Each fund is administered on a basis that makes it exempt from Federal income tax and New Jersey income tax. All of the income or losses of each fund is reportable on the tax returns of its unitholders.

Valuation of units:

Net asset value per unit is determined at the end of each month by dividing each fund's net assets by the total number of units outstanding. The total number of units outstanding is adjusted at the beginning of each month based on requests for admissions and withdrawals of units received before the beginning of the month. Units are admitted or withdrawn based on the net asset value per unit at the end of the preceding month, and amounts due in connection with admissions and withdrawals are settled during the first ten business days of the month.

Distributions to participants:

Each fund is required to distribute during the first ten days of each month its net investment income (generally accrual basis income derived from interest and dividends net of expenses) for the preceding month. Accordingly, distributions are recognized as of the end of the month for which income is being distributed. Net realized gains from investment transactions are generally retained and reinvested by the Funds.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
UnitedTrust Bank
Profit Sharing and 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of UNITEDTRUST BANK PROFIT SHARING AND 401(k) PLAN, as of December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of UNITEDTRUST BANK PROFIT SHARING AND 401(k) PLAN as of December 31, 2002 and 2001, and the changes in net assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held at end of year, assets acquired and disposed of within the plan year and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

UNITEDTRUST BANK PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE A- Description of Plan

The following description of the UnitedTrust Bank ("Company/Sponsor") Profit Sharing and 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. Employee contributions may not exceed \$11,000 or \$12,000 for employees 50 years of age or older. The Company contributes 50 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. For December 31, 2001, the Company contributed an additional 50 percent of the first 5 percent of base compensation that each participant contributed to the Plan. For December 31, 2002, the Company did not make an additional contribution. For December 31, 2002, all employer contributions were made to the participant directed investment funds. Contributions are subject to certain limitations. The Plan still permits a profit sharing contribution, but it is expected that allocated profits will go toward increasing the matching contribution rather than a profit-sharing contribution.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after seven years of credited service.

Participants may change their investment options quarterly.

6. Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance.

7. Forfeited Accounts

At December 31, 2002, forfeited nonvested accounts totaled \$18,121. These accounts will be used to reduce future administrative expenses.

NOTE B- Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared in conformity with generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds and common trust funds are valued at the net asset value of shares held by the Plan at year end. Many factors are considered in arriving at fair value. In general, corporate bonds are valued on yields currently available on comparable securities of issuers with similar credit ratings. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.
