REPORT OF THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF BANGKOK BANK PUBLIC COMPANY LIMITED

We have audited the accompanying consolidated balance sheets of Bangkok Bank Public Company Limited and subsidiaries and the balance sheets of Bangkok Bank Public Company Limited as at June 30, 2003 and December 31, 2002, and the related consolidated and the Bank's statements of income, changes in shareholders' equity and cash flows for the half years ended June 30, 2003 and 2002. These financial statements are the responsibility of the Bank's management as to their correctness and completeness of the presentation. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated and the Bank's financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Bangkok Bank Public Company Limited and subsidiaries and of Bangkok Bank Public Company Limited as at June 30, 2003 and December 31, 2002, and the results of operations and the cash flows for the half years ended June 30, 2003 and 2002 respectively, in conformity with generally accepted accounting principles.

In addition, we have also reviewed the consolidated and the Bank's statements of income, for the quarters ended June 30, 2003 and 2002. These financial statements are the responsibility of the Bank's management as to their correctness and completeness of the presentation. Our responsibility is to report on these financial statements based on our reviews.

We conducted our reviews in accordance with the Standards on Auditing applicable to review engagements. This Standard requires that we plan and perform the reviews to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provided less assurance than an audit in accordance with generally accepted auditing standards, and accordingly, we do not express an opinion.

Based on our reviews, nothing had come to our attention that causes us to believe that the consolidated and the Bank's statements of income as described in the fourth paragraph are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

As described in Notes 1.2, 3.6 and 4.6 to the financial statements, the Bank of Thailand (the "BOT") issued the Guidelines (the "Guidelines") for estimating and recording a minimum allowance for the doubtful accounts and also required the Bank to utilize the BOT defined qualitative loan review procedures. As at June 30, 2002, the Bank was carrying out the qualitative loans reviews per the BOT's notifications dated August 26, 1998 as an ongoing process. The Bank believed that the effect on the financial statements for the half year and for the quarter ended June 30, 2002 would not be material, had the Bank completed qualitative loan review procedures as required by the Guidelines. Subsequently in 2002, the BOT had replaced the Guidelines on qualitative loans reviews with the new guidelines dated September 20, 2002 and December 20, 2002. One of the main requirements is to require banks to perform qualitative reviews of their loans and commitments in accordance with the new guidelines at 25% of outstanding loans and commitments at the end of the year 2002 and subsequently to perform qualitative reviews of every single loan outstanding at the end of the calendar year (except loans that have been brought to and finalized by the court, new loans that were approved within the calendar year and retail loans that were reviewed by statistical methods). As at December 31, 2002, the Bank complied with the new guidelines and as at June 30, 2003, the Bank is in the process of performing the qualitative reviews under the new guidelines.

As described in Note 1 to the financial statements, Thailand and many other Asia-Pacific countries continue to experience economic difficulties. Such conditions have affected and may continue to adversely affect bank operations in Thailand including the Bank and its subsidiaries.

BANGKOK BANK PUBLIC COMPANY LIMITED AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED AND THE BANK'S FINANCIAL STATEMENTS
FOR THE HALF YEARS ENDED JUNE 30, 2003 AND 2002

1. ECONOMIC SITUATION AND THE OPERATIONS OF THE BANK AND ITS SUBSIDIARIES

1.1 Economic situation and the operations of the Bank and its subsidiaries

Thailand and many Asia-Pacific countries continued to experience economic difficulties. Such conditions have affected and may continue to adversely affect bank operations in Thailand, including Bangkok Bank Public Company Limited. The presenting consolidated and Bank's financial statements reflect management's assessment of the possible impact of the economic conditions on the financial position of the Bank and subsidiaries. The ultimate effect of such uncertainties on the financial position of the Bank and subsidiaries cannot be presently determined.

1.2 Allowance for doubtful accounts

The Bank of Thailand's (the BOT) requires banks to categorize their loan portfolios and set up the allowance for doubtful accounts on account-by-account basis, or alternatively, on a customer basis which is more stringent. In this respect, the Bank has adopted the more stringent requirement to classify loans on a customer basis as previously performed. The Bank classifies all loan categories belonging to one customer as the lowest quality category of such customer as well as sets up the allowance for doubtful accounts according to six loan portfolio categories at the required rate. The BOT's guidelines require banks to establish new interest accrual and reversal policies and maximum collateral valuation limits for the purpose of calculating the allowance for doubtful accounts. The guidelines require banks to perform the qualitative reviews of their loans and commitments, including off-balance-sheet exposures, on a periodic basis and to implement appropriate risk management systems and controls. However, for the first half of the year 2002, the Bank had performed the qualitative loans reviews in accordance with the BOT's guidelines in effect at the time. For the second half of the year 2002, the BOT had replaced the guidelines on qualitative loans reviews per the BOT's notification dated August 26, 1998 with the new guidelines regarding the amendment of the regulations of qualitative review of loans, commitments and its related reports dated September 20, 2002 and December 20, 2002, which requires banks to perform qualitative reviews of their loans and commitments in accordance with the new guidelines at 25% of outstanding loans and commitments as at the end of the year 2002. As at December 31, 2002, the Bank was fully in compliance with such requirement.

For the half year ended June 30, 2003, the new BOT's guidelines referred to above requires banks to perform reviews of all loans which have outstanding balance as at the end of the calendar year. (Except loans that have been brought to and finalized by the court, new loans that were approved within the end of the calendar year and retail loans that were reviewed by statistical methods.) As at June 30, 2003, the Bank was carrying out the qualitative loans reviews as an ongoing new process.

The BOT has also issued the additional amendment of the qualitative loans reviews guidelines per the notification dated March 31, 2003. The main idea of the notification was to elaborate on the qualitative loans reviews by using statistical methods for loans that have outstanding balance less than Baht 20 million as at the end of the calendar year instead of

retail loans. The Bank has already performed the process to improve the qualitative loans reviews criteria in accordance with the above notification.

Furthermore, the BOT has also issued several additional guidelines to clearly clarify the aforementioned guidelines, such as the guideline for the basis for debt restructuring and collateral appraisal of the financial institutions, worthless or irrecoverable assets or assets with doubtful value of recoverability including reports required to submit to the BOT.

1.3 Other regulatory requirements

The Bank is subject to various capital and regulatory requirements administered by the BOT. Under these capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must satisfy specific capital guidelines that involve quantitative measurements of the Bank's assets, liabilities and certain off-balance-sheet items as calculated in accordance with regulatory requirements. The Bank's capital amounts and classification are also subject to qualitative judgement by the BOT about components, risk weightings and other factors. The Bank believes that as at June 30, 2003 and December 31, 2002, the Bank met all capital adequacy requirements. However, these capital and regulatory requirements are subject to change, as considered necessary by the BOT.

2. BASIS FOR PREPARATION OF THE INTERIM FINANCIAL STATEMENTS

Bangkok Bank Public Company Limited is a public company registered in the Kingdom of Thailand with its head office located at 333 Silom Road, Bangrak, Bangkok. The Bank's main business is commercial banking and the Bank conducts its businesses through a network of branches covering all parts of Thailand and some major parts of the world. As at June 30, 2003 and December 31, 2002, the Bank has a total staff of 18,102 and 18,416, respectively.

2.1 The consolidated financial statements and the Bank's financial statements are presented in accordance with the regulations of the Stock Exchange of Thailand (SET) dated January 22, 2001, regarding the basis, conditions and procedures for the preparation and submission of financial statements position and results of operations of listed companies B.E. 2544, and with the BOT's notification regarding the balance sheets and statements of income of commercial banks dated May 10, 2001, and its related letter of July 9, 2001.

The preparation of financial statements in conformity with GAAP also requires the Bank to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

The Bank prepares its statutory financial statements in the Thai language in conformity with financial accounting standards in Thailand and as stated above. The accompanying financial statements are prepared in accordance with accounting principles and practices generally accepted in Thailand.

2.2 The consolidated financial statements include the accounts of all branches of the Bank and its six subsidiaries and eliminate significant business transactions and outstanding balances between the Bank and its subsidiaries. The six subsidiaries are BBL (Cayman) Limited,

Bangkok Bank Berhad, Bualuang Finance Company Limited, Sinnsuptawee Asset Management Company Limited, Bualuang Capital Augmented Preferred Securities (CAPS) Fund, the juristic entity established to raise capital on behalf of the Bank, and BBL Asset Management Company Limited. The consolidated financial statements do not include the financial statements of Noble Place Company Limited and Thai Precision Manufacturing Company Limited in which the Bank holds 60.61% and 59.77%, respectively, stake through debt restructuring as the Bank intends to hold such investments on a temporary basis. Noble Place Company Limited reported total assets in their December 31, 2002 audited financial statements amounting to Baht 710.0 million and Thai Precision Manufacturing Company Limited reported total assets in their December 31, 2001 audited financial statements amounting to Baht 776.2 million.

The consolidated financial statements for the quarter and the half year ended June 30, 2003 included BBL Nominees (Tempatan) SDN BHD, the 100.00% owned subsidiary of Bangkok Bank Berhad.

The consolidated financial statements for the quarter and the half year ended June 30, 2002 and balance sheet as at December 31, 2002 also included BBL Nominees (Tempatan) SDN BHD and BBL Nominees (Asing) SDN BHD, the 100.00% owned subsidiaries of Bangkok Bank Berhad.

In addition, the consolidated financial statements for the quarters and the half years ended June 30, 2003 and 2002 as well as balance sheet as at December 31, 2002 also included Bualuang Securities Company Limited, the 65.00% owned subsidiary of Bualuang Finance Company Limited.

All subsidiaries of the Bank were registered in the Kingdom of Thailand except for BBL (Cayman) Limited which was registered in Cayman Islands British West Indies and Bangkok Bank Berhad which was registered in Malaysia.

- 2.3 The Bank's financial statements include the accounts of all branches of the Bank and account for investment in subsidiaries and associated companies by the equity method. However, the Bank's interest in subsidiaries was taken from the reviewed financial statements of these companies except for Bualuang Finance Company Limited and Bualuang Securities Company Limited taken from the audited financial statements and BBL Asset Management Company Limited taken from the unreviewed financial statements; and the Bank's interest in associated companies' equity was taken from the unaudited financial statements of these companies except for Asia Credit Public Company Limited's financial statements which has been audited.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Recognition of interest income

The Bank recognizes interest income from loans on an accrual basis, except for interest which was accrued over 3 months, such interest is recognized when received. The Bank reverses all accrued interest income for items which are no longer on an accrual basis.

3.2 Recognition of interest expenses and other expenses

The Bank recognizes interest expenses and other expenses includes contribution to the Financial Institutions Development Fund on an accrual basis.

3.3 Cash

Cash are cash on hand and cash in transit.

3.4 Investments

The Bank's investments portfolios, consisting of debt, equity securities and investments in receivables are classified as trading securities, available for sale securities, held to maturity securities, general investment and investment in subsidiaries and associated companies which the Bank presents as current investments, long-term investments, and investments in subsidiaries and associated companies.

Current investments are investments which the Bank intends to hold for one year or less. Current investments include trading securities, available for sale securities and debt securities maturing within one year.

Long-term investments are investments which the Bank intends to hold for more than one year. Long-term investments include equity securities that are classified as available for sale securities, general investment and debt securities maturing more than one year.

Investment in debt securities or marketable equity securities with readily determinable market values that are acquired with the intent to hold for a short period of time in order to take advantage of anticipated changes in market values are classified as trading securities and carried at fair value. Unrealized gains and losses from changes in fair value are recognized as non-interest income.

Debt securities and investments in receivables for which the Bank has the intent and the ability to hold until maturity are classified as held to maturity debt securities and carried at the amortized cost, net of valuation allowances for impairment, if any.

Debt securities, investments in receivables and marketable equity securities with readily determinable market values that are not classified as either held to maturity securities, or trading securities or investments in subsidiaries and associated companies are classified as available for sale securities and carried at fair value, net of valuation allowances for impairment, if any. The unrealized gains or losses related to available for sale securities are reported as a component of shareholders' equity until realized, after which it will be recognized in the statement of income.

Non-marketable equity securities and listed securities acquired through debt restructuring with trading restriction are classified as general investment and carried at cost, net of valuation allowances for impairment, if any.

The Bank presented investment in subsidiaries and associated companies by the equity method, net of valuation allowances for impairment.

The Bank classified the non-negotiable promissory note and the rights of the Bank against the promissory note, which is availed by the Financial Institutions Development Fund (FIDF) and given to the Bank by the Thai Asset Management Corporation (TAMC) upon entering into the Asset Transfer Agreement in order to transfer impaired assets of the Bank, as held to maturity debt securities.

The Bank recognizes interest income on the aforementioned rights on an accrual basis and concurrently provides reserve for loss sharing from the TAMC by the same amount.

Realized gains and losses arising from the sale of debt and equity securities are computed based on the weighted average method and are included in non-interest income.

Interest income on debt securities is recognized on an accrual basis. The amortization of premiums and accretion of discounts use methods that produce a level yield. Dividend is recognized as income on an accrual basis. (Year 2002 : on a cash basis which the effect is immaterial.) These are included in interest and dividend income.

Valuation allowances for impairment are established by recognizing an unrealized loss upon impairment of investments in the statement of income as per Bank's assessment.

The fair value calculation of debt instruments

- For debt instruments of government, state enterprise bonds and other domestic debt instruments, the Thai Bond Dealing Center debt instruments bid yield is used in the case where debt instruments are listed in the Thai Bond Dealing Center. For such debt instruments that are not listed in the Thai Bond Dealing Center, the average bid yield from three reliable financial institutions will be used.
- For foreign debt instruments, the value quoted by reliable international financial institutions will be used.

The fair value determination of equity securities

For marketable equity securities with readily determinable market values, the fair value is determined by the last bid price on The Stock Exchange of Thailand on the last business day of the period. If the last bid price is not available, the last closing price will be used.

Investment in marketable unit trusts are stated at fair value based on redemption value as at the end of the year.

3.5 Loans

Overdrafts are carried at the drawn amounts including interest. Other loans are carried at the principal amounts. Unearned discounts on bills are eliminated from loans. (see Note 4.5)

3.6 Allowance for doubtful accounts

As at June 30, 2003, December 31, 2002 and June 30, 2002, the Bank estimated the minimum required allowance for doubtful accounts pursuant to the BOT's guidelines regarding worthless or irrecoverable assets or assets with doubtful value of recoverability dated February 28, 2003 to be Baht 98,924.5 million,* Baht 90,879.5 million** and Baht 105,638.7 million,*** respectively, in the consolidated financial statements and Baht 98,513.0 million,* Baht 90,469.2 million** and Baht 105,132.1 million,*** respectively, in the Bank's financial statements.

As at June 30, 2003, December 31, 2002 and June 30, 2002, the Bank and its subsidiary companies recorded allowance for doubtful accounts in excess of the minimum required reserves calculated pursuant to the BOT's guidelines in the amount of Baht 34,491.7 million, Baht 47,115.4 million and Baht 42,473.8 million, respectively, in the consolidated financial statements and of Baht 34,319.3 million, Baht 46,918.2 million and Baht 42,304.5 million, respectively, in the Bank's financial statements.

Debts that are determined to be irrecoverable are written off in the period in which the decision is taken. Bad debts recovered are recorded as an increase in allowance for doubtful accounts.

In the event of loss on debt restructuring, the Bank will reduce bad debt and doubtful accounts and allowance for doubtful accounts by the lower amount of loss on debt restructuring or allowance for doubtful accounts recorded in the previous period.

3.7 Troubled debt restructurings

The Bank's restructuring methodology includes reduction of principal and/or accrued interest receivable, asset transfer, debt-equity conversion, and modification of payment schedule.

For debt repayment through asset transfer or debt-equity conversion according to debt restructuring contract, the Bank uses conservative basis in recognizing the transferred asset or equity at the lower of recorded loan amount or asset fair value, of which the effect is not material from recording the transfer at the fair value following TAS No. 34.

For debt restructuring using modification of payment schedule, the Bank calculates the fair value of loans based on the present value of the expected future cash flows discounted by the market rate. The Bank applies lending interest rate published by the Bank and in force at the time of restructuring as the benchmarking discount rate in calculating the resulting future loss, and recognizes this loss on restructuring as expense as incurred. Subsequently, the Bank recalculates the above-mentioned future loss periodically using the lending interest rate published by the Bank and in force as at the balance sheet date as the benchmarking discount rate and recognizes the change of the above-mentioned future loss as an increase or decrease in expense in loss on restructuring accounts.

* Excluding allowance for doubtful accounts of interbank and money market items amounting to Baht 153.2 million.

** Excluding allowance for doubtful accounts of interbank and money market items amounting to Baht 153.7 million.

3.8 Properties foreclosed

Properties foreclosed consist of immovable and movable properties which are stated at the lower of cost or market value at the date of acquisition. In the event where the Bank considers that there is a decline in net realizable value, the impairment is recognized in the statement of income as a non-interest expense.

For the quarter ended September 30, 2002 onwards, net realizable value is estimated based on the appraised value together with other factors which can affect the realizable value such as related selling expenses and future discounts expenses.

Gains or losses on disposal of such properties are recognized as non-interest income or expense on the date of disposal.

3.9 Premises, equipment and depreciation

In 2000, land and premises were reappraised by independent professional appraisers according to the guidelines established by the BOT. The land and premises increment resulting from the appraisal was recorded in the accounts as unrealized increment per land and premises appraisal and shown as shareholders' equity. Depreciation of the premises appraisal increase was recognized as an expense in the statement of income and the amortization of the unrealized increment per premises appraisal was transferred to the retained earnings by the same amount of such depreciation. The appraisal decrease was charged directly against any related appraisal increase of the same piece of asset. The residual appraisal decrease was recognized as an expense in the statement of income.

In 2002, condominiums were reappraised by independent professional appraisers according to the guidelines established by the BOT.

Land is stated at new appraised value. Premises are stated at new appraised value net of accumulated depreciation. Equipment is stated at cost net of accumulated depreciation. Depreciation is calculated by the straight-line method, based on the estimated useful lives of the assets, as follows :

Premises-reappraised	20 - 30 years
Premises-newly construct	20 years
Equipment	5 years

Premises and equipment in foreign countries are depreciated at the legal rates applicable in each locality.

3.10 Legal expense paid in advance

Legal expense paid in advance represents legal expense paid for the prosecution of defaulting debtors. The Bank has made full allowance for the item as per the BOT's requirement. (see Note 4.6)

3.11 Leasehold

Leasehold is stated at cost less amortization. Amortization change is calculated by the straight-line method, based on the lease period, which range between 2-30 years. Leasehold in foreign countries are amortized at the legal rates applicable in each locality.

3.12 Assets and liabilities in foreign currencies

Transactions denominated in foreign currencies are translated into Baht at the rates of exchange prevailing at the transaction dates. Balances of assets and liabilities in foreign currencies including the balance sheets of overseas branches and foreign subsidiaries are converted at the reference rates, as announced by the BOT at the end of the period. Statements of income of overseas branches and foreign subsidiaries are converted at the reference rates, as announced by the BOT at the end of the month.

Gains and losses on foreign transactions and translation gains and losses are recognized in the statement of income. Foreign exchange translation of the financial statements of overseas branches and foreign subsidiaries are included as a component in shareholders' equity.

3.13 Sales of note receivables

For the sales of bills of exchange and promissory notes, purchased by the Bank, realized gains or losses are computed based on the purchasing cost and are included in non-interest income or expense.

3.14 Derivatives

Forward foreign exchange contracts entered into for trading purposes are marked to market with the resultant gains and losses being included in non-interest income in statement of income in the current period. Gains or losses on such contracts are taken to statement of income in the current period. Contracts entered into for hedging purposes are accounted for in a manner consistent with the accounting treatment of the hedged item.

Interest rate and currency swap agreements entered into for trading purposes are valued at their net present value after allowance for future costs and risk exposure. Gains and losses on such agreements are taken to statement of income in the current period. Agreements entered into for hedging purposes are accounted for in a manner consistent with the accounting treatment of the hedged item.

3.15 Provident fund

On June 27, 1990, the Bank registered the provident fund, which is managed by external fund manager, for its staff in accordance with the Provident Fund Act B.E. 2530 (1987). According to the Funds regulations, every employee is entitled to apply for membership. The participating employees' contribution to the fund is at the rate of 3% of employee basic salary while the Bank's contribution is at the rate of 4%. The employees are entitled to benefits upon termination of employment status.

The provident fund for overseas branches are established in accordance with each country's legal requirement and any withdrawal is made in compliance therewith.

The Bank records the contribution to the provident fund as personnel expenses in statements of income on an accrual basis.

3.16 Compound financial instruments

The Institute of Certified Accountants and Auditors of Thailand ("ICAAT") issued the Interpretation of Accounting Standard No.3, on the issue of compound financial instruments by financial institutions. The interpretation requires that in summary.

- 1) The equity instrument component (preferred shares) is valued at fair value, or by reference to ordinary share's market price at the time of issue, if there is no market value for the preferred shares, and the face value is to be recorded separately from the premium.
- 2) The balance of the financial instruments, calculated by the net amount received from the issuance of the financial instruments, deducted by the fair value of equity instrument component, is shown as a liability in the balance sheet.
- 3) The payment for the right under the compound instrument is not recognized as an asset in the balance sheet.

3.17 Income tax

The Bank's income tax expenses, if any, are recorded based on tax paid and tax accrued for the period.

3.18 Earnings (losses) per share

Basic earnings (losses) per share are calculated by dividing the net income (loss) by the average number of ordinary shares outstanding, weighted according to time and amount paid.

Diluted earnings (losses) per share are computed from adjusting the net income (loss) attributable to ordinary shares and the number of ordinary shares by the effect of dilutive potential ordinary share. The Bank has issued convertible bonds that the bondholders have the right to convert into ordinary shares. However, as at June 30, 2003 and 2002, since the exercise price of the convertible bonds was higher than the average market value of ordinary shares, calculation of the diluted earnings (losses) per share is not affected.

3.19 Use of accounting estimates

Preparation of financial statements in conformity with generally accepted accounting principles requires the Bank to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. ADDITIONAL INFORMATION

4.5.7 Transfer of assets to Thai Asset Management Corporation (TAMC)

On October 12, 2001, the Bank has entered into the Asset Transfer Agreement (the Agreement) with the TAMC in order to transfer the impaired assets of the Bank including all rights over the assets securing such assets as at December 31, 2000, as well as any other related rights or contingencies of the Bank against those debtors pursuant to the terms and conditions of the Agreement and the applicable provisions of the Royal Ordinance establishing TAMC B.E. 2544 (the TAMC Law). The price payable by TAMC to the Bank for such impaired assets transferred shall be the value of collateral of such loan but shall not exceed the book value of the loan less the allowance for doubtful accounts as at the transfer date which has been set aside pursuant to the notification of the Bank of Thailand. TAMC will make payments for assets transferred after preliminary confirmation of the transfer price by issuing a non-negotiable promissory note which is given aval by the Financial Institutions Development Fund (FIDF), to be due at the end of 10 years from the date of issuance. Such promissory note may be redeemable by TAMC prior to its maturity. The interest rate shall be the weighted average rate of deposits as defined in the Agreement and shall be determined on a quarterly basis. The interest accrued shall be payable by TAMC to the Bank annually by issuing to the Bank a non-negotiable promissory note which is given aval by the FIDF, to be due at the end of one year from the date of issuance.

The Bank and TAMC agreed to recognize any profits or losses arising from the management of the impaired assets at the end of the fifth and the tenth year starting from July 1, 2001. The profits or losses shall be calculated based on all accumulated asset recoveries on cash basis up to the date of calculation of such profits or losses less the transfer costs and other operating expenses incurred by TAMC including all interest paid by TAMC to the Bank.

In the case whereby profits are realized, the first portion of the profits, not exceeding 20% of the transfer price of the impaired assets transferred to TAMC, will be allocated to the Bank and TAMC at 50 % each. The second portion of the profits will be given to the Bank at the amount such that when included with the first profit portion shall not exceed the difference between the book value of the impaired assets

losses are realized, the first portion of the losses will be borne by the Bank but not exceeding 20% of the transfer price of the impaired assets transferred to TAMC. The second portion of the losses, not exceeding 20% of the transfer price of the impaired assets transferred to TAMC, will be allocated to the Bank and TAMC at 50% each. The residual amount of the second losses portion will be borne by TAMC.

The Bank has transferred impaired assets to the TAMC at the net amount of loan, after deducting the allowance for doubtful accounts set aside pursuant to the notification of the Bank of Thailand from the date that the Bank has entered into the Agreement until as at June 30, 2003, amounting to Baht 24,739.0 million, and for the half year ended June 30, 2003, amounting to Baht 81.8 million. In addition, during the half year ended June 30, 2003 the TAMC had revised down the balance of assets transfer prior to 2003 by Baht 172.5 million. Subsequent transfers of impaired assets will occur pursuant to the conditions stated in the Agreement.

As at June 30, 2003 and December 31, 2002, the Bank received promissory notes from TAMC relating to certain portions of transferred impaired assets amounting to Baht 20,067.2 million and Baht 18,880.6 million, respectively.

As at June 30, 2003, the allowance for doubtful accounts of Baht 133,547.4 million in the consolidated financial statements include an allowance for legal expense paid in advance of Baht 131.1 million. The allowance for doubtful accounts of Baht 132,963.4 million in the Bank's financial statements include an allowance for legal expense paid in advance of Baht 131.1 million.

As at December 31, 2002, the allowance for doubtful accounts of Baht 138,137.3 million in the consolidated financial statements include an allowance for legal expense paid in advance of Baht 142.4 million. The allowance for doubtful accounts of Baht 137,529.8 million in the Bank's financial statements include an allowance for legal expense paid in advance of Baht 142.4 million.

As at June 30, 2003 and December 31, 2002, the Bank had established allowance for doubtful accounts in excess of the minimum level required by the BOT's guideline as

For the half year ended June 30, 2003 and for the year ended December 31, 2002, collateral supporting significant loans were reappraised by either independent appraisers approved by the BOT or internal appraisers of the Bank and the subsidiaries. For collateral valuation, the Bank followed the notification of the BOT regarding worthless or irrecoverable assets or assets with doubtful value of recoverability dated February 28, 2003 and February 18, 2002, respectively, in that up to 90% of appraised value is deducted from the debtor's balance before provision for collateral that have been marked to market or appraised within 12 months. For collateral that are less frequently appraised, up to 50% deduction is applied.

For debtors with balance of less than Baht 5 million, up to 90% of the appraised value of collaterals is deducted from the debtor's balance before provision if the collateral have been marked to market or appraised within 36 months. For collateral that are less frequently appraised, up to 50% deduction is applied.

For the half year ended June 30, 2003 and for the year ended December 31, 2002, the Bank classified its assets and provisions for loan losses using guidelines in the BOT's Notification on the subject of worthless or irrecoverable assets and assets with doubtful value of recoverability dated February 28, 2003 and February 18, 2002, respectively.

4.13 Unsecured subordinated notes

On March 29, 1995, the shareholders passed a resolution for the Bank to issue and offer unsecured subordinated notes for sale to foreign and/or domestic markets in the amount not exceeding Baht 15,000 million or its equivalent in other currencies with a maturity of not exceeding 30 years. The Board of Directors was authorized to proceed with the issue.

- On June 22, 1995, the Board of Directors passed a resolution for the Bank to issue and offer unsecured subordinated notes. On September 18, 1995, the Bank issued US\$ 300 million of unsecured subordinated notes for sale to foreign investors with a maturity of 10 years at a coupon of 7.25% p.a.
- On December 21, 1995, the Board of Directors passed a resolution for the Bank to issue and offer unsecured subordinated notes. On March 25, 1996, the Bank issued US\$ 150 million of unsecured subordinated notes for sale to foreign investors with a maturity of 20

years at a coupon of 8.25% p.a.

On April 2, 1996, the shareholders passed a resolution for the Bank to issue and offer unsecured subordinated notes for sale to foreign and/or domestic markets in the amount not exceeding US\$ 400 million or its equivalent in other currencies with a maturity of not exceeding 30 years. The Board of Directors was authorized to proceed with the issue. On August 27, 1996, the Board of Directors passed a resolution for the Bank to issue and offer unsecured subordinated notes. On January 21, 1997, the Bank issued US\$ 300 million of unsecured subordinated notes for sale to foreign investors with a maturity of 30 years at a coupon of 8.375% p.a.

On January 28, 1999, the Bank issued US\$ 266.9 million of unsecured subordinated notes due 2007 with a maturity of 8 years at a coupon of 8.75% p.a. for sale to foreign investors in exchange for the Bank's existing 7.25% unsecured subordinated notes due 2005 being redeemed before their maturity, which was approved by the BOT. The Bank also issued US\$ 449.8 million of unsecured subordinated notes due 2029 with a maturity of 30 years at a coupon of 9.025% p.a. for sale to foreign investors in exchange for the Bank's existing 8.25% unsecured subordinated notes due 2016 and existing 8.375% unsecured subordinated notes due 2027 being redeemed before their maturity, which was approved by the BOT. Since TAS do not provide accounting guidance for the extinguishment of debt, this transaction was accounted for as an extinguishment of debt under the IAS. As a result, the Bank recognized in the 1999 statement of income, a gain of US\$ 259.0 million (Baht 9,503.5 million), the difference between the market price of the notes being redeemed, which is lower than the par value. The Bank recorded the book value of the unsecured subordinated notes due 2007 and the unsecured subordinated notes due 2029 in the amount of US\$ 177.5 million (Baht 6,543.1 million) and US\$ 258.7 million (Baht 9,535.1 million). The difference between the book value and the redemption value of the notes will be amortized on a monthly basis throughout the life of the notes. (see Note 4.12) The Bank paid in cash additional benefit to the unsecured subordinated note holders amounting to Baht 388.4 million.

On November 15, 1999, the Bank redeemed US\$ 0.5 million of 7.25% unsecured subordinated notes due 2005 before their maturity, which was approved by the BOT.

On August 30, 2002, the Bank redeemed US\$ 4.75 million of 7.25% unsecured subordinated notes due 2005 before their maturity, which was approved by the BOT.

4.14 Subordinated convertible bonds

On January 13, 1994, the shareholders passed a resolution for the Bank to issue and offer subordinated convertible bonds for sale to foreign markets in the amount not exceeding US\$ 500 million with a maturity of 10 years and a conversion period within 10 years, and to reserve 60 million ordinary shares to accommodate the conversion right. The Board of Directors was authorized to proceed with the issue. On January 25, 1994, the Board of Directors passed a resolution for the Bank to issue subordinated convertible bonds. On March 3, 1994, the Bank issued US\$ 400 million of subordinated convertible bonds with a maturity of 10 years at a coupon of 3.25% p.a. and conversion price of Baht 230 per share at the exchange rate of US\$ 1 to Baht 25.28 on the condition that the Bank may convert the bonds before maturity. The bondholders have the right to convert the bonds into ordinary shares at any time during the term of the bonds.

On January 29, 1999, the Bank amended the terms and conditions of the subordinated convertible bonds by increasing the coupon from 3.25% p.a. to 4.589% p.a. which have been approved by the trustee. This transaction was accounted as an extinguishment of debt under the IAS, since TAS do not provide accounting guidance for the extinguishment of debt. The amended bonds were recorded at Baht 5,778.4 million, which was the fair value at the date of issuance. The difference between the book value and the redemption value of the bonds will be amortized on a monthly basis throughout the life of the bonds. As a result, the Bank recognized a gain of Baht 3,816.6 million in the 1999 statement of income. (see Note 4.12)

On April 5, 2000, the shareholders passed a resolution for the Bank to allocate 11,495,694 ordinary shares, to be reserved additionally for the exercise of the subordinated convertible bonds. (see Note 4.19)

4.15 Convertible bonds

On April 2, 1996, the shareholders passed a resolution for the Bank to issue and offer subordinated convertible bonds and/or convertible bonds for sale to foreign and/or domestic markets in the amount not exceeding US\$ 400 million or its equivalent in other currencies with maturity not exceeding 10 years, and resolved to reserve 50 million ordinary shares to accommodate for such convertible bonds. The Board of Directors was authorized to proceed with the issue. On June 17, 1996, the Board of Directors passed a resolution for the Bank to issue and offer convertible bonds. On August 7, 1996, the Bank issued US\$ 350 million of convertible bonds with a maturity of 10 years at a coupon of 1.50% p.a. and conversion price of Baht 270 per share at the exchange rate of US\$ 1 to Baht 25.28 for sale to foreign investors. The bonds will be mandatorily redeemed at a premium at the end of year 5 subject to the terms and conditions as stated in the offering circular. The bondholders have the right to convert the bonds into ordinary shares from September 16, 1996 onwards. (see Note 4.12) The Bank has entered into interest rate swap contracts in order to hedge the risk of redemption at the end of year 5 should the above mentioned terms and conditions are met. (see Note 4.31)

On April 5, 2000, the shareholders passed a resolution for the Bank to allocate 10 million ordinary shares, to be reserved additionally for the exercise of the convertible bonds. (see Note 4.19)

4.16 Bonds

On April 5, 2000, the shareholders passed a resolution for the Bank to issue subordinated bonds and/or unsubordinated bonds and/or perpetual bonds, both subordinated and unsubordinated, and/or subordinated convertible bonds and/or convertible bonds (together "the Bonds") in an amount not exceeding US\$ 3,000 million or its equivalent in other currencies, offered and sold in foreign and/or domestic markets. The subordinated bonds and/or unsubordinated bonds shall have a maturity of not exceeding 100 years. The subordinated convertible bonds and/or convertible bonds shall have a maturity of not exceeding 30 years, and the amount of not exceeding US\$ 1,000 million or its equivalent in other currencies. The shareholders also approved the allocation of 292 million ordinary shares, to be reserved additionally with 208 million ordinary shares which remain

unexercised, totaling 500 million ordinary shares to accommodate the conversion right of the subordinated convertible bonds and/or convertible bond holders. (see Note 4.19)

4.17 Medium Term Note Program

On March 26, 1997, the shareholders passed a resolution for the Bank to issue and offer bonds including subordinated bonds and unsubordinated bonds under the Medium Term Note Program in an amount of not exceeding US\$ 1,500 million or its equivalent in other currencies. The bonds shall have a maturity of not exceeding 30 years and be offered and sold in foreign and/or domestic markets. The Bank may be given the right to redeem the bonds prior to their maturity and/or the bondholders may be given the right to call the Bank to redeem the bonds prior to their maturity in accordance with the condition of the bonds. The Board of Directors was authorized to proceed with the issue.

On August 28, 1997, the Board of Directors passed a resolution to give the authority to the Executive Board to consider and make decision, in respect of regulations, conditions and other details for the issue and offering of the bonds.

4.18 Capital Augmented Preferred Securities

On April 2, 1999, the Bank issued Capital Augmented Preferred Securities (CAPS) to Bualuang CAPS Fund, with a minimum return of 11.00 % p.a. and a maximum return of 22.25% p.a., payable quarterly, whereby the Bank issued two groups of securities and received proceeds of Baht 46,000 million.

The First Group of securities consisted of 345,000 shares of non-cumulative class A preferred shares (Preferred Shares) with a par value of Baht 10 per share and 345,000 units of subordinated perpetual bonds cum preferred shares (Group 1 Subordinated Bonds) with a par value of Baht 100,000 per unit. The dividend paid on the Preferred Shares is non-cumulative, and the unpaid dividend for any year will not be carried forward to the subsequent years. If the Bank declares dividend on the ordinary shares, the Bank has to pay a dividend of Baht 1 (one) per share on the Preferred Shares as long as the Bank still pays interest on these Bonds in full on each due date or when the liquidation preference is reduced to equal the par value of the Preferred Shares. If the Bank has not paid interest on these bonds in full on each due date, the Bank will pay the dividend on the Preferred Shares an amount equal the interest on these bonds less the amount of interest already paid in such year. The Group 1 Subordinated Bonds have a coupon of 15.00% p.a., payable semi-annually, the interest will be paid only when the Bank has paid dividend on the Preferred Shares. The unpaid interest for any year will not be carried forward to the subsequent year. The Bank may redeem the Group 1 Subordinated Bonds subject to the approval by the BOT under the following conditions.

- on or after 5 years from the issue date; or
- the Preferred Shares Cum Group 1 Subordinated Bonds can no longer be counted as tier 1 capital; or
- the interests on the Group 1 Subordinated Bonds are no longer tax deductible; or

the Bank can raise an equivalent or greater amount of fund to replace the Group 1

Subordinated Bonds; or if the Bank's tier 1 capital ratio, after the redemption of these Bonds, exceeds the minimum ratio stipulated by the BOT.

The Master Investment Agreement has terms and conditions relating to the transfer of shares, redemption of the bonds, reduction of liquidation preference of the preferred shares, payment to the preferred shareholders as specified in the Articles of Association of the Bank, and ratio of conversion into the Bank's ordinary share of the preferred share at 1:1.

The Second Group of securities issued consisted of 469,200 units of discounted zero coupon subordinated bonds and subordinated convertible bonds with a par value of Baht 100,000 per unit. The total issuance price of such bonds was Baht 11,500 million. The bonds serially mature in 29 groups. Bonds group 1 to 20 serially mature at intervals of 3 months and mature within 3 months to 5 years. Each Bonds group has a par value of Baht 1,265 million.

Bonds group 21-28 consisted of discounted subordinated convertible bonds that have a par value of Baht 1,265 million per group. These convertible bonds have a maturity between 5 years 3 months and 7 years with a maturity interval of 3 months. Bonds group 29 with a par value of Baht 11,500 million, has maturity of 7 years.

The Bank has the option to call all of the Bonds in the Second Group (group 21-29) on or after 5 years from the date of issue at the accreted value. Upon redemption the Bonds group 21-29 may be converted into the Bank's ordinary shares at Baht 100 per share as outlined in the terms and conditions. The Bank has reserved 115 million ordinary shares to accommodate such conversion right. On April 5, 2000, the shareholders passed a resolution for the Bank to allocate 35 million ordinary shares, to be reserved additionally to accommodate such conversion right. (see Note 4.19)

According to the ICAAT's interpretation of accounting standard No.3 on the issue of compound financial instruments by financial institutions, (see Note 3.18) in summary, the First Group of securities should be separated into 3 parts : 1) liabilities 2) premium on preferred shares and 3) preferred shares. However, since the amount categorized as premium on preferred share (Baht 15.2 million) is not material, it was included as liabilities in the balance sheets. As at June 30, 2003 and December 31, 2002, the presentation of the First Group of securities is as follows :

Subordinated bonds cum preferred shares	Baht	34,496,550,000
Preferred shares	Baht	3,450,000

Had the Bank accounted for the First Group of Securities in accordance with the shareholder's resolution, which was approved by the BOT and registered with the Department of Commercial Registration on April 16, 1999, the presentation in the balance sheets as at June 30, 2003 and December 31, 2002, would be as follows :

Preferred shares	Baht	3,450,000
Premium on preferred shares	Baht	34,496,550,000

4.19 Share capital

On April 5, 2000, the shareholders passed a resolution for the Bank to decrease its registered capital from Baht 20,000 million to Baht 19,983.5 million and to increase its registered capital from Baht 19,983.5 million to Baht 40,000 million by issuing 2,000 million of ordinary shares, 655,000 of Class A preferred shares and one million of Class B preferred shares. The Bank registered the decrease and increase in capital with the Department of Commercial Registration on May 25, 2000 and May 29, 2000, respectively. The shareholders have resolved to allocate the new shares as follows :

- 1,551,504,306 ordinary shares, to be offered and sold to general public, including the existing shareholders and the beneficial owners of the shares held by the custodian or by any other similar arrangements. The Bank may issue and offer these ordinary shares for sale in foreign and/or domestic markets in whole amount or in lots.
- 56,495,694 ordinary shares, to be reserved additionally for the exercise of the subordinated convertible bonds and convertible bonds, which had already been issued. (see Notes 4.14, 4.15, and 4.18)
- 292 million ordinary shares, to be reserved additionally for the exercise of the subordinated convertible bonds and/or convertible bonds, which remain unissued. (see Note 4.16)
- 100 million ordinary shares, to be reserved additionally for the exercise of right of the warrants, which remain unissued. (see Note 4.20)
- 655,000 Class A preferred shares to be offered and sold in foreign and/or domestic markets, which may be sold with the subordinated bonds to investors in foreign and/or domestic markets.
- One million Class B preferred shares to be offered and sold in foreign and/or domestic markets, which may be sold with the subordinated bonds and/or unsubordinated bonds and/or subordinated convertible bonds and/or convertible bonds to investors in foreign and/or domestic markets.

4.20 Warrants

On April 5, 2000, the shareholders passed a resolution to cancel 100 million units of warrants with a maturity of not exceeding 5 years, which was approved by the shareholders on March 18, 1999, and remain unissued. The shareholders passed a resolution for the Bank to issue up to 200 million units of warrants with a maturity of not exceeding 10 years, to be offered and sold in foreign and/or domestic markets. The shareholders also approved to allocate 100 million ordinary shares, to be reserved additionally with 100 million ordinary

shares which remain unexercised, totaling 200 million ordinary shares, to accommodate the exercise right of the warrant holders. (see Note 4.19)

4.21 The establishment of Special Purpose Vehicle to issue capital securities

On April 21, 1998, the shareholders passed a resolution for the Bank to establish Special Purpose Vehicle (SPV) to issue capital securities in the amount not exceeding US\$ 1,000 million or its equivalent in other currencies, to be offered in private placement and/or to institutional investors in accordance with the rules and guidelines of the Securities and Exchange Commission. The Bank may issue capital securities in whole amount or in lots. The Board of Directors was authorized to proceed with the establishment of the SPV.

Such capital securities may be perpetual, non-cumulative, and redeemable by the SPV or may be guaranteed by the Bank. The terms and conditions in the offering of the capital securities may state that upon specific conditions, the Bank must or may issue other securities in exchange for the capital securities.

Upon the issuance of capital securities by the SPV, the Bank may issue securities which may be subordinated; secured; convertible into ordinary shares or other securities of the Bank; or any other securities in the amount not exceeding US\$ 1,100 million or its equivalent in other currencies to the SPV. The Board of Directors has been authorized to proceed with the issuance of the capital securities by the SPV and those securities that the Bank may have to issue to the SPV. The terms and conditions of the offering of the capital securities by the SPV may include dividend payment or other kind of payment as determined by the Board of Directors and such payment may be related to payment of dividend or other payment on other securities of the Bank.

On March 18, 1999, the shareholders passed a resolution for the Bank to establish or to invest in a subsidiary or SPV for the purpose of raising fund of the Bank, by issuing preferred shares and/or bonds to the subsidiary or SPV, or the Bank may issue the preferred shares and/or bonds to a mutual fund or a juristic entity that is established for investing mainly in the Bank's preferred shares and/or bonds; and the Bank is authorized to enter into trust agreement or Master Investment Agreement between the Bank and the subsidiary or SPV or mutual fund or any other juristic entity.

4.22 Statutory reserve and other reserve

4.22.1 Under the Public Limited Companies Act, the Bank is required to allocate to a reserve fund at least 5% of its net profit after accumulated losses brought forward (if any) until the reserve fund is not less than 10% of the registered capital. However, the Bank's Articles of Association require that the Bank shall allocate to the reserve fund until the reserve fund reaches an amount of not less than 25% of the registered capital. The Bank has fully complied with such reserve requirements.

4.22.2 The Bank appropriated annual profit as other reserve, which is treated as general reserve with no specific purpose.

4.31 Disclosure of financial instruments

A financial instruments is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise at the same time.

4.31.1 Interest rate risk

Interest rate risk in the financial statements arises from the potential change in interest rates which may have an adverse effect on the net interest earnings of the Bank in the current reporting period, and in future years. Interest rate risk arises from the structure and characteristics of the Bank's assets, liabilities and equity, and in the mismatch in repricing dates of its assets and liabilities.

The Bank uses various derivative transactions to manage its assets and liabilities position in order to manage interest rate exposure.

The following table presents the Bank's on-balance-sheet financial assets and financial liabilities repricing profile, period to earlier of contractual repricing date or maturity, as at June 30, 2003 and December 31, 2002 :

4.31.2 The Bank follows the prudent asset and liability management policy in managing its foreign currencies. Specifically, the Bank funds its foreign currency assets by using the same currency offshore borrowings. In the event that the assets are funded by borrowings in other currencies, the Bank will use currency swaps so that the exchange risks can be properly hedged. Under this policy, the Bank strictly complies with the BOT's rules and regulations.

* Excluding allowance for doubtful accounts amounting to Baht 162.7 million.

4.31.3 Concentration of credit risk

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in a financial loss to the Bank. The Bank has established the credit policy of evaluating creditworthiness of its customers and requesting for sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults.

In the case of recognized financial assets, the carrying amount of the assets recorded in the balance sheets, net of any applicable provision for loss, represents the Bank's maximum exposure to credit risk.

With respect to significant geographical concentration of credit risk, since a vast majority of the Bank's businesses are conducted domestically, no additional disclosure as to concentration of credit risk from recognized financial assets is necessary.

Credit risk also arises from the possibility that the counterparty to a derivative financial instrument will not adhere to the terms of the contract with the Bank when settlement becomes due. For the forward foreign exchange contracts, approximately three-fifth of the total exposure as at June 30, 2003 and half of the total exposure as at December 31, 2002, were to domestic banks and banks in OECD countries while the rest was to banks in non OECD countries or customers from transactions undertaken to meet their risk management needs. Average tenor for forward foreign exchange contracts as at June 30, 2003 and December 31, 2002, were six months, almost all contracts was under one year tenor. For the currency swaps and interest rate swaps, almost all exposure as at June 30, 2003 and December 31, 2002, were to financial institutions.

The following table shows the credit risk of the Bank's derivative financial instruments as at June 30, 2003 and December 31, 2002 :

4.31.6 Derivative financial instruments

The Bank uses derivative financial instruments to hedge its balance sheets, to serve the needs of its customers, and for trading purposes. Derivatives used include currency swaps, interest rate swaps, and forward foreign exchange contracts. The contract or notional amounts of these instruments reflect the extent of the Bank's

* Excluding allowance for doubtful amounting to Baht 153.2 million.

** Excluding the amount of Baht 153.2 million.

involvement in particular classes of financial instruments but the amounts potentially subject to credit risk are much smaller.

Forward foreign exchange contracts

Forward foreign exchange contracts are contracts that effectively fix a future foreign exchange rate. The contract provides that, at a predetermined future date, a cash delivery will be made between the parties at a specified contracted rate. The Bank uses forward foreign exchange contracts as part of its asset/liability management and to satisfy the customers' foreign exchange risk management needs.

Interest rate and currency swaps

Interest rate swaps are contracts which involve the exchange of fixed and floating rate interest payment obligations without the exchange of the underlying principal amounts. Currency swaps are contracts which involve the exchange of interest in two different currencies, the majority of the contracts also involve the exchange of underlying principal amounts in two different currencies. Though the Bank uses swaps mainly as part of its asset/liability management, the Bank also acts as an intermediary in arranging swap transactions for customers. The Bank typically becomes a principal in the exchange of payments between the two parties and, therefore, may be exposed to a loss should one of the parties default. The Bank minimizes this risk by performing normal credit reviews on its swap customers and minimizes its exposure to the interest rate and foreign exchange risks inherent in intermediated swaps by entering into offsetting swap position that essentially counterbalance each other.

The following is a summary of the notional amounts and the fair value of the Bank's derivative financial instruments as at June 30, 2003 and December 31, 2002 :

	JUNE 30, 2003			(Million Baht)

Interest rate swaps	6,376.1	18,037.3	24,413.4	846.9

4.31.7 Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The Bank uses different methodologies for determining the fair value of financial instruments. The methodology used is dependent upon the characteristics of the financial instrument and the financial market in which it operates.

Financial instruments that have standard terms and conditions and are traded on an active and liquid market, such as investments in securities, have their fair value determined by the quoted market price. In other circumstances, the fair value is ordinarily derived from quoted market rates such as interest rates and foreign exchange rates, which are then subsequently incorporated into generally accepted pricing models, based on the discounted cash flow theory, to determine the fair value.

Although the management uses its best judgment in estimating fair values of financial instruments, estimation methodologies and assumptions used to estimate fair values are inherently subjective. Accordingly, the use of different estimation methodologies and/or market assumptions may have a significant effect on the estimated fair values.

The following table presents the Bank's carrying amount and estimated fair value of financial instruments as at June 30, 2003 and December 31, 2002 :

Interest payable	3,726.0	3,726.0	4,590.8	4,590.8

The following methods and assumptions were used by the Bank in estimating fair value of financial instruments as disclosed herein :

Cash, interbank and money market items (assets and liabilities), securities purchased under resale agreement, customers' liability under acceptances, deposits, liability payable on demand, securities sold under repurchase agreement, interest payable, and Bank's liability under acceptances: the carrying amounts approximate fair value in the balance sheets.

Trading securities, available for sale securities, and held to maturity debt securities: the fair value is based on market value. For non-marketable debt securities, fair value is determined by the average bid yield from three reliable financial institutions.

General investment consists of non-marketable equity securities, of which fair value is estimated based on discounted cash flow method or net book value amount, and listed securities acquired through debt restructuring with trading restriction, of which fair value is estimated based on discounted cash flow method or the last bid price on SET on the day that securities are transferred for debt repayment.

Loans and accrued interest receivables: fair value is based on carrying value of loans and accrued interest receivables net of allowance for doubtful accounts as most of loans are floating rate loans.

Borrowings and subordinated bonds cum preferred shares: fair value is based on market value.

Derivative financial instruments: fair value is calculated using discounted cash flow models based on current market yields and the maturity of similar instruments.

5. SUBSEQUENT EVENT

On July 10, 2003, the Bank had contracted to sell properties foreclosed to Sinnsuptawee Asset Management Co., Ltd. amounting to Baht 548.8 million for Baht 517.7 million which was its fair value. However, since the Bank had previously set aside allowance for impairment of properties foreclosed amounting to Baht 31.1 million, there was no gain or loss to the Bank from these sale transactions.
