## NEWS RELEASE

---

September 15, 2003

Trading Symbol: TSX: SI

News Release #03-14

### **SIRIT Inc. Secures Order for CDN \$5,800,000**

*California toll agency order for FasTrak™ Radio Frequency Identification (RFID) transponders is the largest in SIRIT's history. This landmark deal reaffirms SIRIT's leadership position in California for Electronic Toll Collection (ETC technology).*

**Toronto, ON – September 15, 2003** – SIRIT Inc. (“SIRIT”) (TSX: SI), is pleased to announce that it has secured an order totaling approximately CDN \$5.8 million for electronic toll collection transponders from the Transportation Corridor Agencies (“TCA”). This contract represents the largest order in SIRIT’s history and secures its position as the dominant provider of electronic toll collection transponders in California and Colorado.

The new contract calls for SIRIT to deliver transponders over the next twelve months with deliveries to commence immediately. The transponders will be used to satisfy the growing demand for electronic toll collection and to begin a proactive program to replace aging transponders whose batteries have come to the end of their normal life.

Fred Veinot, Vice President of Marketing & Strategy for SIRIT commented, “As the TCA moves into the next major wave of transponder deployments, SIRIT is pleased to again be selected as its supplier. TCA has been a long standing customer of SIRIT and we have enjoyed a successful working relationship as electronic toll collection continues to flourish and expand in Southern California.”

#### **About SIRIT:**

SIRIT is a leading designer, developer and manufacturer of radio frequency identification (RFID) products and solutions. Offering an extensive line of products and solutions that support a broad range of RFID tags, standards, and frequencies, SIRIT’s RFID products have been deployed to numerous blue chip companies across a wide range of applications including electronic toll collection (ETC), automatic vehicle identification (AVI), cashless payments, supply chain management, and product authentication. Catalyzed by the rapid development of global standards (e.g. UCC / Auto-ID, ISO), support from the leading retailers and manufacturers (e.g. Wal-Mart (NYSE: WMT)), and the promise of unprecedented efficiency improvements (e.g. real-time inventory visibility and responsiveness), RFID, which is well established in electronic toll collection, is moving to the forefront of the supply chain and other mass-market applications. As a pure play RFID company with an extensive and flexible line of products, and experienced engineering, manufacturing, and customer service teams, SIRIT is uniquely positioned to capitalize on the impending RFID revolution.

For more information on SIRIT visit [www.sirit.com](http://www.sirit.com) or call (800) 498-8760.

**FasTrak™** is a registered trademark of the Transportation Corridor Agencies.
