Independent Accountant's Report

To the Board of Directors and Shareholders of
LG Electronics Inc.

We have reviewed the accompanying non-consolidated balance sheet of LG Electronics Inc. (the "Company") as of June 30, 2003, and the related statements of income for the three-month and six-month periods ended June 30, 2003 and the three-month period from April 1, 2002 (spin-off date) to June 30, 2002, and the statements of cash flows for the three-month and six-month periods ended June 30, 2003, expressed in Korean Won. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with the quarterly and semi-annual review standards established by the Securities and Futures Commission of the Republic of Korea. These standards require that we plan and perform our review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying non-consolidated financial statements are not presented fairly, in all material respects, in accordance with financial accounting standards generally accepted in the Republic of Korea.

We have audited the non-consolidated balance sheet of LG Electronics Inc. as of December 31, 2002, and the related non-consolidated statements of income, appropriations of retained earnings and cash flows for the nine-month period from April 1, 2002 (date of spin-off) to December 31, 2002, in accordance with auditing standards generally accepted in the Republic of Korea. We expressed an unqualified opinion on those financial statements in our audit report dated January 25, 2003. These audited financial statements are not included in this review report. The balance sheet as of December 31, 2002, presented herein for comparative purposes, is consistent, in all material respects, with the audited non-consolidated balance sheet as of December 31, 2002 referred to above.

Continued;

As discussed in Note 23 to the accompanying non-consolidated financial statements, for the six-month period ended June 30, 2003, the Company entered into various transactions with affiliated companies, including sales amounting to ₩6,160,688 million and purchases amounting to ₩1,093,008 million. As of June 30, 2003, related receivables and payables approximate ₩903,046 million and ₩448,580 million, respectively.

As discussed in Note 27 to the accompanying non-consolidated financial statements, upon a resolution of the Board of Directors on July 8, 2003, the Company entered into a foreign currency convertible bond issuance contract with Morgan Stanley & Co. International Limited, also on that same day, in order to issue the convertible bonds amounting to USD287.5 million in the Luxembourg Stock Exchange.

As discussed in Note 2 to the accompanying non-consolidated financial statements, the Company has adopted the newly established Statements of Korean Financial Accounting Standards (“SKFAS”) No. 2 to No. 9 effective from January 1, 2003. The effect of this adoption of the new SKFAS was to decrease sales and cost of sales by ₩768,355 million and increase net income by ₩1,241 million for the six-month period ended June 30, 2003, and decrease retained earnings by ₩2,030 million as of June 30, 2003.

Accounting principles and review standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying non-consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles or review standards and their application in practice.

1. The Company:

As discussed in Note 25, the Company was spun off from LG Electronics Investment Ltd. (formerly LG Electronics Inc.) on April 1, 2002, to engage in the manufacture and sale of electronic, and information and communication products.

As of June 30, 2003, the Company operates manufacturing facilities in Kuro, Pyeongtaek, Chongju, Gumi, and Changwon in the Republic of Korea.

As of June 30, 2003, the Company has outstanding capital stock amounting to ₩783,961 million, including non-voting preferred stock. The Company's stock was listed on the Korean Stock Exchange on April 22, 2002, and its depositary receipts ("DRs") were listed on the London Stock Exchange in September 2002.

As of June 30, 2003, affiliated companies comprised of the LG Group, including LG Corp., and key management personnel, including the family members of such individuals, own a total of 36.1% of the Company's common stock, and financial institutions, foreign investors and others own the rest of the Company's common stock.

2. Summary of Significant Accounting Policies:

The significant accounting policies followed by the Company in the preparation of its interim non-consolidated financial statements for the three-month and the six-month periods ended June 30, 2003, which conform to the Financial Accounting Standards of the Republic of Korea, are similar to those adopted in the non-consolidated financial statements (for the nine-month period from April 1, 2002 (spin-off date) to December 31, 2002, except for the application of Statement of Korean Financial Accounting Standards ("SKFAS") No. 2 to No. 9 effective from the first fiscal year beginning after December 31, 2002. Consequently, the balance sheet as of December 31, 2002 and the statement of income for the three-month period from April 1, 2002 (spin-off date) to June 30, 2002, presented herein for comparative purposes, comply with Financial Accounting Standards of the Republic of Korea effective in December 31, 2002, and were not restated in accordance with SKFAS No. 2 to No. 9.

2. Summary of Significant Accounting Policies, Continued:

Basis of Financial Statement Presentation -

The Company maintains its official accounting records in Korean Won and prepares statutory financial statements in the Korean language in conformity with financial accounting standards generally accepted in the Republic of Korea. The accompanying non-consolidated financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. Certain information attached to the Korean language non-consolidated financial statements, but not required for a fair presentation of the Company's financial position and results of operations, is not presented in the accompanying non-consolidated financial statements.

The preparation of financial statements requires management to make estimates and assumptions that affect amounts reported therein. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from those estimates.

Spin-Off Accounting -

Upon a resolution of the shareholders of LG Electronics Investment Ltd. (formerly LG Electronics Inc.) on December 28, 2001, the Company was spun off from LG Electronics Investment Ltd. on April 1, 2002. The significant accounting policies followed by the Company in the spin off are as follows:

- Assets and liabilities are transferred based on the book value.
- Capital adjustments, including gain or loss on valuation of investment securities, which are directly related to assets and liabilities transferred to the Company, are also transferred to the Company.
- The difference between the Company's net assets transferred from LG Electronics Investment Ltd. and capital, after adjustments arising from capital adjustments, is credited to paid-in capital in excess of par value.

2. Summary of Significant Accounting Policies, Continued:

Revenue Recognition -

Revenues from finished products and merchandise are recognized when most of the risks and benefits associated with the possession of goods are substantially transferred. Accordingly, sales of finished products are recognized when inspection is completed, and sales of merchandise are recognized when delivered. Revenue from installation service contracts is recognized using the percentage-of-completion method.

The Company considers cash on hand, bank deposits and highly liquid marketable securities with original maturities of three months or less to be cash and cash equivalents.

Securities -

The Company accounts for equity and debt securities under the provisions of Statement of Korean Financial Accounting Standards No. 8, "Investments" (SKFAS 8). This statement requires investments in equity and debt securities to be classified into three categories: trading, available-for-sale and held-to-maturity.

Securities are initially carried at cost, including incidental expenses, with cost being determined using the weighted-average method. Debt securities, which the Company has the intent and ability to hold to maturity, are generally carried at cost, adjusted for the amortization of discounts or premiums. Premiums and discounts on debt securities are amortized over the term of the debt using the effective interest rate method. Trading and available-for-sale securities are carried at fair value, except for non-marketable securities classified as available-for-sale securities, which are carried at cost. Non-marketable debt securities are carried at a value using the present value of future cash flows, discounted at a reasonable interest rate determined considering the credit ratings by independent credit rating agencies.

Unrealized valuation gains or losses on trading securities are charged to current operations, and those resulting from available-for-sale securities are charged to capital adjustments, the accumulated amount of which shall be charged to current operations when the related securities are sold, or when an impairment loss on the securities is recognized. Impairment losses are recognized in the income statement when the recoverable amounts are less than the acquisition cost of securities or the adjusted cost of debt securities after the amortization of discounts or premiums.

Investments in equity securities of companies over which the Company exerts a significant control or influence (controlled investees), are recorded using the equity method of accounting. Under the equity method, the Company records changes in its proportionate ownership of the book value of the investee in current operations, as capital adjustments or as adjustments to retained earnings, depending on the nature of the underlying change in book value of the investee.

2. Summary of Significant Accounting Policies, Continued:

Securities, Continued -

The Company discontinues the equity method of accounting for investments when the Company's share in accumulated losses equals the costs of the investments, and until the subsequent cumulative proportionate net income of the investees equal its cumulative proportionate net losses not recognized during the periods when the equity method was suspended. Differences between the initial purchase price and the Company's initial proportionate ownership of the net book value of the investee are amortized over five years using straight-line method.

Unrealized profit arising from sales by the Company to the equity-method investees is fully eliminated. Unrealized profit arising from sales by the equity-method investees to the Company or sales between equity-method investees is also eliminated considering the percentage of ownership.

Foreign currency financial statements of equity-method investees are translated into Korean Won using the basic exchange rates in effect as of the balance sheet date for assets and liabilities, and annual average exchange rates for income and expenses. Any resulting translation gain or loss is included in the capital adjustments account.

Prior to January 1, 2003, marketable securities and investments in marketable equity securities of non-controlled investees were carried at fair value. Temporary changes in fair value were recorded in current operations for marketable securities and accounted for in the capital adjustments account, a component of shareholders' equity, for investments in marketable equity securities. Premiums and discounts on debt securities were amortized over the term of the debt using the effective interest rate method. Investments in debt securities, which the Company has the intent and ability to hold to maturity, were generally carried at cost, adjusted for the amortization of discounts or premiums (amortized cost). Other investments in debt securities were carried at fair value. Temporary differences between fair value and amortized cost were accounted for in the capital adjustments account. Securities in the balance sheet as of December 31, 2002, presented herein for comparative purpose, have been reclassified to conform to the presentation as of June 30, 2003. These reclassifications had no effect on previously reported net income or shareholders' equity.

Allowance for Doubtful Accounts -

The Company provides an allowance for doubtful accounts and notes receivable based on the aggregate estimated collectibility of the accounts and notes receivable.

2. Summary of Significant Accounting Policies, Continued:

Inventories -

Inventories are stated at the lower of cost or market, with cost being determined using the weighted-average method, except for inventory in-transit which is determined using the specific identification method.

Property, Plant and Equipment -

Property, plant and equipment are recorded at cost, except for upward revaluation in accordance with the Korean Asset Revaluation Law. Such revaluation presents land at the prevailing market price, and buildings and other production facilities at their replacement cost, net of accumulated depreciation and impairment write-downs, as of the effective date of the revaluation. Depreciation is computed using the straight-line method over the following estimated useful lives of the assets.

	Estimated useful life (years)
Buildings	20 - 40
Structures	20 - 40
Machinery and equipment	5 - 10
Tools	5
Furniture and fixtures	5
Vehicles	5

Routine maintenance and repairs are charged to current operations as incurred. Betterments and renewals which enhance the value of the assets over its most recently appraised value are capitalized.

The Company assesses the potential impairment of property, plant and equipment when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely, and recognizes an impairment loss when the carrying value of an asset exceeds the value of its future economic benefits. The carrying value of the impaired assets is reduced to the estimated realizable value, and an impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the assets, net of accumulated depreciation before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

2. Summary of Significant Accounting Policies, Continued:

Lease Transactions -

Lease agreements that include a bargain purchase option, result in the transfer of ownership at the end of the lease term, have a term longer than 75 percent of the estimated economic life of the leased property, or have a present value of the minimum lease payments at the beginning of the lease term amounting to more than 90 percent of the fair value of the leased property, are accounted for as capital leases. Leases that do not meet these criteria are accounted for as operating leases, of which the total minimum lease payments are charged to expense over the lease period on a straight-line basis.

Research and Development Costs -

Research costs are expensed as incurred. Development costs directly relating to a new technology or new products, for which the estimated future benefits are probable, are recognized as intangible assets. Amortization of development costs is computed using the straight-line method over five years from the commencement of the commercial production of the related products. Such costs are subject to continual analysis of recoverability. In the event that such amounts are not estimated to be recoverable, they are written-down to their net realizable value.

Intangible Assets -

Intangible assets are stated at acquisition cost, net of accumulated amortization. Acquisition cost is the total of the production or purchase cost and other incidental expenses. Amortization is computed using the straight-line method over the estimated useful lives, which range from five to ten years.

The Company assesses the potential impairment of intangible assets when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely. An impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the asset, net of amortization before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

Interest Capitalization -

Interest expense incurred on borrowings used to acquire property, plant and equipment, intangible assets and investments are all charged to expense as incurred when at least one year is required to bring the related asset to working condition for its intended use.

2. Summary of Significant Accounting Policies, Continued:

Discounts (Premiums) on Debentures -

Discounts (premiums) on debentures are amortized using the effective interest rate method over the repayment period of the debentures. The amortized amount is included in interest expense.

Treasury Stock -

Treasury stock are stated at cost and recorded as a capital adjustment in shareholders' equity. Gain on disposal of treasury stock is recorded as a capital surplus. Any loss on disposal of treasury stock is offset against prior gains on disposal of treasury stock included in capital surplus. The remaining loss is offset against retained earnings.

Product Warranty Provision -

The Company provides warranties against product defects for a specified period of time after sale. Estimated costs of product warranties are charged to current operations at the time of sale and are included in the accompanying non-consolidated balance sheet as a product warranty provision.

Accrued Severance Benefits -

Employees and directors with at least one year of service are entitled to receive a lump-sum severance payment upon termination of their employment with the Company, based on their length of service and rate of pay at the time of termination. Accrued severance benefits represent the amount which would be payable assuming all eligible employees and directors were to terminate their employment as of the balance sheet date.

Contributions made under the National Pension Plan and severance insurance deposits are deducted from accrued severance benefits. Contributed amounts are refunded from the National Pension Plan and the insurance companies to employees upon their retirement.

Income Taxes -

The Company recognizes deferred income taxes for anticipated future tax consequences resulting from temporary differences between amounts reported for financial reporting and income tax purposes. Deferred income tax assets and liabilities are computed on such temporary differences by applying enacted statutory tax rates applicable to the years when such differences are expected to be reversed. Deferred income tax assets are recognized to the extent that it is certain that such deferred income tax assets will be realized. The total income tax provision includes current tax expenses under applicable tax regulations and the change in the balance of deferred income tax assets and liabilities.

2. Summary of Significant Accounting Policies, Continued:

Income Taxes, Continued -

Tax credits for investments and development of research and manpower are accounted for using the flow-through method, whereby income taxes are reduced in the period the assets giving rise to such credits are placed in service. To the extent such credits are not currently utilized, deferred income tax assets, subject to realizability as stated above, are recognized for the carry-forward amount.

Sale of Accounts and Notes Receivable -

The Company sells certain accounts or notes receivable to financial institutions at a discount, and accounts for the transactions as a sale of the receivables, if the rights and obligations relating to the receivables are substantially transferred to the buyers. The gains and losses from the sale of the receivables are charged to current operations as incurred.

Foreign Currency Translation -

Monetary assets and liabilities denominated in foreign currencies are translated into Korean Won at the basic rates in effect at the balance sheet date, and resulting translation gains and losses are recognized in current operations.

The exchange rate used to translate U.S. Dollar denominated monetary assets and liabilities as of June 30, 2003 and December 31, 2002 is ₩1,193.1: US\$1 and ₩1,200.4: US\$1, respectively.

Derivative Financial Instruments -

The Company utilizes several derivative financial instruments ("derivatives") such as forward exchanges, swaps and option contracts to reduce its exposure resulting from fluctuations in foreign currency and interest rates. The derivatives are carried at fair market value. Unrealized gains or losses on derivatives for trading or fair value hedging purposes are recorded in current operations. Unrealized gains or losses on derivatives for cash flow hedging purposes are recorded in current operations for the portion of the hedge that is not effective. For the portions of cash flow hedges which are effective, unrealized gains or losses are accounted for in the capital adjustments account and recorded in current operations in the period when the underlying transactions have an effect on operations.

Application of the Statements of Korean Financial Accounting Standards -

The significant accounting policies followed by the Company in the preparation of its non-consolidated financial statements for the three-month and the six-month periods ended June 30, 2003, which conform to Financial Accounting Standards of the Republic of Korea, including Statement of Korean Financial Accounting Standards ("SKFAS") No. 2 to No. 9 effective from the first fiscal year beginning after December 31, 2002, are similar to those adopted in the non-consolidated financial statements for the nine-month period from April 1, 2002 (spin-off date) to December 31, 2002, except for the following items:

In accordance with the newly effective SKFAS No. 4 on revenue recognition, the Company changed its accounting policy for revenue recognition of outsourcing for assembling activities. Raw materials provided to subcontractors for assembling were previously recognized as sales when taken out of the warehouse, and recognized as purchases when the assembled materials were returned. Effective from January 1, 2003, only outsourcing fees related with assembling are recognized as manufacturing costs. Furthermore, effective from April 1, 2003, only manufacturing fees are recognized as sales for manufacturing services in which the Company does not substantially retain the risks and ownership of the raw materials purchased. The effect of this application of SKFAS No. 4 was to decrease sales and cost of sales for the six-month period ended June 30, 2003 by approximately ₩768,355 million.

In accordance with the newly effective SKFAS No. 3 on intangible assets, the Company deducted its remaining balance of organization costs, which had been accounted for as an intangible asset, from retained earnings as of December 31, 2002. The effect of this application of SKFAS No. 3 was to increase net income for the six-month period ended June 30, 2003 by ₩1,241 million and decrease retained earnings as of June 30, 2003 by ₩2,030 million.

16. Commitments and Contingencies, Continued:

In order to reduce the impact of changes in exchange rates on future cash flows, the Company has entered into foreign currency forward contracts. As of June 30, 2003, the Company has outstanding forward contracts with Deutsche Bank and others for selling US dollars amounting to US\$82 million (contract rates: ₩1,192.00: US\$1 ~ ₩1,274.45: US\$1, contract due dates: July through December 2003).

As of June 30, 2003, the Company has outstanding forward contracts with Credit Lyonnais for selling Euro and buying US Dollars amounting to € 10 million (contract rates: € 1.1409: US\$1 ~ € 1.1723: US\$1, contract due dates: August through September 2003).

As of June 30, 2003, the Company has outstanding forward contracts with UFJ Bank and others for selling US dollars and buying Japanese Yen amounting to US\$15 million (contract rates: ¥118.07: US\$1 ~ ¥119.35: US\$1, contract due dates: July through September 2003).

As a result of the above foreign currency forward contracts, an unrealized valuation gain and loss amounting to ₩1,090 million and ₩1 million, respectively, were charged to current operations for the six-month period ended June 30, 2003.

In order to reduce the impact of changes in exchange rates, the Company has entered into foreign currency option contracts. An unrealized valuation gain amounting to ₩440 million was charged to current operations for the six-month period ended June 30, 2003. A summary of the terms of outstanding currency option contracts as of June 30, 2003 is as follows:

	Option type	Amount (In millions)	Exercise price	Contract due date
Deutsche Bank	Put	US\$ 5.0	₩ 1,190.0/US\$	November 21, 2003

16. Commitments and Contingencies, Continued:

As of June 30, 2003, the Company is named as the defendant in legal actions which were brought against the Company by AVS Corporation in Canada and Mahmood Saleh Abbar Co. in Saudi Arabia. In addition, the Company is named as the defendant or the plaintiff in various foreign and domestic legal actions arising from the normal course of business. The aggregate amounts of domestic claims as the defendant and the plaintiff amounted to approximately ₩2,884 million in seventeen cases and ₩1,909 million in twelve cases, respectively, as of June 30, 2003. The Company believes that the outcome of these matters is uncertain but, in any event, they would not result in a material ultimate loss for the Company. Accordingly, no provision for potential losses arising from these claims is reflected in the accompanying non-consolidated financial statements.

Zenith Electronics Corporation ("Zenith"), a subsidiary, has experienced significant financial difficulties resulting from continuous losses. Zenith filed a pre-packaged plan of reorganization under Chapter 11 of the Bankruptcy Code of the United States of America, and the reorganization plan was approved by a legal court in November 1999. As a result of the reorganization plan, the Company owns 100% of equity in the restructured Zenith. However, due to continuous losses and accumulated deficits, as of June 30, 2003, Zenith's total liabilities are greater than its total assets by ₩271,323 million (US\$227 million). As of June 30, 2003, the Company has ₩137,738 million (US\$115 million) of senior secured notes issued by Zenith, ₩71,586 million (US\$60 million) of loans to Zenith, and ₩13,124 million (US\$11 million) of guarantees provided to Zenith. As of June 30, 2003, the Company provided bad debt allowance amounting to ₩136,764 million for the above senior secured notes and loans (Note 9).

In response to the generally unstable economic conditions, the Korean government and the private sector have been implementing structural reforms to historical business practices. Implementation of these reforms is progressing slowly, particularly in the areas of restructuring private enterprises and reforming the banking industry. The Korean government continues to apply pressure to Korean companies to restructure into more efficient and profitable firms. The Company may be either directly or indirectly affected by these generally unstable economic conditions and the reform program described above. The accompanying non-consolidated financial statements reflect management's assessment of the impact to date of the economic situation on the financial position of the Company. Actual results may differ materially from management's current assessment.

19. Retained Earnings, Continued:

The Commercial Code of the Republic of Korea requires the Company to appropriate, as a legal reserve, an amount equal to a minimum of 10% of cash dividends paid until such reserve equals 50% of its issued capital stock. The reserve is not available for the payment of cash dividends, but may be transferred to capital stock through an appropriate resolution by the Company's Board of Directors or used to reduce accumulated deficit, if any, through an appropriate resolution by the Company's shareholders.

In accordance with the regulations regarding securities' issuance and disclosure, the Company is required to appropriate, as a reserve for improvement of financial structure, a portion of retained earnings equal to a minimum of 10% of its annual income plus at least 50% of the net gain from the disposal of property, plant and equipment after deducting related taxes, until equity equals 30% of total assets. This reserve is not available for the payment of dividends, but may be transferred to capital stock through an appropriate resolution by the Company's Board of Directors or used to reduce accumulated deficit, if any, through an appropriate resolution by the Company's shareholders.

Pursuant to the Special Tax Treatment Control Law, the Company is allowed to appropriate retained earnings as a reserve for research and manpower development. This reserve is not available for the payment of dividends until used for the specified purposes or reversed.

22. Earnings Per Share:

Basic earnings per share are computed by dividing net income by the weighted-average number of common shares outstanding during the period. Basic ordinary income per share is computed by dividing ordinary income allocated to common stock, which is net income allocated to common stock as adjusted by extraordinary gains or losses, net of related income taxes, by the weighted-average number of common shares outstanding during the period.

Basic earnings per share for the three-month and six-month periods ended June 30, 2003 are calculated as follows:

	Millions of Won	
	(except for earnings per share data)	
	Three-month period ended June 30, 2003	Six-month period ended June 30, 2003
<u>Basic earnings per share</u>

25. Spin-Off:

Upon a resolution of the Board of Directors on November 15, 2001 and a resolution of the shareholders on December 28, 2001, the Company was spun off from LG Electronics Investment Ltd. on April 1, 2002. On April 2, 2002, the Company completed the registration process required for new companies, in accordance with the Commercial Code of the Republic of Korea. In addition, on March 1, 2003, LG Electronics Investment Ltd. was legally merged into LG Chem Investment Ltd. (LGCI), which changed its name into LG Corp. after the merger.

In accordance with the provisions in the Commercial Code Article No. 530-2, LG Electronics Investment Ltd. established the Company to engage in the electronics and information and communications businesses.

The Company issued shares within the amount of net assets, which is the difference between the transferred assets and liabilities, and the shares were distributed to the shareholders of LG Electronics Investment Ltd. in proportion to their shares.

Accrued severance liabilities for employees working for the Company were transferred effective April 1, 2002.

The Company and LG Corp. jointly and severally hold a guarantee for the obligations before the spin-off.

Condensed financial information as of April 1, 2002 of the two companies after the spin-off is as follows:
