PROVIMI : NEW RUSSIAN PREMIX FACILITY

Paris/Rotterdam, 19 September 2003

Provimi (listed on the Euronext *Premier Marché* in Paris, member of SBF 120 indices, MidCAC and Next 150), a global leader in Animal Nutrition, today announced that its company Provimi Ltd (Russia) has opened a new premix facility in Azov, Russia, where it already operates a plant.

The new premix unit will manufacture products for the major species such as poultry, swine and ruminants. Products will be used by both customers and the other Russian plants of Provimi. Local production will allow Provimi to deliver quicker and to have the possibility to produce customised products. It will also help avoid delivery delays due to import restrictions.

Provimi's Russian head office is located in Moscow. Provimi operates four industrial sites in Russia: the companies Hercules near Moscow and Volosovsky near St. Petersburg, a complete feed and a premix plant in Azov and one plant near Samara. In Russia, Provimi employs about 1000 staff in total.

The Provimi Group is active worldwide in all types of animal nutrition and is a leader in all markets where it is present. It employs over 8,000 people and had sales in 2002 of over EUR 1.5 billion. Provimi has 96 production centres in 28 countries and exports to over 100. Provimi manufactures products and supplies technical support for all species, including ruminants, poultry, swine, fish and pets.
