**VA TECH ELIN EBG****P R E S S   I N F O R M A T I O N**

**VA TECH ELIN EBG Haustechnik GmbH & Co delivers HVAC equipment for two Upper Austrian hospitals. Total order intake amounts to approximately EUR 4.7 m.**

**Steyr regional hospital**

The LKV Krankenhaus Errichtungs- und Vermietungs-GmbH awarded a contract for erecting sanitary plants and -elements, media supply and fire extinguish equipment for the new and the extended complex of the Steyr regional hospital.

In the three parts of the complex, sanitary plants for in about 200 beds, 60 toilets and a canteen kitchen will be erected. For the drinking water supply (80,000 litre/hour) a new pressure increase plant including water treatment (filtering, softening, metering, osmosis plant for steam boiler) is necessary.

The completion of the plant is scheduled for the end of 2005.

**Linz women and children's clinic**

The order (again from the LKV Krankenhaus Errichtungs- und Vermietungs-GmbH) covers the complete erection of the heating and cooling plants for the new complex between the general hospital and the children's clinic as well as for the conversion of three floors in the child's clinic.

The district heating plant with an overall performance of approximately 1.750 kW is used for the thermal supply of the static heating areas, the floor heating, the ventilation system as well as for the central water heating of the whole complex. The necessary refrigerating capacity of about 1.200 kW for the supply of the aero therapy units is guaranteed by two chillers with four heat exchangers.

The completion of this plant is scheduled for February 2006.
