Earnings after financial items, SEK M	1,974	1,967	2,053
Net earnings, SEK M	1,395	1,365	1,468

¹ Including items affecting comparability. SEK 197 M before taxes and SEK 154 M after taxes.

Compared with first quarter of 2002

- Earnings per share amounted to SEK 6.02 (5.89)
- Operating profit for Hygiene Products at same level as the year earlier. Packaging declined 6% and Forest Products 23%
- Cash flow from current operations rose to SEK 1,730 M (1,585)

Compared with fourth quarter of 2002

- Earnings per share amounted to SEK 6.02 (6.33)
- Operating profit for Hygiene Products declined 6%, but with only limited effect on operating margin. The decline for Packaging was 12% and for Forest Products 27%.

NET SALES AND EARNINGS

Earnings per share amounted to SEK 6.02 (5.89). Net earnings amounted to SEK 1,395 M (1,365), including the earnings effect of the sale of shares in Metsä Tissue of SEK 154 M.

Consolidated net sales amounted to SEK 21,890 M (21,015), an increase of 4% compared with the year-earlier period. The net effect of company acquisitions and divestments amounted to 7%, while volumes and prices contributed 2%. Currency movements had a negative effect of 5% on consolidated net sales.

Group operating profit amounted to SEK 2,200 M (2,220). Excluding items affecting comparability of SEK 197 M, attributable to the sales of shares in Metsä Tissue, operating profit declined 10% to SEK 2,003 M. Operating profit for Hygiene Products was at the same level as a year earlier and amounted to SEK 1,275 M (1,283). Operating profit for the Packaging operations amounted to SEK 691 M (738), down 6%. Operating profit of Forest Products fell 23% to SEK 407 M (532). Currency movements had a negative impact of 7% on operating profit, while the increase since year-end of current pension costs affected earnings by 4%.

Operating margin for the Group was 10% (11). The margin for Hygiene Products was unchanged, 12%, but declined to 9% (10) for Packaging and 11% (16) for Forest Products.

Financial items improved by SEK 27 M to an expense of SEK 226 M (expense: 253), mainly due to lower interest rates. Group earnings after financial items amounted to SEK 1,974 M (1,967). Excluding items affecting comparability, earnings amounted to SEK 1,777 M.

Return on shareholders' equity was 12% (13), and return on capital employed was 13% (13).

Comparison with the fourth quarter of 2002

Consolidated net sales amounted to SEK 21,890 M (22,429), down 2%. Currency movements affected net sales adversely by 1%. Consolidated operating profit totaled SEK 2,200 M (2,318). Excluding items affecting comparability, earnings declined 14% to SEK 2,003 M. The operating profit for Hygiene Products declined 6%, for Packaging 12% and for Forest Products 27%. Increased pension costs in the Group accounted for 4% of the decline, while currency movements only had a marginal effect.

In hygiene operations, operating profit declined, among other reasons as a result of lower prices and volumes in consumer tissue. Packaging's operating profit was adversely affected by pension costs, higher energy costs and somewhat lower volumes for protective packaging. Forest Products' lower operating profit was due to lower publishing paper prices and lower volumes.

Operating margin for the Group and Hygiene Products was unchanged, 10% and 12%, respectively. Packaging's margin declined to 9% (10) and Forest Products' to 11% (16).

Financial items amounted to an expense of SEK 226 M (expense: 265).

CASH FLOW

The operating cash surplus amounted to SEK 3,599 M (3,763), corresponding to 16% (18) of net sales. Net current capital expenditures during the period amounted to SEK 607 M (549), while working capital increased by SEK 698 M (667). Operating cash flow amounted to SEK 2,216 M (2,577).

Taxes attributable to operating profit amounted to SEK 323 M (739) and, accordingly, free cash flow amounted to SEK 1,893 M (1,838). Cash flow from current operations – defined as cash flow before strategic investments and dividend – amounted to SEK 1,730 M (1,585) or SEK 7.45 (6.83) per share.

Company acquisitions amounted to SEK 544 M (4,800) on a debt-free basis, and are related to the acquisition of Scaninge's sawmill operations and a protective packaging company in North America. Concurrently, the sale of the shares in Metsä Tissue generated SEK 650 M. Strategic investments in machinery and properties as well as restructuring measures amounted to SEK 706 M (407), of which nearly half is attributable to the ongoing tissue investment in Alabama, in the US.

Comparison with the fourth quarter of 2002

Cash flow from current operations amounted to SEK 1,730 M (2,133). The deviation is attributable primarily to seasonal variations in the Group's tied-up working capital.

FINANCING

Net debt amounted to SEK 22,350 M (23,899), a decline of SEK 1,549 M. Net cash flow amounted to SEK 1,131 M and positive currency movements to SEK 418 M.

The Group's shareholders' equity increased during the quarter by SEK 1,001 M to SEK 48,984 M. Net earnings in the period increased shareholders' equity by SEK 1,395 M and currency movements had a negative effect of SEK 395 M.

The debt/equity ratio amounted to 0.45 (0.57), compared with 0.49 at the beginning of the year. The interest coverage multiple was 9.7 (8.8).

¹ Compared with the immediately preceding quarter.

² Compared with corresponding period previous year.

See also pages 11-12, 17-19 and the previously reported format on pages 21-22.

Net sales amounted to SEK 10,906 M (10,686), an increase of 2% compared with the year-earlier period. Most of the increase, 8 percentage points, was attributable to the net effect of the CartoInvest tissue company acquired in 2002 and divested operations. Organic growth, primarily in incontinence operations, lifted sales. Currency movements reduced net sales by 5%.

Operating profit was marginally lower than a year earlier and amounted to SEK 1,275 M (1,283). As a result of the USD price hikes being implemented for pulp at the same time as the USD weakened, the hygiene operation's price situation for pulp was unchanged. Accordingly, company acquisitions and lower production costs could offset lower volumes and prices within consumer tissue and higher energy costs. Currency movements reduced operating profit by 1%.

Compared with the fourth quarter of 2002, operating profit declined 6%, due mainly to lower prices for consumer tissue and changed product mix for feminine hygiene products. Higher energy costs in the North American AFH operations also contributed to the decline. The price hikes implemented in North America in the beginning of the third quarter of 2002 have successively been eroded.

Consumer tissue

Operating profit declined 3% to SEK 395 M (406). Lower volumes and prices offset the positive effects of reduced production costs and the acquisition of CartoInvest.

Compared with the fourth quarter of 2002, operating profit declined 8% to SEK 395 M (431). The decline in operating profit is due mainly to lower prices and volumes as a result of intensive competition in Germany and the UK. To some extent this was offset by lower production costs.

Personal care

Operating profit declined 3% to SEK 592 M (611). The strong volume growth in the incontinence area continued, primarily for light incontinence products, while at the same time production costs in the product area declined. However, this could not compensate for the negative effects of intense competition for feminine hygiene products in Latin America, among other factors. The trend for feminine hygiene products in Europe remained stable.

Compared with the fourth quarter of 2002, operating profit declined 3% to SEK 592 M (608), mainly due to seasonal reasons.

Tissue for bulk consumers - AFH

Operating profit for AFH products amounted to SEK 288 M (266), an increase of 8% compared with the corresponding period a year earlier. The improvement in operating profit is due mainly to increased prices in the European operations. However, the increase was reduced by higher raw material and energy costs in the North American operations.

Compared with the fourth quarter of 2002, operating profit declined and amounted to SEK 288 M (318). Operating profit were affected favorably through organic growth in Europe but increased raw material costs adversely affected operating profit. The AFH operation in North America posted lower operating profit, mainly due to higher energy costs.

See also pages 11-12 and 17-19.

Net sales for the period totaled SEK 7,715 M (7,340), an increase of 5%. The increase was primarily attributable to acquisitions of the Stabernack and Bertako packaging companies and protective packaging companies in North America, which combined contributed 6%. At the same time, higher prices contributed 3%, while lower volumes reduced net sales by 1%. Currency movements had a negative effect on net sales of 3%.

Operating profit amounted to SEK 691 M (738), a decline of 6%. Operating profit were affected by the increase in the Group's pension costs that occurred at year-end and which primarily affected the packaging operation's extensive activities in the UK and the Netherlands. Operating profit in protective packaging were adversely affected by lower volumes. Currency movements reduced operating profit in the business area by 6%. Higher raw material costs were offset by higher prices for corrugated board.

Compared with the fourth quarter of 2002, operating profit declined 12% to SEK 691 M (786). In addition to pension cost increases, SEK 60 M, higher energy costs and the lower volumes in the protective packaging area contributed to the decline. Currency movements affected operating profit only marginally.

Net sales for Forest Products were 7% higher than in the year-earlier period, amounting to SEK 3,561 M (3,317). The effect of lower paper prices was offset by higher volumes as a result of the new SC machine in Laakirchen and the acquisition of Scanning's sawmill operations, which was included as of March. In addition, higher prices and volumes in the existing sawmill operations contributed to the increase. Currency movements affected net sales negatively by 4%.

Operating profit amounted to SEK 407 M (532), a decline of 23%. Despite increased volumes, the operating profit for publication paper operations declined due to lower prices. Pulp operations also showed a decline in operating profit due to lower internal settlement prices. In total for the business area, the negative effects of currency movements amounted to 20%.

Compared with the fourth quarter of 2002, operating profit was down 27% due mainly to lower prices for publication papers and lower volumes. Currency movements had only a marginal effect on operating profit.

Publication papers

Operating profit from publication paper operations amounted to SEK 211 M (277), a decline of 24%. The market for publication papers remained weak. The sharp decline was due primarily to lower prices, but higher energy costs also contributed to the decline in operating profit.

Operating profit during the first quarter of 2003 declined compared with the fourth quarter of 2002 and amounted to SEK 211 M (305), down 31%. The decline in operating profit was due mainly to lower prices and volumes.

Pulp, timber and solid wood products

Operating profit amounted to SEK 196 M (255), a decline of 23% compared with the year-earlier period. The decline is attributable mainly to lower internal settlement prices for pulp, while solid-wood product operations increased their operating profit as a result of higher capacity utilization and higher prices.

Compared with the fourth quarter of 2002, operating profit in the first quarter was down 23% due mainly to reduced harvesting in own forests. The sawmill operations continued to show improved operating profit, through higher prices and through acquisition of Scanning's sawmill operations.

INTERIM REPORT 1 JANUARY - 31 MARCH 2003

GOODWILL

Consolidated goodwill amounted to SEK 15,335 M (17,650). Currency movements contributed about SEK 1,300 M to the reduction. Goodwill is amortized over 20 years. Goodwill amortization by business areas is presented on pages 12 and 18.

PERSONNEL

The number of SCA Group employees at the close of the quarter was 43,437, compared with 41,618 at the close of the first quarter of 2002¹. The increase was attributable to company acquisitions.

MARKET OUTLOOK

Demand for the Group's consumer-oriented products during the first quarter remained stable. In the consumer tissue area, competitive pressure increased successively during the past quarter, particularly within in branded products in the UK and Germany. For areas depending on development within the industrial sector, the situation remains difficult to assess. However, it can be noted that the price level for converted corrugated packaging is relatively stable. A recovery in the European advertising climate has not occurred, whereby it does not appear that an improvement in the situation for the publication papers market is impending. Development in the Group's North American operations will depend on the continued economic course of event in North America, which in the short-term perspective is difficult to assess.

OTHER

The value of the pension foundations' assets declined in the first quarter of 2003 by about SEK 0.2 billion as a result of the continued weak stock market trend.

In January 2003, SCA divested its holding of shares in Metsä Tissue to the majority owner M-Real. As a result of the transaction, SCA released capital corresponding to about SEK 650 M. The shareholding was part of the Group's capital employed. As a result of the divestment, SCA reports a capital gain of SEK 47 M. SCA's operating profit for the first quarter of 2003 were affected positively by an additional SEK 150 M, attributable to the reversal of a provision made in 2001 to cover any costs incurred in conjunction with the disposal of the minority holding, among other items.

SCA is following the Swedish Financial Accounting Standards Council's recommendation and as of this interim report, SCA is reporting in accordance with the new accounting recommendation RR25, "Reporting by segments - operating sectors and geographical areas." SCA is dividing the hygiene operations into segments (1) consumer tissue, (2) personal care² and (3) tissue for bulk consumers - AFH. Packaging and Forest Products are being reported as previously. In the annual report, assets and cash flow will be reported for these segments. In accordance with the recommendation, the Group's sales, assets and investments will also be reported by region³.

In accordance with the guidelines in RR20, it is reported that the Group's parent company, Svenska Cellulosa Aktiebolaget SCA (publ) owns the forestlands and other fixed properties that are part of the Group's forestry operations and provide felling rights for standing timber to its subsidiary SCA Skog AB. In other respects, the parent company is a holding company whose main task is to own and manage shares in a number of business-group companies and to provide Group-wide management and administration. Operating revenues for the period January-March 2003 amounted to SEK 38 M (23) and earnings before appropriations and taxes to a loss of SEK 385 M (loss: 160). Investments in property and plant during the period amounted to SEK 15 M (5). Liquid funds at the end of the period amounted to SEK 35 M (28).

¹ Including SCA's portion of joint-venture companies.

² Personal care includes baby diapers, feminine hygiene products and incontinence products.

³ The regions to be reported are Europe, North America and Rest of the World.
