NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2003

NOTE 1- ORGANIZATION AND NATURE OF BUSINESS

Organization

Waxman Securities, Inc. (an S corporation) was incorporated in the State of New York in 1986. The Company is registered as a securities broker-dealer with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc.

The Company conducts a general securities business by introducing transactions on a fully-disclosed basis to a clearing member broker/dealer which carries all accounts and prepares and maintains all books and records pertaining thereto pursuant to SEC Rules 17a-3 and 17a-4, as are customarily made and kept by a clearing broker/dealer.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

All short-term investments with an original maturity of three months or less are considered to be cash equivalents.

Concentration of Credit risk

Financial instruments which potentially subject the Company to concentration of credit risk consist of cash deposits.

Cash balances are held principally at one financial institution and may, at times, exceed insurable amounts. The Company believes it mitigates its risks by investing in or through major financial institutions. Recoverability is dependent upon the performance of the institution.

Depreciation and Amortization

The cost of furniture and equipment is depreciated over the estimated useful lives of the related assets. The cost of leasehold improvements is amortized over the lesser of the length of the related lease or the estimated useful life of the assets. Depreciation is computed on an accelerated basis for both financial reporting purposes and income tax purposes. Leasehold improvements for income tax purposes are amortized in accordance with Internal Revenue Service regulations.

Revenue Recognition

Securities transactions and related income and expenses are recorded on a settlement date basis. Commission revenues are also recorded on a settlement date basis.

Marketable securities owned by the Company are stated at quoted market values with unrealized gains and losses reflected in income.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
