1. Nature of Business and Significant Accounting Policies

Nature of Business

DSIL Investment Services LLC ("the Company") is a wholly owned subsidiary of Domini Social Investments LLC ("the Parent"), a registered investment adviser under the Investment Advisers Act of 1940. The Company is a broker dealer who acts as the principal underwriter and distributor for mutual funds sponsored by the Parent.

The Company is currently exempt from the provisions of SEC Rule 15c3-3 based on Paragraph (k)(1) of the rule. The Company does not hold funds or securities for, or owe money or securities to, customers.

Significant Accounting Policies

A summary of significant accounting policies follows:

Cash

Cash includes cash on hand and bank demand deposits.

Income Taxes

The Company is a single member limited liability company whose parent is a multi-member limited liability company classified as a Partnership for federal income tax purpose. The Company is a "disregarded entity" for tax purposes and its income is included in the Parent's Partnership return and therefore no provision for income taxes is required.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements. Actual results could differ from those estimates.

2. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1.

Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2003, the Company had a net capital of \$74,113 which was \$49,113 in excess of its required net capital of \$25,000. The Company had aggregate indebtedness at December 31, 2003 of \$18,075. The Company's ratio of aggregate indebtedness to net capital was .24 to 1 at December 31, 2003.

3. Agreement with Affiliated Company

Pursuant to a written agreement the Parent, in exchange for all of the distribution fees received by the Company, has agreed to provide or reimburse the Company all necessary administrative and distribution services including but not limited to professional fees, office space, equipment, commission payments and advertising expenses.

Operating expenses of the Company are primarily allocated to it from the Parent.

4. Guarantees and Commitments

Additionally, in the normal course of business the Company enters into contracts that contain a variety of representation and warranties and which provide general indemnifications. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the Company expects the risk of loss to be remote.
