Report of Independent Certified Public Accountants

Board of Directors and Members
Capital Planning Group, L.L.C.

We have audited the accompanying statement of financial condition of Capital Planning Group, L.L.C. as of December 31, 2003 and the related statements of earnings, changes in members' equity, cash flows, and changes in liabilities subordinated to claims of general creditors for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Capital Planning Group, L.L.C. as of December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Capital Planning Group, L.L.C.
NOTES TO FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company is engaged in the broker-dealer industry generating commission through sales of life insurance and providing financial and investment services to customers primarily in Florida. A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements are as follows:

Revenue Recognition

Revenues and expenses are recognized as earned or incurred, using the accrual method of accounting.

Cash

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

The Company maintains its cash balances at a financial institution located in Miami, Florida which at times may exceed insured limits. Cash in excess of operating requirements is invested in an income producing money market mutual fund, which is not insured. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk.

Receivables

The Company considers commission receivable and accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Equipment

Depreciation is provided in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service life of five to seven years by an accelerated method.

Major repairs or replacements of property and equipment are capitalized. Maintenance, repairs and minor replacements are charged to operations as incurred.

When items are retired or otherwise disposed of, their cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is included in operations.

Investment in Capital Planning Group of Pennsylvania, L.L.C.

During the year ended December 31, 2001, the Company acquired at 25% interest in Capital Planning Group of Pennsylvania, L.L.C. (CPG-PA), an affiliate formed in conjunction with an advisory service agreement with a life insurance company (see note 5). Under the equity method of accounting, the Company's share of the net income of CPG-PA is recognized as income in the Company's income statement and added to the investment account, and distributions received from CPG-PA are treated as a reduction of the investment account. On October 1, 2003, the investment in CPG-PA was assigned and distributed to the Company's members. Included in net earnings is the Company's share of CPG-PA's net loss through September 30, 2003.

Commission Income

Commissions for customer's transactions are recorded on a trade date basis.

Advertising and marketing

Advertising and marketing costs are expensed as incurred. Advertising costs totaled \$4,147 for the year ended December 31, 2003.

Capital Planning Group, L.L.C.
NOTES TO FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing the Company's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

1. FEDERAL INCOME TAX

No provision has been made in the financial statements for Federal income taxes because, under current law, no Federal income taxes are paid directly by the Company. The members are responsible for their respective shares of the Company's items of income, deductions, losses and credits.

2. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2003, the Company had net capital of \$329,720, which was \$324,719 in excess of its required net capital of \$5,000. The Company's aggregate indebtedness to net capital ratio was 0.17 to 1.

3. DEFINED CONTRIBUTION PLAN

The Company has a defined contribution 401(k) plan that covers substantially all employees. Employees are eligible to participate after one year of service and attaining 21 years of age. Participants may elect to contribute up to 15% of their annual earned compensation to the Plan. Participants are fully vested after six years of service. All Company contributions to the Plan are voluntary and are made at its discretion. The Plan's year ends on December 31. The Company made a contribution to the Plan of approximately \$14,000 for the year ended December 31, 2003.

4. LEASES

The Company leases its office space under a noncancellable operating lease agreement expiring November 30, 2004. The Company also subleases a portion of this office space to a member of the Company on a month-to-month basis. The Company also leases certain equipment under operating leases.

Total rental expense for the year ended December 31, 2003 was \$61,919. The net rental expense, after deducting rental income of \$5,935 from the sublease was \$55,984 for the year ended December 31, 2003. Management expects that in the normal course of business, leases will be renewed or replaced by other leases.

At December 31, 2003, approximate minimum rental commitments under the noncancellable lease are as follows:

Years Ending	
<u>December 31,</u>	
2004	\$ 36,621
Total minimum lease payments	<u>\$ 36,621</u>

Capital Planning Group, L.L.C.
NOTES TO FINANCIAL STATEMENTS

5. ADVISORY SERVICE AGREEMENT

During August, 2001 the Company entered into an advisory service agreement with a life insurance company whereby the Company will structure a training program which will permit the insurance company to provide financial planning, insurance, securities products and investment advisory services based on the Company's methodology. This agreement can be terminated at any time.

6. SUBSEQUENT EVENTS

Through February 2004, the Company paid distributions of \$115,597 related to earnings of 2003.

Report of Independent Certified Public Accountants on Internal Control

Board of Directors
Capital Planning Group, L.L.C.

In planning and performing our audit of the financial statements and supplemental schedules of Capital Planning Group, L.L.C. (the "Company"), for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons;
2. Recordation of differences required by Rule 17a-13; or
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2003, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Lane Gorman Turbett, L.L.P.
