MIDWOOD SECURITIES, INC.
NOTES TO FINANCIAL STATEMENT
DECEMBER 31, 2003

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Midwood Securities, Inc. (the "Company"), was incorporated on December 16, 1988. The Company is a registered broker-dealer with the Securities and Exchange Commission, and is member of New York Stock Exchange and the National Association of Securities Dealers, Inc. The Company operates as an introducing broker and is exempt from the requirements of SEC rule 15c3-3 under paragraph k(2)(ii).

The Company clears all securities transactions through another broker-dealer on a fully disclosed basis. The Company earns commissions as an introducing broker for the transactions of its customers. The Company has agreed to indemnify its clearing broker for losses the clearing broker may sustain from customer accounts introduced by the Company. The Company seeks to control the risk associated with customers transactions by monitoring all customer activity and reviewing information it receives from its clearing broker on a daily basis.

The Company is also engaged in various securities and brokerage activities in which counterparties primarily include banks and other financial institutions. The Company may be exposed to off-balance-sheet risk in the event the other party is unable to fulfill its contracted obligation and the Company has to purchase or sell the financial instrument underlying the contract at a loss. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

- a) Proprietary securities transactions, commission revenues, and related expenses are recorded on a trade date basis
- b) Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management with the resulting unrealized gains and losses reflected in the statement of operations. From time to time, the Company may sell securities not yet purchased (short positions). These positions represent an obligation of the Company to deliver the specific securities. To satisfy this obligation, the Company must acquire the securities at the prevailing market prices in the future, which may differ from the market value reflected on the statement of financial condition and may result in a gain or loss to the Company.
- c) Cash and cash equivalents include cash, money market funds and highly liquid debt instruments purchased with an original maturity of three months or less.

NOTE 2 - CONTINUED

- d) Furniture, fixtures and leasehold improvements are carried at cost less accumulated depreciation and amortization. Depreciation is computed using a straight-line method over the estimated useful lives of the assets. Leasehold improvements are being amortized on a straight-line basis over the term of the operating lease.
- e) The Company has elected to be treated as a small business corporation under the provisions of Subchapter S of the Internal Revenue Code and New York State tax law. Under these provisions, any income or loss of the Company is passed through to stockholder. The Company is subject to certain state and local taxes which are reflected in the financial statements.
- f) The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Actual results may differ from those estimates.
- g) The Company maintains its cash in bank accounts, which, at times, may exceed federally insured limits.

NOTE 3 - CASH AND SECURITIES SEGREGATED FOR THE EXCLUSIVE BENEFIT OF CUSTOMERS

Cash has been segregated in a special reserve account, maintained at the Company's clearing broker, to satisfy reserves established for potential future commission rebates to customers.

NOTE 4 - RECEIVABLE FROM AND DEPOSIT WITH CLEARING ORGANIZATION

The receivable from clearing organization represents cash held by the clearing organization for commissions generated in December 2003 and received in January 2004. The deposit with the clearing organization of \$100,000 is required by the clearing agreement and included in investments in U.S. government securities on the Statement of Financial Condition.

NOTE 5 - SUBORDINATED BORROWINGS

Subordinated borrowings at December 31, 2003, consist of three secured demand notes of \$100,000 each maturing on June 30, 2004, September 3, 2004 and December 31, 2004. The secured demand notes bear interest at 5% per annum and are collateralized by cash and securities in the amount of \$376,000 at December 31, 2003. The secured demand notes are available in computing net capital under the Securities and Exchange Commission uniform net capital rule.

Rent expense under these leases, net of sublease income of \$97,190, was approximately \$274,000 for the year ended December 31, 2003.
