Report of Independent Auditors

The Board of Directors
UBS Financial Services Inc.

We have audited the accompanying consolidated statement of financial condition of UBS Financial Services Inc. (the "Company") as of December 31, 2003. This consolidated statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this consolidated statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated statement of financial condition referred to above presents fairly, in all material respects, the consolidated financial position of the Company at December 31, 2003, in conformity with accounting principles generally accepted in the United States.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (1) Summary of Significant Accounting Policies

Organization and Basis of Presentation

The consolidated statement of financial condition includes the accounts of UBS Financial Services Inc., formerly UBS PaineWebber Inc., and its wholly owned subsidiaries (collectively, "UBSFSP" or the "Company"). All material intercompany balances and transactions have been eliminated. UBSFSI is a wholly owned subsidiary of UBS Americas Inc. ("UBS Americas"), which is a wholly owned subsidiary of UBS AG ("UBS"), and has material transactions with its affiliates.

On June 30, 2003, the Company sold its ownership in Correspondent Services Corporation ("CSC") to FMR Corp. CSC was a wholly owned, broker-dealer subsidiary of the Company. In accordance with the Transition Service Agreement between UBSFSI and FMR Corp., dated June 30, 2003, UBSFSI will provide certain products and services to CSC until such CSC clients are transferred to FMR Corp.'s operating platform. UBSFSI will receive a fee for providing these products and services.

The Company is engaged in one principal line of business, that of serving the investment and capital needs of individual and institutional clients. The Company is a securities firm operating predominantly in the United States and Puerto Rico.

The consolidated statement of financial condition is prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions that affect the amounts reported in the consolidated statement of financial condition and accompanying notes. Actual results could differ from those estimates.

Accounting Pronouncements

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities" ("VIE's"). In December 2003, the FASB issued a revision to this Interpretation, FIN 46-R. The Interpretations define "variable interests" and specify the circumstances under which consolidation of special purpose entities will be dependent upon such interests. The provisions of FIN 46 are effective after January 31, 2003 for all newly acquired or created interests in VIE's and as of December 31, 2003 for all interests in VIE's existing and owned prior to January 31, 2003. FIN 46-R is effective for all interests in VIE's as of the end of the first reporting period ending after March 15, 2004, however early adoption is permitted. The Company adopted FIN 46-R as of December 31, 2003. The adoption of FIN 46 and FIN 46-R did not have a material effect on the consolidated statement of financial condition.

Trading Assets and Liabilities

Trading assets and liabilities, including derivative contracts held or issued for trading purposes, are recorded on a trade date basis at fair value. Fair value is generally based upon quoted market prices. If quoted market prices are not available, or if liquidating the

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (1) Summary of Significant Accounting Policies (continued)

Company's position is reasonably expected to impact market prices, fair value is determined based upon other relevant factors, including dealer price quotations or price activity of similar instruments and pricing models. Pricing models consider time value and volatility factors underlying the financial instruments and other economic measurements.

Derivative Financial Instruments

A derivative is typically defined as an instrument whose value is "derived" from an underlying instrument or index such as a forward, future, swap or option contract and other financial instruments with similar characteristics. A derivative financial instrument also includes firm or standby commitments for the purchase of securities. The derivative definition does not include cash instruments whose values are derived from changes in the value of some asset or index, such as mortgage-backed securities. Derivative contracts used by the Company generally represent future commitments to exchange interest payment streams based on the gross contract or notional amount or to purchase or sell financial instruments at specified terms and future dates.

In connection with the Company's trading activities, the Company may take a position based upon expected future market conditions. The Company also takes positions to facilitate client transactions.

Derivative instruments held or issued for trading purposes are marked-to-market with the resulting unrealized gains and losses recorded on the consolidated statement of financial condition in trading assets or liabilities. The fair value of exchange-traded derivatives, such as futures and certain option contracts, is determined by quoted market prices while the fair value of derivatives negotiated in over-the-counter markets are valued based upon dealer price quotations or pricing models which consider time value and the volatility of the underlying instruments, as well as other economic factors.

Collateralized Securities Transactions

Securities purchased under agreements to resell ("resale agreements") and securities sold under agreements to repurchase ("repurchase agreements"), principally U.S. government and agency securities, are accounted for as financing transactions and are recorded at their contractual amounts, plus accrued interest. It is Company policy to obtain possession or control of securities, which have a fair value in excess of the original principal amount loaned, in order to collateralize resale agreements. The Company is required to provide securities to counterparties in order to collateralize repurchase agreements.

On a daily basis, the Company monitors the fair value of the securities purchased and sold under these agreements. Should the fair value of the securities purchased decline, or the fair value of securities sold increase, additional collateral is requested or excess collateral is returned when deemed appropriate to maintain contractual margin protection. When specific

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (1) Summary of Significant Accounting Policies (continued)

conditions are met, including the existence of a legally enforceable master netting agreement, balances relating to resale agreements and repurchase agreements are netted by counterparty on the consolidated statement of financial condition.

Securities borrowed and securities loaned are recorded at the amount of cash collateral advanced or received in connection with the transaction. Securities borrowed transactions require the Company to deposit cash or other collateral with the lender. With respect to securities loaned, the Company receives collateral. The initial collateral advanced or received has a fair value equal to or greater than the fair value of the securities borrowed or loaned. The Company monitors the fair value of the securities borrowed and loaned on a daily basis and requests additional collateral or returns excess collateral, as appropriate.

In the normal course of business, the Company has margin securities, and obtains securities under agreements to resell and securities borrowed on terms which permit it to repledge or resell the securities to others. At December 31, 2003, the Company obtained and had available securities with a fair value of approximately \$45,742,949 on such terms, of which approximately \$41,298,761 have been either pledged or otherwise transferred to others in connection with the Company's financing activities or to satisfy commitments under short sales.

Depreciation and amortization

The Company depreciates office equipment using the straight-line method over estimated useful lives of three to ten years. Leasehold improvements are amortized over the lesser of the estimated useful life of the asset or the remaining term of the lease.

Income Taxes

Certain income and expense items are accounted for in different periods for income tax purposes than for financial reporting purposes. Provisions for deferred taxes are made in recognition of these temporary differences in accordance with the provisions of Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes.

The Company is included in the consolidated federal income tax return and certain combined state and local tax returns of UBS Americas. Federal, state and local, and foreign taxes are provided for on a separate return basis.

Cash and Cash Equivalents

Cash and cash equivalents are defined as highly liquid investments not held for resale, with a maturity of three months or less when purchased. Cash and cash equivalents are carried at cost plus accrued interest, which approximates fair value.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (1) Summary of Significant Accounting Policies (continued)

Financial Instruments

Substantially, all of the Company's other financial instruments are carried at fair value or amounts approximating fair value. Assets, including securities segregated for regulatory purposes and certain receivables, are carried at fair value or contracted amounts which approximate fair value. Similarly, liabilities including short-term borrowings, certain payables and long-term and subordinated debt are carried at fair value or contractual amounts approximating fair value.

Note (2) Trading Assets and Liabilities

At December 31, 2003, trading assets (including those pledged to creditors) and liabilities, recorded at fair value, consisted of the following:

Trading assets:

State and municipals	\$ 1,760,503
Equities	595,129
Commercial paper and other short-term debt	339,845
Corporate debt	53,311
U.S. government and agencies	40,935
Mortgage-backed	45,758
	<u>\$ 2,835,481</u>

Trading liabilities:

State and municipals	\$ 181,596
U.S. government and agencies	45,787
Corporate debt	31,817
Equities	21,619
Mortgage-backed	8,440
	<u>\$ 289,259</u>

Included in trading assets as of December 31, 2003, are securities pledged for repurchase transactions, which the counterparty does not have the right to sell or repledge to others, with a market value of \$81,445. Trading assets pledged to creditors, included in the consolidated statement of financial condition, represent proprietary positions, which have been pledged as collateral to counterparties on terms that permit the counterparty to sell or repledge the securities to others.

Trading liabilities represent obligations of the Company to deliver the specified security at the contracted price and, thereby, create a liability to purchase the security in the market at prevailing prices. Accordingly, these transactions result in off-balance sheet risk, as the

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (2) Trading Assets and Liabilities (continued)

Company's ultimate obligation to satisfy the trading liabilities may exceed the amount reflected in the consolidated statement of financial condition.

Note (3) Related Party Transactions

In the normal course of business, the Company enters into transactions with affiliated companies. At December 31, 2003, the consolidated statement of financial condition included the following balances with affiliates:

Assets

Securities purchased under agreements to resell	\$	15,923,916
Securities segregated and on deposit for federal and other regulations		1,767,000
Securities borrowed		1,179,506
Securities received as collateral		408,639
Receivables from affiliated companies		81,460

Liabilities

Securities sold under agreements to repurchase	\$	9,813,677
Securities loaned		3,619,171
Payable to affiliated companies		2,565,583
Subordinated liabilities		1,230,000
Obligation to return securities		408,639
Long-term borrowings		140,000

In the normal course of business, the Company enters into resale and repurchase agreements and securities lending transactions with affiliated companies in order to facilitate client transactions and to meet its short-term financing needs.

Included in cash and securities segregated and on deposit for federal and other regulations on the consolidated statement of financial condition are securities purchased under agreements to resell with an affiliate, UBS Securities LLC, of \$1,767,000 maintained in a special reserve bank account pursuant to the Securities and Exchange Commission ("SEC") Rule 15c3-3.

A substantial portion of the payable to affiliated companies represents amounts due to UBS Cayman.

Pursuant to service fee arrangements, the Company receives and provides certain administrative, support and product services from and to affiliates.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (3) Related Party Transactions (continued)

Pursuant to a service level agreement, assignments and subleases, the Company has obligations to UBS and certain other affiliates which have entered into various noncancelable operating lease agreements on the Company's behalf.

During September and November 2003, the Company sold certain client loans to UBS Bank USA LLC ("UBS Bank"), an affiliated entity that commenced business in September 2003. The aggregate amount, which represented the outstanding principal plus accrued interest at the time of the sales, totaled \$3,831,884. In accordance with a service level agreement, the Company performs certain services on behalf of UBS Bank for which the Company receives a fee.

The Company clears commodity transactions on an omnibus basis and also clears certain mortgage-backed transactions on a fully disclosed basis through an affiliate.

The Company has paid \$950,000 in cash dividends to UBS Americas during the year ended December 31, 2003.

Note (4) Short-term Borrowings

The Company meets its short-term financing needs by borrowing from affiliates, obtaining bank loans, on either a secured or unsecured basis, entering into agreements to repurchase, whereby securities are sold with a commitment to repurchase at a future date, and through securities lending activity.

Bank loans were comprised of \$669,202 of unsecured loans, which generally bear interest at rates based on either the federal funds rate or LIBOR.

Note (5) Long-term Borrowings

Long-term borrowings at December 31, 2003 consisted of a secured promissory note payable to UBS Americas due August 29, 2006 for \$140,000 which is collateralized by certain assets of the Company, totaling \$301,652 (the "collateral"). UBS Americas' sole recourse is limited to the collateral and in accordance with net capital rules as discussed in Note (10), \$140,000 of such assets is included as an allowable asset in the calculation of regulatory capital. Interest rates on long-term borrowings are based upon LIBOR.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (6) Subordinated Liabilities

Under the terms of the Junior Subordinated Revolving Credit Agreement between UBSFSI and UBS Americas, UBS Americas has agreed to make revolving credit loans to UBSFSI up to a maximum of \$2,500,000, from time to time, until March 1, 2009. At December 31, 2003, there was \$1,230,000 outstanding which is due March 1, 2010.

Each loan shall have a March 1, 2010 maturity date and bears interest at a rate based upon LIBOR payable monthly.

The loan is subordinated to claims of general creditors, is covered by an agreement approved by the New York Stock Exchange, Inc. ("NYSE") and other regulatory authorities and is included by the Company for purposes of computing net capital under the SEC Uniform Net Capital Rule and NYSE Rule 326. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

Note (7) Risk Management

Financial instrument transactions involve varying degrees of both market and credit risk. The Company monitors its exposure to market and credit risk on a daily basis and through a variety of financial, security position and credit exposure reporting and control procedures.

Market Risk

Market risk is the potential change in value of the financial instrument caused by unfavorable changes in interest rates, equity prices and foreign currency exchange rates. The Company has a variety of methods to monitor its market risk profile. The senior management of each business group is responsible for reviewing trading positions, exposures, profits and losses, and trading strategies. The Company has a risk management group which reviews the Company's risk profile and aids in setting and monitoring risk management policies of the Company, including monitoring adherence to the established limits, performing market risk modeling, and reviewing trading positions and hedging strategies.

Market risk modeling is based on estimating loss exposure through Value-at-Risk model testing. Other market risk control procedures include monitoring inventory agings, reviewing traders' marks, and regular meetings between the senior management of the business groups and the risk management group.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (7) Risk Management (continued)

Credit Risk in Proprietary Transactions

Counterparties to the Company's financing activities are primarily financial institutions, including banks, brokers and dealers, investment funds and insurance companies. Credit losses could arise should counterparties fail to perform and the value of any collateral proves inadequate. The Company manages credit risk by monitoring net exposure to individual counterparties on a daily basis, monitoring credit limits and requiring additional collateral where appropriate.

Receivables and payables with brokers and dealers, agreements to resell and repurchase securities, and securities borrowed and loaned are generally collateralized by cash, and U.S. government and agency securities. Additional collateral is requested when considered necessary. The Company may pledge clients' margin securities as collateral in support of securities loaned and bank loans, as well as to satisfy margin requirements at clearing organizations. The amounts loaned or pledged are limited to the extent permitted by applicable margin regulations. Should the counterparty fail to return the clients' securities, the Company may be required to replace them at prevailing market prices. At December 31, 2003, the market value of client securities loaned to other brokers approximated the amounts due or collateral obtained.

Credit Risk in Client Activities

Client transactions are entered on either a cash or margin basis. In a margin transaction, the Company extends credit to a client, using the securities purchased and/or other securities held on behalf of the client, as collateral for amounts loaned. Amounts loaned are limited by margin regulations of the Federal Reserve Board and other regulatory authorities and are subject to the Company's credit review and daily monitoring procedures. Market declines could, however, reduce the value of any collateral below the principal amount loaned, plus accrued interest, before the collateral can be sold.

Client transactions include positions in commodities and financial futures, trading liabilities and written options. The risk to the Company's clients in these transactions can be substantial, principally due to price volatility which can reduce the clients' ability to meet their obligations. Margin deposit requirements pertaining to commodity futures and options transactions are generally lower than those for exchange-traded securities. To the extent clients are unable to meet their commitments to the Company and margin deposits are insufficient to cover outstanding liabilities, the Company may take market action and credit losses could be realized.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (7) Risk Management (continued)

Client trades are recorded on a settlement date basis. Should either the client or broker fail to perform, the Company may be required to complete the transaction at prevailing market prices. Trades pending at December 31, 2003 were settled without material adverse effect on the Company's consolidated statement of financial condition.

Concentrations of Credit Risk

Concentrations of credit risk that arise from financial instruments (whether on- or off-balance sheet) exist for groups of counterparties when they have similar economic characteristics that would cause their ability to meet obligations to be similarly affected by economic, industry or geographic factors. The Company engages in underwriting and other financing activities with a broad range of clients, including municipalities and other financial institutions. These activities could result in concentrations of credit risk with a particular counterparty, or group of counterparties operating in a particular geographic area or engaged in business in a particular industry. The Company seeks to control its credit risk and the potential for risk concentration through a variety of reporting and control procedures described above.

The Company's most significant industry concentration, which arises within its normal course of business activities, is financial institutions including banks, brokers and dealers, investment funds and insurance companies.

Operating Risk

Operating risk focuses on the Company's ability to accumulate, process and communicate information necessary to conduct its daily operations. Deficiencies in technology, financial systems and controls, and losses attributable to operational problems all pose potential operating risks. In order to mitigate these risks, the Company has established and maintains an internal control environment which incorporates various control mechanisms throughout the organization and involves various oversight units including Audit, Controllers, Legal and Compliance.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (8) Commitments and Contingencies

Leases

The Company leases office space and equipment under noncancelable operating lease agreements which expire at various dates through 2016. At December 31, 2003, the aggregate minimum future rental payments required by operating leases with initial or remaining lease terms exceeding one year, were as follows:

2004	\$ 152,186
2005	140,709
2006	127,721
2007	118,938
2008	113,019
Thereafter	464,480
	<u>\$ 1,117,053</u>

Rentals are subject to periodic escalation charges and do not include amounts payable for insurance, taxes and maintenance.

Other Commitments and Contingencies

At December 31, 2003, the Company was contingently liable under unsecured letters of credit totaling \$101,827, which approximated fair value.

In meeting the financing needs of certain of its clients, the Company may also issue standby letters of credit, which are fully collateralized by customer margin securities. At December 31, 2003, the Company had outstanding \$256,191 of such standby letters of credit.

In the normal course of business, the Company enters into when-issued transactions and underwriting commitments. Settlement of these transactions at December 31, 2003 would not have had a material impact on the Company's consolidated statement of financial condition.

The Company has been named as a defendant in numerous legal actions in the ordinary course of business. While the outcome of such matters cannot be predicted with certainty, in the opinion of management of the Company, after consultation with various counsel handling such matters, these actions will be resolved with no material adverse effect on the Company's consolidated statement of financial condition.

Note (9) Stockholder's Equity

There are 100 shares authorized, issued and outstanding of \$1 par value common stock.

UBS Financial Services Inc.
Notes to Consolidated Statement of Financial Condition
December 31, 2003
(in thousands of dollars except share data)

Note (10) Regulatory Requirements

The Company is subject to the SEC Uniform Net Capital Rule and the NYSE Growth and Business Reduction capital requirements. Under the method of computing capital requirements adopted by the Company, minimum net capital shall not be less than 2% of combined aggregate debit items arising from client transactions, plus excess margin collected on resale agreements, as defined. A reduction of business is required if net capital is less than 4% of such aggregate debit items. Business may not be expanded if net capital is less than 5% of such aggregate debit items. At December 31, 2003, the Company's net capital of \$1,283,122 was 11.7% of its December 31, 2003 aggregate debit items and its net capital in excess of the minimum required was \$1,058,707. Advances to UBS Americas and its affiliates, repayment of subordinated liabilities, dividend payments and other equity withdrawals are subject to certain notification and other provisions of the net capital rules of the SEC and NYSE.

As a clearing broker-dealer, the Company has elected to compute a reserve requirement for Proprietary Accounts of Introducing Broker-Dealers ("PAIB calculation"), as defined. The PAIB calculation is completed in order for each correspondent firm that uses the Company as its clearing broker-dealer to classify its assets held by the Company as allowable assets in the correspondent's net capital calculation. At December 31, 2003, the Company had a \$46,984 reserve deposit requirement for PAIB. The company had \$99,000 of qualified securities on deposit in the PAIB Special Reserve Bank Account.

The Company is also subject to certain conditions imposed by the Federal Reserve Board, including limitations on certain activities with affiliates.

Note (11) Employee Incentive Awards

Employees of the Company are covered under UBS's various Stock Option and Award Plans which provide for the granting of nonqualified stock options, cash and restricted stock awards, and other stock based awards. Officers and other key employees are granted nonqualified stock options to purchase shares of UBS common stock at a price not less than the fair market value of the stock on the date the option is granted. The rights generally expire within seven to ten years after the date of grant. UBS accounts for stock option grants in accordance with APB Opinion No. 25.

Restricted stock awards are granted to key employees through the UBS Equity Ownership Plan ("EOP"). These awards are mandatory deferrals from the employee's year-end incentive bonus that are above a certain level. The awards contain restrictions on sale or transfer lapsing over three years. These restricted stock awards are subject to forfeiture if the employee terminates prior to the end of the prescribed restriction period for cause or to join a competitor. Restricted stock awards may also be granted as part of a new hire recruiting package. The new hire awards generally contain restrictions on sale or transfer lapsing over

Note (11) Employee Incentive Awards (continued)

3 or 10 years. These restricted stock awards are subject to forfeiture if the employee terminates prior to the prescribed restriction period.

In connection with the November 3, 2000 merger with UBS, retention awards were issued to key employees in the form of restricted stock and cash. The awards have vesting periods ranging from one to four years. Restricted stock awards issued in connection with merger-related retention awards are allocated to the Company.

Certain eligible employees of the Company participate in the UBS Financial Services Inc. PartnerPlus Plan (the "PartnerPlus Plan"), a nonqualified deferred compensation plan. Under the PartnerPlus Plan, the Company makes annual contributions and the employee may elect to make voluntary pre-tax contributions, subject to a maximum percent of the Company contribution. The Company and employee contributions earn tax-deferred interest and are subject to certain vesting provisions.

Note (12) Employee Benefit Plans

Defined Benefit Pension Plan

Eligible employees of the Company were included in the non-contributory defined benefit pension plan (the "Plan") of UBS Financial Services Inc., which was frozen in 1998.

The following table provides a reconciliation of the Plan's benefit obligation and fair value of Plan assets, as well as a summarization of the Plan's funded status and accrued pension liability which is included in accrued compensation and benefits on the Company's consolidated statement of financial condition at December 31, 2003:

Change in Benefit Obligation:	
Benefit obligation at beginning of year	\$ 579,128
Service cost	12,436
Interest cost	38,199
Actuarial loss	37,756
Benefits paid	(30,794)
Benefit obligation at end of year	<u>\$ 636,725</u>

Note (12) Employee Benefit Plans (continued)

Change in Plan Assets:

Fair value of Plan assets at beginning of year	\$ 382,114
Actual return on assets	90,085
Employer contribution	105,000
Benefits paid	<u>(30,794)</u>
Fair value of Plan assets at end of year	<u>\$ 546,405</u>

Funded status	\$ (90,320)
Unrecognized net loss	<u>253,396</u>
Net amount recognized	<u>\$ 163,076</u>

Amounts recognized in the consolidated statement of financial condition for the year ended December 31, 2003 consisted of:

Accrued benefit liability	\$ (82,421)
Accumulated other comprehensive income	<u>245,497</u>
Net amount recognized	<u>\$ 163,076</u>

The measurement date was December 31, 2003. The accumulated benefit obligation was \$628,826 for the year ended December 31, 2003.

The benefit obligation for the Plan was determined using an assumed discount rate of 6.25 percent and an assumed rate of compensation increase of 4 percent. The weighted-average assumed rate of return on Plan assets was 8.5 percent. Plan assets consist primarily of equity securities and U.S. government and agency obligations.

UBS Financial Services Inc. Pension Plan's weighted average asset allocations at December 31, 2003 by asset category are as follows:

<u>Asset Category</u>	
Equity Securities*	65%
Debt Securities	31%
Other	<u>4%</u>
Total	<u>100%</u>

*In 2003, no UBS Stock was included in the equity securities component.

Investment Policies and Strategies

The Plan's long-term asset allocation target is 65% equity and 35% fixed income with a range of plus or minus 5%. The equity allocation includes U.S. equity of large, medium and small capitalization companies, international equity and alternative investments. The fixed

income allocation includes U.S. long-term fixed income and opportunistic investments in high yield and international fixed income.

Basis Used to Determine the Expected Long-Term Return on Plan Assets Assumption

A weighted average of the expected returns for each asset class was used in determining the expected long-term rate of return on plan assets. The expected returns are based on a capital markets model developed by the Plan's investment consultant.

Expected Contributions

Based on the funded status of the Plan at the end of the fiscal year, UBS Financial Services Inc. expects to contribute \$0 to its Pension Plan in 2004. This will be evaluated on a quarterly basis, and is subject to change.

Estimated Future Benefit Payments:

The following benefit payments, which reflect expected future services, as appropriate, are expected to be paid:

<u>Year</u>	<u>Payments</u>
2004	\$ 20,237
2005	21,923
2006	24,154
2007	26,631
2008	29,817
Years 2009 – 2013	204,946

Other Benefit Plans

Additionally, employees of the Company are eligible to participate in the UBS Financial Services Inc. 401(k) Plus Plan, which includes an employee savings investment plan and a defined contribution pension plan.

UBS Financial Services Inc. also provides certain life insurance and health care benefits to employees of the Company.

Note (13) Income Taxes

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. For financial reporting purposes, net deferred tax assets are included in other assets in the consolidated statement of financial condition. Deferred tax assets are reflected without reduction for a valuation allowance.
