5. Consolidated Business Results

As regards the Japanese economy for the current third quarter, while corporate profits showed signs of improvement, uncertainties remain over the stronger yen and continued sluggishness in consumer spending. In such an economic condition, our Group has recorded an increase in both sales and profits, as businesses have made good progress in our core products such as flexible printed wiring board materials, Fresnel lens for projection TVs and polarizing film.

Consolidated sales totaled 13,283 million yen, increasing 37.8% Year on Year. Regarding profits, operating profits totaled 2,171 million yen, increasing 89.4%, ordinary profits totaled 2,472 million yen, increasing 72.0% and current net profit totaled 1,669 million yen, increasing 83.6%, which was brought about by an increase in operation ratio in connection with an increase in sales.
