## Notice of Share Splitting

We inform you that our company has passed the following resolution concerning share splitting at our board meeting held on February 19, 2004.

### 1. Purpose of Share Splitting

This is to improve liquidity of our shares and expand our company's investors by promoting shareholder-oriented management.

### 2. Outline of Share Splitting

Our capital stock will be split at 1.1 shares per share as of May 20 (Thursday), 2004 as follows:

- (1) The number of shares to be increased due to share splitting: It shall be the number of ordinary shares given by multiplying the total number of stocks issued as of March 31 (Wednesday), 2004 by 0.1, provided, however, that any odd lots less than a share arising as a result of calculation shall be rounded off.
- (2) Method of Share Splitting: The number of shares held by the stockholders listed in the last shareholder list and actual shareholder list as of March 31 (Wednesday), 2004 shall be split at a rate of 1.1 shares per share, provided, however, that any odd lots less than a share arising as a result of calculation shall be sold in a lump and the proceeds shall be distributed to such shareholders in proportion to their fractions.
- (3) Initial date of reckoning for dividends: April 1, 2004
- (4) Effective date: May 20, 2004
- (5) Other: Any requirements for this share splitting shall be decided by a future board meeting.

### [Reference]

- (1) The reason why the number of shares to be increased due to share splitting is not indicated specifically is that there is a possibility of an increase in the total number of stocks issued due to the exercise of stock options (subscription rights) for the period from the date of resolution at the board meeting to the base date of share splitting and the total number of stocks issued as of the date of assignment cannot be fixed.
- (2) If the total number of stocks issued after share splitting is calculated on the basis of the total number of stocks issued as of February 19, 2004, it shall be as follows:

Current total number of stocks issued:	29,872,465 shares
The number of shares to be increased:	2,987,246 shares
The total number of stocks issued after increase:	32,859,711 shares
