## Standard Chartered Appoints Two Non-Executive Directors

The Board of Directors of Standard Chartered is pleased to announce that Ms Ruth Markland and Mr Paul Skinner have been appointed non-executive directors of Standard Chartered PLC.

Ms Markland, 50, recently retired from the international law firm, Freshfields Bruckhaus Deringer where she was a Partner from 1983 and a Managing Partner for the Freshfields Asia practice based in Hong Kong since 1996.

Mr Skinner, 58, is Chairman of Rio Tinto Plc the global mining company. He recently retired as a Group Managing Director of Royal Dutch/Shell Group of companies, for whom he had worked since 1966.

"I am delighted that Ruth and Paul will be joining us. They both have a wealth of talent to offer. Paul's current role is as Chairman of Rio Tinto, one of the most successful global mining companies. In his former position at Royal Dutch Shell he was CEO of the Group's global Oil Products business, which operates in 140 countries under its well known and admired brand. These appointments will greatly contribute to the diversity and knowledge of our Board," said Bryan Sanderson, Chairman of Standard Chartered PLC.

Ms Markland and Mr Skinner commenced their non-executive directorships at Standard Chartered on 3 November 2003.

Company	Standard Chartered PLC
TIDM	STAN
Headline	Pre-close Trading Update
Released	08:00 11 Dec 2003
Number	1274T

Standard Chartered PLC will be holding a conference call with analysts ahead of its close period for the year ending 31 December 2003. This statement details the information that will be covered in those discussions.

### **Overall**

Standard Chartered has continued to make good progress in the second half of 2003. Profit before tax for the year is expected to be above the market consensus of \$1,446M (current range: \$1,380M to \$1,550M). Normalised earnings per share (EPS) for the year is likely to show growth in mid to high teens.

Consumer Banking is achieving good growth. Wholesale Banking continues to make significant progress on our strategy of improving returns.

Hong Kong, our largest market, is showing positive signs of an economic turnaround and this is reflected in our business performance.

In the second half we have increased the pace of investment in our growth businesses, particularly in Consumer Banking. As a result, costs will likely be higher than current market estimates.

Risk management has been very successful. Net bad debt in Wholesale Banking has been outstanding, underpinned by very strong recoveries. The trade offs we have made between revenue and risk reduction are paying off, particularly in our unsecured portfolio in Hong Kong. The total debt charge is expected to be materially better than market consensus.

Overall, we are continuing to make good progress towards improving our ROE.

### **Revenue**

#### **Consumer Banking**

Consumer Banking is delivering good revenue growth outside of Hong Kong; most countries are seeing revenue growth at high single digit or low double digit levels, underpinned by strong asset growth. Markets like Thailand, Indonesia, Middle East and Africa are performing particularly well.

Revenues in Hong Kong have improved in the second half as the economy strengthens. We have resumed marketing activity for the unsecured portfolio following the introduction of the positive credit bureau in August.

Margins, on a product-by-product basis, have remained at broadly stable levels.

### Wholesale Banking

Despite subdued asset demand and strong liquidity in Asia, Wholesale Banking continues to achieve good momentum, building on a robust first half performance.

Major growth contributors have been trade finance and global markets. Within global markets, strong increases in customer-driven business have more than offset the expected decline in asset and liability management (ALM) revenue.

Overall, Wholesale Banking is delivering positive operating jaws (the gap between revenue and cost growth). We have continued to keep economic capital broadly flat.

### **Costs**

Costs continue to be a key focus as we work to improve the overall cost income ratio. Underlying costs remain tightly controlled and we are beginning to see real benefits from our hubbing activities. At the same time, given our strong trading performance and the attractive opportunities in our markets, we have decided to accelerate investment for future growth in Consumer Banking.

Specifically, we have invested in innovative products, improvements in customer service, expansion in distribution channels and entry into new markets - South Africa and South Korea. These investments will temporarily impact progress towards our cost income ratio target, but will help accelerate future revenue growth.

### **Bad Debts**

#### Consumer Banking

Across Consumer Banking net bad debts continue to perform well. The net bad debt ratio has improved from H1, notwithstanding our decision to reshape a specific part of our portfolio in India.

In Hong Kong, Consumer Banking net bad debts have improved as a result of the early actions we took. Bankruptcy related debt charges for Q3 were \$40M, down from \$56M in Q2.

#### Wholesale Banking

The Wholesale Banking book continues to perform well. This reflects the actions we have taken to trade revenue for an improved risk profile as well as the generally robust balance sheets of Asian corporates.

Mervyn Davies, Group Chief Executive, commented, "We are very pleased with the positive progress in our financial performance. As we come to the end of year, we believe we have taken the required actions to create real momentum in the business entering 2004."

Bryan Sanderson, Chairman, commented, "The markets in which we operate continue to offer many exciting growth opportunities. We are committed to pursue sound execution of our strategic objectives with disciplined financial management, delivering our shareholders superior short term performance and long term growth."

- end -

The conference call with analysts will be webcast live on our website (<http://investors.standardchartered.com>) at 10:00 GMT and archived after the event. If you have a Bloomberg terminal you will be able to listen to the conference call by typing LIVE <go>.
