Wanadoo and Overture signed a new multi-year European agreement and expand commercial search to the Netherlands

Wanadoo, one of Europe's leading Internet and directories companies, and Overture, a global leader in commercial search services on the Internet, today announce an extended and expanded search distribution deal across Europe.

This new multi-year agreement sees Overture extend its provision of paid listings to Freeserve UK, Wanadoo France (with the Voila search engine), and Wanadoo Spain. At the same time, the agreement has been expanded to include the provision of paid listings to Wanadoo Netherlands, with listings provided by Overture's Dutch operation, which launched in September 2003.

This agreement further strengthens Overture's mission to build the Web's most advanced search capability for its affiliate partners, whilst providing advertisers with new and powerful ways to connect with customers on the Internet.

"As a strategic distribution partner since 2002, Overture has consistently enhanced the ability of our users to access a broader range of search services", says Laurence Thouveny, European Marketing Manager of Wanadoo.

Search results on the Wanadoo Group sites feature Overture's full listings in the UK, the Netherlands and Spain and up to 14 paid placement listings in France -- generated by its growing worldwide base of over 100,000 advertisers. Overture's search listings are generated by advertisers who bid for placement on keywords relevant to their business. The company's editorial team carefully screens these listings before they are distributed to Overture's partner network, which includes some of the Internet's most popular destinations.

"Overture continues to pursue a range of initiatives to better and more broadly serve the rapidly growing marketplace," comments Nick Hynes, president and managing director, Overture Europe. "This extension and expansion underscores Overture's strong and growing relationship with the Wanadoo Group. We are sharply focused on driving increased value to industry partners such as the Wanadoo Group through better quality, customisation and revenue-generating capabilities on the search page."
