Data on Auditor's license:

No. of license for auditing: E003246

Date of issue: 17.01.2003

Period: till 17.01.2008

Authority issuing the license: Ministry of Finance of the Russian Federation

Fiscal year, for which the auditor independently checked the issuer's accounts and financial (book-keeping) reports: 2002

Factors are described that may have influence on independence of the auditor on the issuer, and measures are indicated that have been taken by the issuer and the auditor to reduce the influence of the said factors:

Auditors should be unbiased and independent from the Company's executive bodies, officials, shareholders, members of the Board of Directors. Provisions of the legislation, auditing standards and principles of business conduct should provide for putting independence criteria into practice.

The company "Ernst and Young" is an international firm providing integrated services as auditor, legal and financial advisors on business, information technologies, IT-risks, corporate financing and taxation. In 1989 Ernst and Young was the first professional services firm to establish operations in the CIS (Commonwealth of Independent States). Its first office was opened in Moscow, the business has been developing and now its offices in Minsk, Alma-Aty, Saint Petersburg, Kiev and Baku are staffed by nearly 500 employees.

Services for companies in the sphere of high technologies and telecommunications is one of the most dynamically developing activity of Ernst and Young. Taking into consideration the fact that 30 percent of services on audit, tax and corporate finance are being provided in these two sectors, it occupies the

leading positions in this segment of economy. Advantages for "Svyazinvest" PJSC lie in high level of proficiency of our local experts and their specialization on telecom companies as well as in support of the global network of BTT (high technologies and telecommunications) group and access to its resources.

Such international telecom companies as "SBC Communications", "Sprint", "Sprint PSC", "Telstra", "France Telecom", "Telecom Italia" are among its clients. Ernst and Young provides services to large companies (for example, "IXC Communications" and "Intermedia Communications") as well as to the pioneers in the new markets of telecom services (Excite@Home, Net2Phone and "Covad Communications"). Work with such clients made it possible to get detailed knowledge and understanding of telecom sector and to form a group of top specialists.

The abovementioned facts allow to conclude that Ernst and Young has highly qualified experts working on the principles of honesty, responsibility and objectivity.

Ernst and Young's professional standards make it possible to state that there are no factors influencing the auditor's independence, or such influence is insignificant.

Issuer's auditor selection procedure:

Every year the Company engages a qualified auditor having no material relationships with the Company and its shareholders to carry out audit and confirm authenticity of the Company's annual financial accounts.

The Auditor performs audit of the Company's financial and economic activity in accordance with the legislation of the Russian Federation on a contractual basis.

The auditor is selected at the Annual General Shareholders' Meeting. Terms of the Contract with the Auditor including size of compensation (fee) are to be approved by the Company Board of Directors. Audit of economic and financial activity of the company shall be performed at any time at the request of shareholders owning in the aggregate 10 (ten) or more percent of the legal capital. The shareholders initiating an audit shall submit a written request to the Board of Directors including reason of the request, names of the shareholders, number and type of shares owned by them, signature of the shareholder or his proxy. Should the request be signed by a proxy, Letter of Attorney shall be attached to the request.

Information on the work performed by the auditor in the framework of special auditor assignments:

no such work has been done in the year under report

Information on any essential interests connecting the auditor (auditor's officials) with the issuer (issuer's officials):

there are no essential interests connecting the auditor (auditor's officials) with the issuer (issuer's officials)

Share of the auditor's (auditor's officials') participation in the authorized capital of the issuer:
none

Granting of borrowed funds by the issuer to the auditor (auditor's officials):

no borrowed funds have been granted

Any close business relationships (participation in issuer's products (services) promotion, participation in joint business, etc.) or immediate family members:

none

Data on issuer's executive officers who are at the same time the auditor's executive officers:

no such persons

Procedure of determining the auditor's compensation as well as any postponed or outstanding payments for services provided by the auditor:

II. Key Information on the Financial and Economic Position of the Issuer

2.1. Indices of Issuer's Financial and Economic Performance

Index	3Q03
Value of Issuer's net assets, roubles	13 013 616
Ratio of the borrowed funds and the capital and reserves, %	99,18
Ratio of the short-term liabilities and the capital and reserves, %	56,02
Cover of debt service payments, roubles	0,84
Outstanding debt level, %	5,34
Net assets turnover rate, times	0,7
Turnover rate of accounts payable, times	1,9
Turnover rate of accounts receivable, times	3,9
Share of profit tax in profit before taxes, %	21,12

Calculation method recommended by the provisions № 03-32/ps of the Information Disclosure Program of the FCSM of Russia has been used to estimate the abovementioned indices.

As of 30.09.03 the company's net assets value was 13,013,616 thousand roubles, which is up 10.56% compared to 30.06.2003.

During the third quarter of 2003 the Company was actively attracting the borrowed funds in order to increase cost efficiency of the investment projects under realization. In 3Q03 the ratio of the

short-term sources of funds to the equity capital is up 2.51% that can be explained by the necessity of bank crediting of the projects on digitization of telecom networks and development of new technologies. On the whole the share of the borrowed funds in the equity capital of the Company stands at the acceptable level and the Company's factor of safety is quite sufficient for preservation of financial independence and financial stability of the company.

Index of debt service payment cover from the internal sources of financing decreased a little (by 0,06 ruble) in the period under report.

The level of the outstanding debt is down 1.36%.

As of 30.09.2003 the return from net assets showing the assets use efficiency was 0.73 which is typical for telecom operators rendering services of traditional telephony because of their high using-up of capital. The net assets turnover ratio is up by 0.23 in the quarter under report as compared to 2Q03 which is a positive factor.

Index of the accounts payable turnover increased by 0.2, index of the accounts receivable turnover – by 0.8. The accounts receivable turnover (3.9 times, 94 days) is 2,06 times quicker than the accounts payable turnover (1.9 times, 192 days) which is the evidence of successful financial policy of the Company with debtors and creditors.

Share of profit tax in the balance sheet profit is the same as in the previous quarter and decreased in comparison with 2002 which is a positive factor, as this means a successful work of the Company in the sphere of tax planning and increasing the cost efficiency of its economical activity.

1.1. The Issuer's Market Capitalization

Description of the method for determining the Issuer's market capitalization:

Market capitalization is calculated as a product of the number of shares of the respective category (type) by the weighted average price of a share of that category (type) calculated by 10 biggest transactions made through RTS exchange for three months preceding the month, in which the last quarter under report ends (from 01.06.2003 till 31.08.2003). The weighted average price is translated to rubles according to the rate of exchange of the Central Bank of the Russian Federation as of the respective date.

Market capitalization as of 30.09.2003:

322, 682, 421.85 US dollars (9, 804, 325, 675.83 rubles), including
common stock: 262, 212, 633.22 US dollars (7, 961, 224, 950.47 rubles)
preferred stock: 60, 469, 788.63 US dollars (1, 843, 100, 725.36 rubles)

1.3. Goals of the Issue and Areas of Using the Funds Received as a Result of placement the Issued Securities

It is planned that the funds obtained from placement of the Company's bonds will be used for financing the current activities by replenishment of current assets.

Description of a transaction or other operation for which the funds are borrowed including terms of delivery and payment (if the funds are borrowed for financing of a transaction or other operation):

No such description because no funds are borrowed for a specific transaction or any other specific operation.

Price (cost) of a transaction (transactions) or other operation (operations) and its (their) conformity with market prices (if the funds are borrowed for financing of a transaction or other operation):

No such price because no funds are borrowed for a specific transaction or any other specific operation.

Payback of expenses based on forecast financial flows for the entire period of the bonds' circulation.

As no funds are borrowed for a specific transaction or any other specific operation, then the expenses at the cost of bond placement are estimated in the structure of general costs of the Issuer for day-to-day operation. That is why, payback of expenses made at the cost of bond placement agrees with payback of general costs of the Issuer for day-to-day operation.

During 2003 – 2006 earnings from day-to-day activities is expected to constantly exceed the running expenses (including coupon payments and retirement of bonds). Thus, indices of day-to-day activity payback calculated as ratio of the amount of earnings to total amount of running expenses will be from 1,09 to 1,22.

1.4. Risks Related to Acquisition of the Placed Issued Securities (to be Placed)

1.4.1. Sector risks

The level of a competition in the Russian market of telecommunication services steadily grows. In spite of the fact that the market of fixed telephone services is shared among 7 inter-regional consolidated telecom operators, each of them being an absolute monopolist in the sphere of traditional services, we observe strengthening of competition with alternative operators in the sphere of providing new telecom services and services of long-distance telephony. There is a risk of reduction in revenues from long-distance telephony as a result of termination of the traffic of alternative operators via IP-channels by the telecom operators connected to "UTK" PJSC. Market position of fixed telephony is weakening due to growth of the cellular market. For the period of 2001-2002 the share of cellular services in total revenues of regional telecom market is up 10 % making 34,4 %. One of the major factors of uncertainty still remains a tariff reform, character and terms of which are not clear.

State regulation of telecommunications sector introduces in the activity of the Issuer common for all inter-regional companies risks and uncertainties, connected with change of tariffs and reduction in volumes of cross subsidizing. There is some risk of slowdown of growth rates for local tariffs during 2003-2004.

Deterioration of situation in the sector and the market position of the Company can be also caused by the following economic factors:

- Decrease in demand on the part of business sector related to landslide of the world prices for energy resources and nonferrous metals;
- General decline of production volumes and slowdown of economic growth rates;
- Rates of ruble devaluation exceed the rates of tariff growth that will result in significant growth of negative current rate differences and rise in cost of currency liabilities service;
- Common economic risks inherent in the Russian Federation including level of macroeconomic instability in the country, possibility of changes in the legislation that may result in decrease of the Issuer's revenues, or toughening the taxation of securities incomes.

In case of unfavorable development of the situation in the region and in the national economy, the Issuer plans:

- To optimize structure of production costs.
- To reconsider the Company's investment program;
- To correct the Company's price and marketing policy,
- To change the structure of provided services in order to maximize the profit.

As a whole, sector risks influence on activity of the Issuer is estimated as minimal because due to consolidation "UTK" PJSC has an opportunity to use common infrastructure and technique of the Southern federal district, that allows to provide customers with maximum range of telecom services, and develop inter-regional communication networks for reduction in the cost price and increase in profitability of services.

1.1.1. National and regional risks

The licensed territory of "UTK" PJSC covers 88,2 % of the territory of the Southern federal district (SFD) and includes the following subjects of the Russian Federation: Krasnodar territory, Stavropol territory, Astrakhan region, Volgograd region, Kabardino-Balkarian Republic, Kalmykia Republic, Karachaevo-Circassian Republic, Rostov region, Northern Ossetia Republic, Adygeia Republic. The area of the given region makes 519,6 thousand sq. km. (3,5 % of the territory of Russia) with the population of 18,1 million people. The major preconditions of development of SFD economy are the presence of various minerals, good climatic conditions, fertile soils, advanced infrastructure. Major transport corridors connecting Russia with the countries of Transcaucasia and the countries of the Black Sea region pass here. Close economic, ethnic and infrastructural relations of the district with Transcaucasia determine strategic value of the given area for all Russia.

Enterprises of the Southern federal district specialize in large-scale production of various products of agrarian and industrial complex, as well as in coal mining, production of power, transport and agricultural mechanical engineering. Northern Caucasus plays a role of the basic recreational area

of Russia where several million people have their rest every year. Borders of the territory of the Southern federal district in the Black, Azov and Caspian seas contribute to development of foreign economic relations of Russia with the countries of Transcaucasia, Near and Middle East and Southern Europe. Carriages by sea are made through large ports Novorossiysk, Tuapse, Taganrog, Makhachkala.

2002 industrial output of SFD has made RUR 360.1 billion. 2001 volume of foreign investments in SFD has reached 986 million USD. According to database of Private Joint-Stock Company "Cominfo consulting" 2002 gross regional product (GRP) in SFD has made 796 billion roubles, which is up 29,3 % over 2001. According to the same agency, the total volume of telecom services provided in the territory of the Southern federal district has increased by 45,8 % reaching 22,6 billion roubles.

At present process of creation of vertically and horizontally integrated holdings, reorganization of the companies continues in the district that in the future may lead to increase of efficiency of business sector of the district, and thus to growth of investments into economy of SFD. In opinion of the Issuer, an economic situation in the region and relations with administrations of the subjects of the Federation and municipalities are developing positively that affects favorably the activity of the company and execution of its obligations.

Among the factors of regional investment risk for SFD, sociopolitical risks owing to presence of the potential centers of development of conflicts in boundary territories of Northern Caucasian Republics and affinity of the Chechen republic are of the greatest importance. The basic risks are connected with the possibility of nationalization of the private capitals at sharp change of a political policy or their destruction in case of armed conflict. However, the basic part of the territory of the Southern federal district is occupied by the subjects of the Russian Federation with quite favorable conditions for development of business and with a level of regional risk being not lower than average values in the country. It is important to note that "UTK" PJSC does not operate in the territory of the Chechen and Ingush republics which sociopolitical instability considerably worsens an integrated risk parameter of SFD.

Besides, the territory of the Northern - Caucasian district is characterized by high natural and climatic risks connected with geographical features of the region. At the same time "Southern Telecommunications Company" PJSC has many years' experience of successful liquidation of consequences of acts of nature related to technical means and telecom infrastructure. "UTK" PJSC closely cooperates with federal and regional bodies of the Ministry of Emergency Measures of Russia and in case emergency gets essential state support. "UTK" PJSC carries out regularly preventive actions with a view of prevention and minimization of influence of unfavorable climatic conditions on efficiency of the Company's economic activities.

1.1.2. Financial risks

Changes of the currency exchange rate may increase the expenses and reduce the reserves of the Issuer or hamper repayment of its debts.

During the recent several years there has been a tendency of the regulated fall of the exchange rate of the rouble as compared to the US dollar within the limits of the established currency corridor. The Central Bank of RF has imposed various restrictions on trading operations involving foreign currency, trying to support the rouble exchange rate and carried out periodically currency interventions. The capability of the Government and of the Central Bank of RF to support a stable rouble exchange rate depends on many political and economic factors. These factors include the capability of funding the budget deficit without resorting to issuing banknotes, control of the inflation level and maintaining sufficient foreign currency reserves to support the rouble exchange rate.

A certain part of expenses and liabilities of the Issuer is nominated in US dollar, Euro and Japanese yen (6,3 %, 12,2 % and 0,6 % accordingly as of 01.10.2003). Thus, a further devaluation of the rouble relative to the main world currencies may have an adverse effect on the Issuer by increasing expenses in roubles.

The issuer will not be able to eliminate this risk by tying its tariff rates to the US dollar/Euro exchange rate because at an existing level of a competition it will lead to reduction of proceeds in dollar calculation. Therefore the risk remains that rate of growth of tariffs will lag behind rates of falling of a rouble exchange rate. In case of a decrease of the rouble exchange rate ahead of the increase of the

rates for services, the Issuer may experience difficulties in payment or re-financing of a debt in foreign currency in case of sharp devaluation of rouble of the Russian Federation in relation to US dollar and euro. In this connection, the Issuer takes measures on decrease of the share of a debt in foreign currency in structure of a credit portfolio.

Besides there is a risk of introduction of restrictions in the volume of foreign investments attracted by the Issuer that may result in decline in bonds value and hamper the access of the company to additional sources of financing in foreign currency. The Russian legislation concerning foreign investments does not forbid and does not limit foreign investments into telecommunications sector. However absence of a common opinion on the character of state control over telecommunications sector causes an element of uncertainty as this sector is considered to be of strategic importance for Russia. As a result, strengthening the state control or restrictions of foreign investments can reduce amount of investments in the Issuer's Bonds.

In case of a great drop of a rouble exchange rate in relation to US dollar, the issuer is planning to conduct a strict policy aimed at reduction of costs in US dollars as well as change in the existing contractual relations with foreign suppliers for the purpose of delay of payments under such contracts.

1.4.4. Legal risks

In 2003 new edition of the law "On telecommunications" creating conditions for development of the competitive market in the sector and increase of the transparency of telecom operators' activity was approved. At the same time, there is some uncertainty of influence of the new law on the activity of the Issuer.

There were no changes in judiciary practice on the questions connected to activity of the Issuer which might have a negative effect on the results of its financial and economic activity and on the results of the current litigations of the Issuer in the reporting quarter.

1.4.5. Risks connected to the Issuer's activity

As of 01.10.2003 the Issuer does not participate in litigations which may affect essentially the results of its financial and economic activity.

There is some uncertainty concerning a possibility of prolongation of UTK licenses which validity expires during 2003 - 2012 and can be prolonged after submission of the application to the Ministry of Communication of the Russian Federation. The Issuer has no guarantees that after expiry of the term of action the licenses will be prolonged and there will be no changes in the conditions of the prolonged licenses connected to increase in charges and, probably, restriction of a zone of operation. If the Issuer will not be able to prolong the working licenses or receive the updated licenses on comparable conditions, it will be forced to reduce range of provided services that will entail decrease in number of subscribers. At the same time, validity of licenses for the right of rendering telecom services having the main share in structure of the company's revenues, makes from 4 to 9 years, that essentially reduces the risk of uncertainty on prolongation of licenses in intermediate term prospect.

2.2.5. Issuer's Products (Works, Services) Sales Markets

General information on the Issuers sales markets:

Territory of the Southern federal district of the Russian Federation (except for Chechen Republic, Ingushetia and Dagestan).

Consumers of Issuer's products, on whom at least 10% of the total receipts from Issuer's sales fall:

There are no such consumers.

Possible adverse factors that may affect the sales of the Issuer's products are:

- rapid development of cellular services; their share in 2002 total volume of regional revenues of telecommunications sector stood at 34.5%.
- keen competition among Internet providers.
- expected increase of competitive activity in the sphere of new technologies and value-added services taking into account high level of potential competitiveness (757 issued licenses).

Actions of the Company's management in case of occurrence of adverse factors:

The Company's management regularly exercises monitoring and control over the most important indices of the Company's business efficiency in the sphere of economic, financial, technical and marketing policies to make forecasts and quickly respond for occurrence and/or strengthening the influence of various negative factors. Strategic and medium-term plans of the Company's development are being worked out in the context of pessimistic estimations thus providing additional safety factor in case of crisis situations. Yearly the Company corrects the forecasts of economic development and marketing strategy on the basis of performance results for the last reporting period and analysis of the changes of the conditions of the Company's activity.

2.2.6. Practice of activities in respect of circulating capital and inventories

PJSC "UTK" follows the policy of material reserves' reduction by using normative coefficients of TMC reserves in the branches' budgets.

To make the analysis of turnover of reserves they estimate quarterly the factors showing the efficiency of reserves' usage and material expenditures' formation.

For practical usage the branches make quarterly detailed analysis of their financial activity including turnover ratios.

Indices	9 months of 2003
1. Revenue, RUR mln	9 493,16

Calculations are made as a ratio of sales proceeds to average amount of reserves for 9 months.

2.2.7. Raw Materials

No raw material resources are used.

2.2.8. Main competitors

As at 1 January 2003 total number of issued licenses valid in "UTK" PJSC service area (10 out of 13 subjects of the Russian Federation in the Southern Federal District) is 757 licenses including 43% of them for rendering services of local, inter-zonal, domestic and international long-distance telephony, 38% - for rendering data transmission and telematic services, 12% - for channel rent, 5% - for rendering services of radiotelephony and paging, 2% - for rendering cellular services .

As at the beginning of 2003 360 alternative telecom operators operate in the territory of the Southern Federal District, 60 of them being Internet-providers.

In spite of high level of competition "UTK" PJSC holds major market share of traditional telecom services - local, domestic and international long-distance telephony which total market share being 80% of aggregate SFD market. "UTK" PJSC position in the SFD telecom market is above the average over "Svyazinvest" OJSC subsidiaries and corresponds to general progress trends of the Russian traditional operators.

"UTK" PJSC market position in business sector is above the average over "Svyazinvest" OJSC subsidiaries. "UTK" PJSC market position in residential sector is below the average over "Svyazinvest" OJSC subsidiaries that can be explained by intense competition with cellular operators in the territory of the Southern Federal District which focus their marketing efforts on residential sector.

According to 2002 performance results "UTK" PJSC's market shares in the SFD telecom market are the following: local telephone services and providing access to public telephone network – 95%, domestic and international long-distance telephone services – 68%, value-added services – 31% including Internet – 52%, other VAS – 43%. According to 2002 performance results "UTK" PJSC's market share of total revenue of telecommunication sector in the Southern Federal District constitutes 45% taking into account cellular market (68% - without taking into consideration cellular market).

Results of marketing analysis in "UTK" PJSC licensed area revealed essential dissatisfied demand for value-added services: VPN (data transmission), ISDN, assigned lines, broad band access, IP-telephony, access to Internet. In this connection "Southern Telecommunications Company" PJSC states the following priority tasks in this market segment:

- Introducing new technologies and services meeting the market development tendencies and customers' real requirements.
- Making value-added services more competitive including in the spheres of customer service and provision of additional services.
- Developing integrated data networks (multi-service networks) in the Southern Federal District
- Introduction of pre-paid universal service cards .
- Technical realization of intra-regional service roaming.
- Providing services "in packet" including traditional telecom services.

One of the priorities in the service sphere is introduction of pre-paid service cards: Internet cards, Service telephone cards, IP-telephony cards, public phone cards.

In future "UTK" PJSC plans to introduce universal pre-paid cards. It will make possible to increase convenience, efficiency and integration of payments for telecom services for customers that

will result in sales efficiency growth and reduction of accounts receivable.

2.3. Plans of Issuer's Future Operation

Strategic goal of "UTK" PJSC is to strengthen its market position and to reach a 51% share in revenues of telecom sector of the Southern Federal District in 2006. The following measures should provide the realization of the Company's strategic goal: stable annual growth of sales volume keeping the existing profit level, growth of new services' share in total revenue structure up to 12% in 2006, increase of volume and range of provided services, realization of the program on the Company's corporate restructuring.

Budget (business-plan) of "Southern Telecommunications Company" PJSC for the year 2003 provides for a total revenue of RUR 13 267.5 mln which is up 26% compared with 2002. Revenues from core activity (sale of telecom services) are to be increased by 29.6% reaching RUR 13 011.5 mln including local telephony – RUR 5341mln (a 39.4%-increase), long-distance telephony – RUR 6576 mln(+20.6%), value-added services – RUR 459 mln (+58.4%).

One of the main directions of "UTK" PJSC business activity in order to increase revenues, raise the Company's business efficiency and strengthen its financial position is the increase in number of basic telephone sets. "UTK" PJSC is actively developing its communication network and increasing its number capacity.

Considerable revenue growth from traditional services will result from putting into service the planned capacity of 513 281 lines (a 37.2% growth), increase in number of basic telephones by 244 596 sets (+47.4%) and of course by the Company's every effort to raise teledensity in the Southern Federal District (by 8.6% to 18.9 telephones per 100 inhabitants) and to reduce number of applications for telephone installation. 2003 total installed capacity is to be 3 851 380 lines, 92.34% of them to be equipped.

When planning revenue structure the Company gives preference to growth of value-added services' share. Telecom market of the Southern Federal District is characterized by low level of penetration of value-added services (intelligent services, broadband access, etc) which tariffs are not regulated by government. "UTK" PJSC main task for 2003 is to strengthen its position in the market of perspective and profitable services and to increase VAS share in total revenue structure in order to raise the Company's general level of profitability.

In 2003 "UTK" PJSC plans considerable development of data transmission multi-service networks. Amount of contract for equipment delivery exceeds 15.8 mln USD. Total number of ports exceeds 18.7 ths ports. 10 thousand of them are for switched access including 8 thousand universal access ports which allow to provide DialUp, ISDN-DialUp, IP-telephony services via one and the same port. Over 8 thousand ports are for access via assigned lines including 1.5 thousand xDSL ports and 3.5 thousand Ethernet ports. Multi-service network development is based on IP MPLS technology as being most productive for providing VPN services in the territory of the Southern Federal District.

Besides, the Company plans to build call-centers in Krasnodar, Rostov, Volgograd and to provide ISDN, IP-telephony and intelligent services to wider range of customers.

As a result of introduction of new equipment in 2003 VAS share is to reach 3.5% in total revenue structure (+50.2% compared to 2002).

Level of local telephone networks digitization is to be increased by 10.2% in 2003 thus totaling in 48,9%. The length of long-distance telephone channels is to rise by 1724.7 ths ch/km including those formed using digital transmission system – by 1737.4 ths ch/km. Length of transmission lines is to be increased by 2098 km (+13.6%), including 2008 km (+46.2%) of fiber-optic transmission lines.

These lines of the Company's development are supported by 2003 plan of capital expenditures which provide for RUR 4895.8 mln of capital investments and RUR 5264.6 mln of basic assets to be put into operation. In 2003 the Company source of finance will include own funds and debt capital. Share of own funds will stand at 34.2%, borrowed funds and debt capital – 65.8%. 2003 capex breakdown in terms of project types will be the following: business development – 74%, reconstruction and infrastructure maintenance – 25%.

Medium-term strategic directions of "UTK" PJSC development:

- meeting the solvent demand for key telecom services by increase of equipped number capacity, introduction of the system of time-based (per-minute) billing of local telephone call;
- creation of integrated clearing and service centers;
- development of public Internet-access center, connection of regional data transmission networks to Internet;
- introduction of intelligent services;
- improvement of corporate client service, formation of optimal packet of services for corporate clients;
- formation of departments for work with vip-clients, equipping public communication centers with conferencing equipment, selling services to corporate users, active address advertising.

Long-term strategic directions of "UTK" PJSC development:

- creation of up-to-date telecommunication system including imposed digital telecommunication network equipped with digital automatic switching exchanges, digital transmission systems, fiber-optic communication lines (FOLs);
- introduction of new technologies: ISDN, IP-telephony, ATM, xDSL;
- integration of communication and management infrastructures with international informational and switching systems;
- improvement of the provided services;
- optimization of the provided services' list, aiming at increasing proportion of the most progressive services. It will require corresponding reorientation of resources;
- maximization of the Company's profitability;
- active tariff policy;
- pressing marketing policy;
- hard control of expenditures' volume;
- improvement of corporate management

"UTK" PJSC does not plan to change type of its key activity – rendering telecom services according to the licenses in force and the Company Charter.

III. Information about the Issuer's financial and economic performance

3.1. Results of the Issuer's financial and economic activity

4.1.1. Profit and loss statement

Description	As of 30.09.2003
Revenue, RUR	9 493 155 000
Gross profit, RUR	2 402 259 000
Net profit (retained profit) (uncovered loss), RUR	1 347 492 000
Labour productivity, RUR/person	225 823
Capital productivity, %	57,21
Profitability of assets, %	5,31
Profitability of own capital,%	10,35
Profitability of products (sales), %	25,31
The value of uncovered loss as of the date under report, roubles	0,00
Ratio of uncovered loss as of date under report and balance currency	0,00

To calculate the abovementioned indices method recommended by Regulations on information disclosure for issuers of emissive securities № 03-32/ps approved by FCSM of Russia was used.

Revenue for the reported quarter increased by RUR 3 643 692 ths or 62,29 % as compared to the previous quarter.

Gross profit is up 78,64 %. Net profit doubled as a result of local tariffs' growth and increase of traffic volume and subscriber base.

Labour productivity is up 62,5 %.

Capital productivity for 9m03 stood at 57,21 %, a 2 %-increase over 1H03.

Profitability of assets is up 2 %.

Profitability of own capital showing the efficiency of investments' usage made up 10,35 %, gaining 5 % over the value as of 30.06.2003.

Profitability of sales showing share of net profit in total sales volume stood at 25,31 % for 9m03, a 2 %-increase over 1H03.

These indices indicate rather stable financial position of the Company.

4.1.2. Factors That Have Influenced the Change of the Amount of revenues from Issuer's Sales of Goods, Products, Works, Services and Profits (Losses) of the Issuer from Core Activity

Revenue as of 30.09.2003 as compare to 30.06.2003 is up RUR 3 576 859 ths or 62,36 % as a result of tariff growth and seasonal increase of traffic.

3.2. The issuer's liquidity

Index	Value as of 30.09.2003
Own circulating assets, roubles	-6 569 766 000
Financial dependence ratio	0,95
Own assets autonomy ratio	0,51
Availability of own circulating assets for reserves	-4,32
Fixed assets index	1,50
Current liquidity ratio	0,84
Quick liquidity ratio	0,45

To calculate the abovementioned indices method recommended by Regulations on information disclosure for issuers of emissive securities № 03-32/ps approved by FCSM of Russia was used .

Own circulating assets is down 46,2% as a result of considerable excess of circulating assets growth rate as compared to changes of the Company's own capital. This fact does not indicate the deterioration of the Issuer's financial position because assets growth was financed by 72% from long-term borrowed funds.

Ratios of financial dependence and own assets autonomy are in the recommended range (standard values are 1,0 and 0,5 accordingly).

Ratio of availability of own circulating assets for reserves does not characterize the Company's financial position because of the small share of reserves in the structure of the Company's assets. The current liquidity and the quick liquidity ratios are lower than the recommended optimum values but the Issuer has no financial difficulties in due payments to creditors and contractors because the Company's short-term debt turnover exceeds its current liabilities turnover. These indices have an improving tendency that indicates an increase of the Company's paying capacity.

3.3. Amount, Structure and Sufficiency of Issuer's Capital and Circulating Funds

4.3.1. Amount and Structure of Issuer's Capital and Circulating Funds

Authorized capital, RUR: 1 297 779 384,66

Authorized capital pursuant to the Charter, RUR: 1 297 779 384,66

The issuer's reserve capital formed from the Company's profit, RUR: 64 889 000

Additional paid-in capital reflecting increase of assets value after revaluation, RUR:

5 740 642 000

Amount of difference between the sale price (price of distribution) and par value of the Company's shares resulted from selling the Company's shares at the price higher than their nominal value, RUR: 0

Retained net profit of the Issuer, RUR: 1 347 492 000

Special purpose financing and funds including those received from other companies and persons, budget, etc., RUR: 0

Total capital value of the Issuer, RUR: 12 745 905 000

Amount of additional paid-in capital is down 0,26% as compared to 30.06.2003. Retained profit doubled, own capital value increased by 5,61 %.

As of 30.09.2003 share of own capital made up 50.20% in the structure of balance sheet liabilities, a 8,66 %-decrease compared to 30.06.2003.

Structure and amount of the Issuer's current assets in accordance with its accounting reports:

Description	Value as of 30.09.2003, RUR ths	Share in circulating assets, %
Inventories	1 522 042	26,06
VAT	1 179 984	20,19
Accounts receivable	2 461 845	42,13
Short-term financial investments	11 301	0,19
Cash resources	667 978	11,43
Other current assets	0	0
Current assets - total	5 843 150	100

Main sources of financing the Issuer's current assets are accounts payable and long-term bank credits.

The Issuer tries to minimize the current accounts payable which makes it possible to ensure smaller liquidity risk and greater total efficiency. Such strategy requires usage of long-term liabilities and own capital for financing most part of circulating capital.

4.3.1. Issuer's Capital and Circulating Assets Adequacy

Sufficiency of issuer's own capital for fulfilling short-term liabilities and covering current operating expenses of the issuer.

The ratio of the amount of short-term liabilities and the Issuer's capital is 1.8, that shows the financial stability of the Issuer. The Issuer's own capital is sufficient for covering current operating expenses (16 rubles of the Issuer's own capital fall on each ruble of current operating expenses) .

Estimate of the sufficiency of issuer's circulating funds for covering current operating expenses related to debt service.

Amount of the Issuer's average daily operating debt service expenses for the last expired quarter was RUR 26 190.47 ths.

Estimate of the sufficiency of issuer's circulating funds for covering current operating expenses.

7,4 rubles of the circulating assets fall on each ruble of current operating expenses.

4.3.2. Monetary funds

The Company's monetary funds requirement for the next quarter and their potential sources.

Period	Monetary funds requirement, RUR ths	Potential sources
4Q03	1 600 000	Bank credits
2004	7 780 000	Bank credits, bond loan

Adverse factors that can affect the Issuer's monetary funds requirement and its opportunity to receive them:

- change in financial market;
- deterioration of the balance structure;
- the Issuer will exhaust the crediting limit.

Access of the Issuer to bank credits, attraction of monetary funds by securities' issue, borrowed funds from other sources (including loans granted by the companies that can exert influence on the Issuer due to dominant share in its authorized capital or agreement concluded among them or any other way), and other possible sources of financing. Amount of possible financing.

In 4Q03 the Issuer plans to receive credits from AKB "Rosbank" and Savings Bank of the Russian Federation.

In 2004 the Company plans to obtain licenses for providing services of digital cable TV all over the territory of operation of "Southern Telecommunications Company" PJSC.

4.4. Analysis of the Development Trends in the Sector of the Issuer's Principal Activity

During many years telecom sector of Russia has a growing tendency of industrial and economic activity. It demonstrates increase of solvent demand for telecom services and growth of volume of the provided telecom services. Investment activity of the telecom sector is increasing against the background of economic growth in all telecom market segments.

In 1H03 process of reorganization of Svyazinvest holding structure completed and resulted in creation of seven interregional telecom companies which could be compared with East-European operators of fixed communications. Completion of the legal procedure of reorganization of Svyazinvest subsidiaries has become an initial phase of reforming telecom sector. At present corporate restructuring of the consolidated telecoms is being carried out.

The basic tendencies in telecommunications sector within the next few years will be the following:

- Transition to time-based billing system for local outgoing calls;
- fundamental improvement of tariff policy;
- Increase of a technical level of public telephone systems.

One of the strategic directions of telecom sector development in the nearest future is radical improvement of tariff policy of the telecom companies. The key points here are to bring telecom tariffs to the level of economically sound costs and to minimize cross subsidizing of various telecom services. This improvement implies growth of local telephony tariffs to put an end to its subsidizing by long-distance and international telephony. "Svyazinvest" PJSC works out new tariff policy together with Ministry of Telecommunications and Informatics of the Russian Federation and Ministry of Anti-Monopoly Policy of the Russian Federation.

Heavy capital investments will be continued to extend and modernize public telephone and data transmission networks of the united telecom companies in the Federal Districts aimed at liquidation of queues for installation of telephone sets and increase of level of network digitization.

Main factors of the Issuer's tariff income growth in medium-term outlook will be the following:

- Growth of local tariffs;
- Increase of long-distance traffic per line due to improvement of the residents' standard of living and growth of revenues from business sector;
- Considerable increase in number of communication lines in operation and as a result growth of telephone density in the country;
- Growth of revenues from value-added telecom services especially from providing Internet access, because this market segment is characterized by low satiety level

According to analytics' appraisal, Russian interregional telecom companies are 35-40% cheaper than similar companies of emerging markets in terms of EV/S ratio. In this connection development of Russian telecoms is expected to be more intensive than that of the foreign similar operators because their current market estimation is much lower

5.4. Data on the Structure and Terms of Reference of the Bodies of Control over Financial and Economic Operation of the Issuer

Description of the structure and terms of reference of the bodies of control over financial and economic operation of the Issuer in accordance with its Charter.

To exercise control over financial and economic operation, the Company creates an Auditing Commission, a special structural division exercising the internal control functions, and engages an external auditor.

The Auditing Commission is an independent control body of the Company, elected at the annual

general meeting of the shareholders for a period till the next annual general meeting of the shareholders, with 5 members.

Powers of several or all members of the Auditing Commission may be terminated before the appointed time by General Shareholders' Meeting.

Should the powers of the members of the Auditing Commission be terminated before the appointed time, terms of reference of the new membership of the Auditing Commission shall be continued till the next annual General Shareholders' Meeting.

Should the actual number of the members of the Auditing Commission become less than half of the elected number, Board of Directors shall be obliged to call an extraordinary General Shareholders' Meeting for election of the members of the Auditing Commission. The remaining members of the Auditing Commission shall exercise their functions for a period till election of the new members of the Auditing Commission at the next extraordinary General Shareholders' Meeting.

The terms of reference of the Auditing Commission include:

- checking the reliability of the data contained in the reports and other financial documents of the Company;
- revealing any facts of violation of the procedure for book-keeping and submission of financial reports, established by the legal acts of the Russian Federation;
- checking the observance of the legal standards in tax calculation and payment;
- revealing any facts of violation of the legal acts of the Russian Federation, in compliance with which the Company performs its financial and economic operations;
- evaluating the economic advisability of financial and economic operations of the Company.

To ensure permanent internal control over the Company's economic activity a special structural department independent of the Company's executive organs should be formed which operation is to be controlled directly by the Company's Board of Directors.

Functions of such structural department, its operation, procedure of appointment of its workers and their responsibilities shall be determined in internal document approved by the Company's Board of Directors.

Internal Audit Department (hereinafter referred to as DVA) was formed on May 27, 2003. DVA is responsible to the Company's Board of Directors functionally and to the General Director - administratively.

DVA consists of two sections (audit and methodology and risks) in the General Directorate and six sections of internal audit in the branches.

Experts of Internal Audit Department take part in performing audit and integrated revisions, carry out methodological and analytic work, act as external experts in the work of Auditing Commissions, participate in performing audit of subordinate companies.

Budget of Internal Audit Department is formed by the director of Internal Audit Department and approved by the Company's Board of Directors.

Audit section of the General Directorate exercises control functions over activity of the following branches:

- "Electrosvyaz of Adygeia Republic";
- "Karachaevo-Cherkesskelectrosvyaz";
- "Electrosvyaz of Kalmykia Republic";
- "KabBalktelecom"

as well as over sections of internal audit in the branches "Kubanelectrosvyaz", "Rostovelectrosvyaz", "Electrosvyaz" of the Stavropol Territory", "Volgogradelectrosvyaz", "Svyazinform" of the Astrakhan Region".

8.6.6. Data on Material Transactions Made by the Issuer

Any material transaction (groups of interrelated transactions) the amount of commitments under which is 10 and more per cent of the balance value of the issuer's assets according to its accounts for the last completed period under report, preceding the date of the transaction: none .

8.6.7. Data on Credit Ratings of the Issuer

Object of assigning the credit rating: Issuer

Credit rating as at the date of expiry of the last quarter under report:

Long-term corporate credit rating "B-".

History of changes of the credit rating for the last 5 complete financial years preceding the date of expiry of the quarter under report with indication of the value of the credit rating and the date of its assignment (change):

Date of assignment (change)	Credit rating
27.12.2001	long-term local and foreign currency corporate credit ratings "CCC+"
02.04.2003	Raise of long-term corporate credit rating to 'B-' from 'CCC+'.

Full and abbreviated registered names, location of organization that assigned the credit rating:

Company " Standard & Poor's International Services Inc." (Standard & Poor's)

Location: 9th floor, 11, Gogolevskiy bulvar, Moscow, 121019.

Brief description of the method of assigning the credit rating:

Issuer's credit rating according to Standard & Poor's international scales expresses the current opinion on general credit capacity of the Issuer of bonds, underwriter or guarantee, business partner, its ability and intention to service its debt in full and in due time.

Standard & Poor's assigns ratings on the basis of transparent methodology taking into consideration quantitative and qualitative factors, financial risks and business risks only if there is sufficient information.

Depending on categories of issuers and type of rating, there are different methods of Standard & Poor's rating assignment. Thus, in the case of companies, the characteristics of the business (market, position in competition, management and strategy) are analyzed, as well as the financial profile (financial policy, profitability, capital structure, cash flow indices, financial flexibility).

Other information about the credit rating specified at the Issuer's own discretion:

The rating action of 02.04.2003 reflects the net benefits of the merger of Southern Telecom with nine other fixed-line incumbents in the southern region of Russia that are controlled by the state-owned holding Svyazinvest. The merger has resulted in a stronger competitive position and improved business profile for the company. The outlook is stable. The new company--which had approximately 3x greater revenues of about \$331 million in 2002 --should benefit from its larger scale by receiving better terms from vendors of telecoms equipment. The merger will also give it a stronger market position that is less vulnerable to weaknesses in a particular area or customer segment, and make it easier to access capital markets.

Offsetting these gains to some extent is the fact that the enlarged service area has marginally less attractive average market characteristics and will require integration work and additional investments to reconcile and improve network characteristics to a more uniform level across the whole area. It is expected that Southern Telecom will continue with its structural reorganization, management improvement, and network modernization, and that it will execute its business plan without materially weakening its financial profile and ability to service its debt obligations.

A manageable increase in debt is already factored into the rating on Southern Telecom. The rating assumes, however, that operating cash flow will be sufficient to service debt in the short-term and that

the company can return to free operating cash flow generation in the medium term as network investments are completed.

The Issuer is entitled to appoint other payment agents and cancel such appointments. Official notice of such appointments shall be published by the Issuer in the newspapers "Vedomosti" and/or "Izvestiya" and/or "Kommersant" not later than 10 (ten) working days prior to such actions.

If the maturity date happen to be week-end, holiday or any other day off in the Russian Federation , the due sum shall be paid out on the first business day after the maturity date. The Holder of Bonds is not entitled to claim any compensation for such delay of payment.

Repayment of Bonds are made to the persons included by the Depository in the list of owners and holders of Bonds, for the benefit of owners of Bonds. A Bond Owner, if it/he/she is not a depositor of the Depository may authorize a Bond holder to receive amounts from the Bond yield (coupon) payment and Bond redemption.

It is presumed that a bond holder who is a depositor of the Depository is authorized to receive amounts from the Bond yield (coupon) payment and Bond redemption.

Not later than four working days prior to the date of the Bond yield (coupon) payment and/or Bond redemption, a bond holder being a depositor of the Depository and/or other parties who are not authorized by their clients to receive amounts from the Bond yield (coupon) payment and Bond redemption provides the Depository with the List of Bond Owners, containing all essential elements necessary for Making up the List of Bond Holders and Bond Owners , as set forth below.

Repayment of Bonds is made for the benefit of owners of the Bonds being those as of the end of working hours of the Depository, previous to the fifth business day before the maturity date (further under the text - " Date of making up a list of owners and Holders of Bonds with a view of their redemption).

Execution of obligations in relation to the Bond owner being those at the date of making up a list of owners and Holders of Bonds with a view of redemption, declares appropriate including in case of alienation of Bonds after Date of making up a list of owners and Holders of Bonds with a view of redemption.

Not later than 2 (two) working days prior to the Maturity Date the Depository provides the Issuer with the list of owners and Holders of the Bonds, made on Date of making up the list of owners and Holders of Bonds with a view of the bond redemption including the following data:

a) A full name of the person, authorized to receive the redemption sums under Bonds.

If Bonds are transferred by the owner to the Holder and the Holder is authorized to receive the sums of repayment under Bonds, the full name of the Holder shall be specified. If Bonds have not been transferred to the Holder and-or the Holder is not authorized by the owner to get the sums of repayment under Bonds, the full name of the owner of Bonds (First name, middle initial, last name the owner - for the physical person) shall be specified:

b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the Holder of Bonds, authorized to receive the sums of repayment under Bonds;

c) Location and postal address of the person, authorized to receive the sums of repayment under Bonds;

d) The name and essential elements of the bank account of the person, authorized to receive the sums of repayment under Bonds, namely:

- Number of the account;

- The name of bank in which the account is open;

- The correspondent account of bank in which the account is open;

- Bank identification code (BIK) of bank in which the account is open;

f) The tax status of the person authorized to receive the sums of repayment under Bonds (resident, non-resident with permanent representative office in the Russian Federation, non-resident without permanent representative office in the Russian Federation, etc.).

A Bond Holder independently monitors the completeness and actuality of the data provided by it to the Depository (the information necessary for execution of obligations under Bonds). Should the said data fail to be submitted, or fail to be submitted in due time to the Depository, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the Depository's data. In this case obligations of the Issuer are considered executed in full and properly.

Not later than 1 (one) working day before the Maturity Date, the Issuer transfers the appropriate money to the Payment Agent's account.

At repayment of Bonds the coupon income is paid for last coupon period also.

On the basis of the list of Bond Owners and Holders, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each Bond Owner and Holders authorized to receive Bond redemption amounts.

As at the date of Bonds redemption the Payment Agent transfers the appropriate money to accounts of the persons authorized to get the sums of redemption under Bonds, specified in the list of the Bond Holders and Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner. The Bond holders who are not owners of Bonds, transfer money received as Bond redemption payment to the Bond owners according to the procedure determined between the Holder of Bonds and the owner of Bonds.

Obligations of the Issuer on Bonds redemption are considered executed after charge-off of money from the correspondent account of the bank serving the Issuer and-or the correspondent account of the bank / credit organization of the Payment agent in return for face-value of Bonds and the coupon income for the last coupon period in favour of owners and Holders of Bonds.

Bonds are being charged off the accounts of depot in the Depository at repayment of all Bonds after execution by the Issuer and/or Payment Agent of the obligations on transferring amounts required to fulfill the payment commitments on Bonds redemption and payment of the coupon income for the last coupon period.

The Certificate is to be cancelled after all Bonds are written off the accounts of depot of the Depository.

A Bond Owner, if it/he/she is not a depositor of the Depository may authorize a Bond holder to receive amounts from the Bond yield (coupon) payment and Bond redemption.

It is presumed that a bond holder who is a depositor of the Depository is authorized to receive amounts from the Bond yield (coupon) payment. Not later than three working days prior to the date of the Bond yield (coupon) payment, a bond holder being a depositor of the Depository and/or other parties who are not authorized by their clients to receive amounts from the Bond yield (coupon) payment provides the Depository with the List of Bond Owners, containing all essential elements necessary for Making up the List of Bond Holders and Bond Owners, as set forth below.

Payment of coupon income on Bonds is made for the benefit of owners of the Bonds being those as of the end of working hours of the Depository, previous to the fourth business day before the date of payment of the coupon income (further under the text - " Date of making up a list of owners and Holders of Bonds for payment of coupon income). Execution of obligations in relation to the Bond owner being those at the date of making up a list of owners and Holders of Bonds with a view of payment of coupon income, is considered as due and proper, including the case of Bonds alienation after Date of making up a list of owners and Holders of Bonds with a view of payment of coupon income. Not later than 2 (two) working days prior to the Date of payment of coupon income the Depository provides the Issuer with the list of owners and Holders of the Bonds, made on Date of making up the list of owners and Holders of Bonds with a view of the payment of coupon income including the following data:

a) A full name of the person, authorized to receive sums of coupon income under Bonds. If Bonds are transferred by the owner to the Holder and the Holder is authorized to receive sums of coupon income, the full name of the Holder shall be specified. If Bonds have not been transferred to the Holder and-or the Holder is not authorized by the owner to get sums of coupon income, the full name of the owner of Bonds (First name, middle initial, last name the owner - for the physical person) shall be specified:

b) Number of the Bonds on the account of depot of the owner or inter-deposit account of depot of the Holder of Bonds, authorized to receive sums of coupon income;

c) Location and postal address of the person, authorized to receive sums of coupon income under Bonds;

d) The name and essential elements of the bank account of the person, authorized to receive sums of coupon income, namely:

- Number of the account;
- The name of bank in which the account is open;
- The correspondent account of bank in which the account is open;
- Bank identification code (BIK) of bank in which the account is open;

e) Tax-payer's Identification number (TIN) of the person, authorized to receive sums of coupon income under Bonds;

f) The tax status of the person authorized to receive sums of coupon income (resident, non-resident with permanent representative office in the Russian Federation, non-resident without permanent representative office in the Russian Federation, etc.).

A Bond Holder independently monitors the completeness and actuality of the data provided by it to the Depository (the information necessary for execution of obligations under Bonds). Should the said data fail to be submitted, or fail to be submitted in due time to the Depository, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of the Depository's data. In this case obligations of the Issuer are considered executed in full and properly. Not later than 1 (one) working day before the Date of coupon income payment, the Issuer transfers the appropriate money to the Payment Agent's account. On the basis of the list of Bond Owners and Holders, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each Bond Owner and Holders authorized to receive sums of coupon income on Bonds. As at the date of payment of coupon income the Payment Agent transfers the appropriate money to accounts of the persons authorized to get sums of coupon income under Bonds, specified in the list of the Bond Holders and Owners.

If one person is authorized to receive sums of coupon income for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner. The Bond holders who are not owners of Bonds, transfer money received as sums of coupon income payment to the Bond owners according to the procedure determined between the Holder of Bonds and the owner of Bonds.

Obligations of the Issuer on payment of coupon income on Bonds redemption are considered executed after charge-off of money from the correspondent account of the bank serving the Issuer and-or the correspondent account of the bank / credit organization of the Payment agent in return for the coupon income in favour of owners and Holders of Bonds.

8.10. Conditions of Ensuring Fulfillment of Commitments under the Bonds of the Issue

Kind of security: underwriting.

Volume of security that the Underwriter provides for Bond owners in case of default by the Issuer of the payment commitments on Bonds (payout of par value, coupon income payment, other property rights granted by the bonds):

Maximum sum - the size of obligations of the Underwriter under the given security, shall not exceed 1500000000 (one and a half billion) roubles.

Underwriting is an unconditional and irrevocable commitment of the Underwriter to each owner of Bonds to pay the sum equal to par value of Bonds, to be paid by the Issuer according to the Decision on Bond Issue and the Prospectus of Bonds (hereinafter referred to as - terms of Bond Issue) to any owner of Bonds, for any reason, in time, currency and at the date, stipulated by terms of Bond Issue within the limits of the Maximum sum.

Acquisition of Bonds means the conclusion of contract of the guarantee among the purchaser of Bonds (further – Bond owners) and the Underwriter. Rights under the specified contract of guarantee shall be transferred to a purchaser together with other rights on Bonds in the same volume and on the same conditions which exist at the moment of transferring such rights.

The Underwriter and the Issuer carry joint liability before Bond owners under obligations to pay par value of the Bonds arising in connection with Bond issue and placement.

Procedure of making claims by Bond owners to the Underwriter

Under condition of reception of the notice from the owner of Bonds about non-fulfillment of payment by the Issuer the Underwriter undertakes to provide (without any demand to the owner of Bonds to take measures concerning the Issuer or any other person) fulfillment of such payment as though the Underwriter has been specified instead of the Issuer as the basic person who has accepted the terms of Bond issue so that the Owner of Bonds would receive the same sum of the same currency as he should receive if this payment would be made by the Issuer according to terms of Bond issue, within no more than 70 (seventy) days after the date of such payment, but as a whole not later than 10 (ten) days after receiving the notice from the owner of Bonds.

The notice should be made in writing and sent to the Underwriter by registered mail or handed the authorized representative of the Underwriter on receipt.

The notice may be directed to the Underwriter during 60 (sixty) days from the moment of non-fulfillment of payment by the Issuer to the postal address of Joint-Stock Company " Management company "BFA": 212, Moskovskiy pr., Saint Petersburg, 196066 Russia

The following documents should be enclosed to the notice:

- A copy of an extract from the account of depot (inter-deposit account) of the Depository of the owner of Bonds in the Depository as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of Bonds;
- A copy of an extract from the account of depot of the owner of Bonds as at the date of making up of the list of Holders of Bonds as it is determined in the Decision on Bond issue and the Prospectus of the Bonds, certified by the Depository of the owner of Bonds in case the account of Bonds is carried out in the Depository of the owner of Bonds having inter-deposit account in the Depository;
- The documents confirming powers of persons who have signed the claim on behalf of the owner of Bonds (in case of presentation of the claim by the authorized persons of the owner of Bonds);
- Notarized samples of signatures of the persons who have signed the claim on behalf of the owner of Bonds.

The notice should include amount of money to be paid to the owner of Bonds under the underwriting as well as description of the breach of the Issuer's obligations secured by the Underwriter.

Claim to the Underwriter can be made by a person – depositor of the Depository which keeps the bonds(hereinafter referred to as - "Bond Holder") for the benefit of Bond owners being depositors of such Bond Holder. In this case, Bond Holder should confirm its powers in the claim applications on behalf of owners of Bonds.

The notice should contain payment essential elements and other data of the person making the claim (the name for the legal person or a surname, name and patronymic for the physical person, the address of his site (residence), TIN, for physical persons - passport data, for legal persons - codes OKPO and OKVED (OKONKh), for bank establishments - BIK), necessary for transferring money to the owner of Bonds. The claim on payment of cash shall not be satisfied.

Within 10 (ten) days from the date of receiving the above-stated documents, the Underwriter shall carry out their check and in case they meet the requirements of the present Guarantee, fulfill payment of the sum due to the owner of Bonds, according to the payment essential elements specified in the claim. Obligations of the Underwriter are considered executed from the moment of charge-off of the corresponding sum from the account of the Underwriter for the benefit of the owner of Bonds.

If the Notice or the enclosed documents do not meet the requirements of the present Guarantee, the Underwriter is obliged to send notification on the reasons of refusal to satisfy the claim of the Bond owner to the owner of Bonds not later than 5 (five) working days from the moment of receiving the requirement.

Taxation of income under Bonds is carried out in full accordance with the active legislation of the Russian Federation.

Tax rates

Income	Juridical persons		Natural persons	
	Residents	Non-residents	Residents	Non-residents
Coupon income and amount of the bond redemption	24% (including: 6% - to Federal budget; 16% to the budget of the object of the Russian Federation ; 2% to the municipal budget)	20%	13%	30%
Income from Bond sales	24% (including: 6% - to Federal budget; 16% to the budget of the object of the Russian Federation ; 2% to the municipal budget)	20%	13%	30%

The taxation order of natural persons.

Kind of the tax - tax on income.

Individuals being tax residents of RF pay the tax for the following types of gained income from operations with stock:

- Dividends and interest income received from the Russian organization as well as interest income received from the Russian individual businessmen and (or) the foreign organization having permanent representative office in the Russian Federation;

- Income from realization of shares or other securities as well as shares of authorized capital of the organizations.

Tax base.

The income of the tax payer received as material benefit is the material benefit received from purchase of securities . The tax base is determined as excess of market cost of the securities determined in view of limit border of fluctuations of a market price of securities, over the sum of actual charges of the tax payer on their purchase. The order of definition of a market price of securities and limit border of fluctuations of a market price of securities is established by the federal body regulating securities market.

When determining the tax base for income from operations with stock, the income gained from the following operations is taken into account:

purchase and sale of securities circulating in the organized securities market;

purchase and sale of securities that are not circulating in the organized securities market.

The income (loss) related to operations of purchase and sale of securities is determined as the sum total of income on the aggregate of transactions with securities of the respective category made during the taxation period, less the amount of losses.

The income (loss) related to a transaction of purchase and sale of securities is determined as the difference between the amounts obtained from realization of securities and the expenses for acquisition, realization and care of securities, actually incurred by the tax-payer (including expenses reimbursable to a professional participant of the securities market) and proven by documents. The said expenses include:

- amounts paid to the seller according to the contract;
- payment for the services provided by the depository;
- commission to professional participants of the securities market;
- stock exchange fee (commission);
- registrar's remuneration;

other expenses directly related to purchase, sale and care of securities and paid for services provided by professional participants of the securities market in the framework of their professional activities.

The income from a transaction of purchase and sale of securities circulating in the organized securities market is lessened by the amount of interest paid for the use of monetary funds attracted for the transaction of purchase and sale of securities, within the limits of the amounts calculated proceeding from the active refinancing rate of the Central Bank of the Russian Federation.

For a transaction with securities circulating in the organized securities market, the amount of loss is determined taking into account the limit border of the securities market price fluctuations.

Securities circulating in the organized securities market include securities allowed for trading by organizers of trade having the license of the federal body regulating securities market.

The market quotation of the security circulating in the organized securities market is the average price of security under transactions made within trading day through the professional participants of the securities market. If there were two and more organizers of trade, the tax payer is entitled to choose independently the market quotation of security of one of the organizers of trade. If the average price is not calculated by the professional participants of the securities market, half of the sum of maximal and minimal prices of the transactions accomplished within trading day through this professional participants of the securities market is accepted for the average price.

If charges of the tax payer on purchase, realization and storage of securities cannot be related directly to the expenses on purchase, realization and storage of the concrete securities, the specified charges are distributed proportionally among the securities according to their prices. The price of securities is determined as of the date of making of these charges

If tax-payer's expenses cannot be evidenced by documents, he is entitled to resort to the property tax deduction prescribed by the first paragraph of subitem 1 of item 1 of Article 220 of the Taxation Code of the Russian Federation.

Loss related to operations with securities circulating in the organized securities market resulted from the specified transactions accomplished in the tax period, reduces tax base of operations of sale and purchase of securities of the given category.

Income on operations of sale and purchase of the securities which are not circulating in the organized securities market which at the moment of their purchase met the requirements, established for the securities circulating in the organized securities market, may be reduced by the sum of loss in the tax period from operations of sale and purchase of the securities circulating in the organized securities market.

Date of actual reception of the income:

- Day of payment of the income, including transfer of the income to the tax payer's bank accounts or by his order to accounts of the third parties - at reception of income in the monetary form;
- Day of purchase of securities.

The tax base on operations of sale and purchase of securities and operations with financial tools of

urgent transactions is determined upon termination of the tax period. Calculation and payment of the tax amount is effected by the fiscal agent upon expiry of the tax period or when it pays money to the tax-payer before the expiry of the respective tax period.

If the fiscal agent makes payments before the expiration of the respective tax period the tax is paid from income share determined according to the present article, corresponding to the actual sum of paid money. The income share is determined as product of total sum of income and the sum of payment to the cost value of securities determined as at the date of payment of money resources on which the tax agent represents itself as the broker. If money resources are paid to the tax payer more than once during the tax period, calculation of the tax amount is made by an increasing result taking into account advance tax payments.

Cost value of securities is determined on the basis of actually made and documentary confirmed charges on their purchase.

Payment of money resources implies payment of cash, transfer of money to the bank account of the natural person or to the account of the third party on behalf of the natural person.

If it is impossible to deduct the calculated tax amount from the tax-payer, the fiscal agent (broker, asset manager or another person effecting operations under a contract of agency, contract of commission or another contract in favour of the tax-payer) notifies in writing the tax authority in its registration location within one month from the moment such a circumstance arises on the impossibility of the said deduction and on the amount of the tax-payer's debt. In this case tax is to be paid in accordance with article 228 of the Tax Code of the Russian Federation.

The order of the taxation of legal persons.

Kind of the tax - tax on income.

Taxable income includes:

- Proceeds from realization of property rights (income of realization);
- interest yield under securities and other liabilities;

Tax base.

Income of the tax payer from operations on realization or other retirement of securities (including repayments) is determined on the basis of the price of realization or other retirement of securities and the sum of the accumulated coupon income paid by the buyer to the tax payer, as well as the sum of the coupon income paid to the tax payer by the Issuer. Income from realization or other retirement of securities does not include coupon income amounts which has been taxed earlier.

Expenses at realization (or other retirement) of securities are determined on the basis of the price of purchase of a security (including charges on its acquisition), expenses for its realization, size of discounts from estimated cost of investment funds, sum of the the accumulated coupon income paid by the the securities' seller by the tax payer. Expenses does not include coupon income amounts which has been taxed earlier.

Securities are considered circulating in the organized securities market only at simultaneous observance of the following conditions:

- 1) they are allowed for circulation at least by one professional participant of the securities market entitled to do it according to the national legislation;
- 2) information on their prices (quotations) is published in mass media (including electronic) or can be submitted by the professional participants of the securities market or other authorized person to any interested person within three years after the date of transactions with securities;
- 3) market quotation is being calculated for these securities when it is stipulated by the corresponding national legislation.

Market price of the securities circulating in the organized securities market, for the tax purposes is the actual price of realization or other retirement of securities if this price is within the limits of minimal and maximal prices of transactions (an interval of prices) with the specified security registered by the professional participant of the securities market as at the date of the corresponding transaction. If the securities circulating in the organized securities market are traded at the price that is lower than a floor price of transactions for the organized securities market, then the floor price of the

transaction in the organized securities market is taken into account for determining the financial result.

Accumulated coupon income is a part of coupon income which payment is stipulated by conditions of issue of such securities valuable paper, calculated in proportion to the number of days after the date of securities issue or date of payment of the previous coupon income up to the date of the transaction (the date of securities' transfer).

The actual price of realization or other retirement of the securities which are not circulating in the organized securities market is taken into consideration for the purposes of the taxation if at least one of the following conditions is met:

1) the actual price of the corresponding transaction lies within the limits of the prices of similar (identical, homogeneous) securities registered by the professional participant of the securities market at the date of fulfilment of the transaction or at the date of the nearest trading session, taken place prior to the date of fulfilment of the corresponding transaction, if the trading sessions of the professional participant of the securities market included these securities at least once within previous 12 months;

2) the deviation of the actual price of the corresponding transaction is within the limits of 20 percent from the average price of similar (identical, homogeneous) securities calculated by the professional participant of the securities market in accordance with the trading results rules established by him as at the date of conclusion of such transaction or at the date of the nearest trading session, taken place prior to the date of fulfilment of the corresponding transaction, if the trading sessions of the professional participant of the securities market included these securities at least once within previous 12 months.

Tax base on operations with securities is determined by the tax payer separately, except for tax base on operations with the securities, determined by professional participants of securities market. Thus tax payers (except for the professional dealers of securities market) determine tax base on operations with the securities circulating in the organized securities market separately from tax base on operations with the securities which are not circulating in the organized securities market.

At realization or other retirement of securities the tax payer chooses independently and in accordance with accounting policy one of the following methods of writing-off the cost of retired securities

- 1) taking into account cost of first acquisitions (FIFO);
- 2) taking into account cost of last acquisitions (LIFO);
- 3) taking into account cost of one unit.

Tax payers who have incurred losses from operations with securities in the previous tax period or during the previous tax periods, are entitled to reduce the tax base of operations with securities in the accounting (tax) period (to transfer the specified losses to the future) in the order and on conditions established by article 283 of the Taxation Code of the Russian Federation.

Losses from operations with the securities which are not circulating in the organized securities market incurred during the previous tax period (previous tax periods), can be accounted for reduction of tax base from operations with such securities, determined in the accounting (tax) period. Losses from operations with the securities circulating in the organized securities market, incurred in the previous tax period (the previous tax periods), can be accounted for reduction of tax base from operations on realization of the given category of securities.

Carry-over of losses from operations with securities circulating in the organized securities market and with securities that are not circulating in the organized securities market is to be effected separately for the said categories of securities within the profit gained from operations with the said categories of securities.

Taxation of income in the form of dividend is carried out in full accordance with the active legislation of the Russian Federation.

Peculiarities of determining tax base of income gained from share holding in other organizations.

Tax amount of income gained from share holding in other organizations (hereinafter referred to as - dividends) is determined on the basis of the following provisions.

1. If source of income of the tax payer is the foreign organization, the tax amount on the received dividends is determined by the tax payer on his own on the basis of the sum of the received dividends and tax rate of 15 percent (for income gained as dividends from the Russian organizations by the foreign organizations, and for income received as dividends by the Russian organizations from the foreign organizations).

Thus the tax payers receiving dividends from the foreign organization, including through a permanent representative office of the foreign organization in the Russian Federation, have no right to reduce the tax amount calculated according to the present chapter, by the sum of the tax calculated and paid at the location of the source of income if other is not stipulated by the international contract.

2. For tax payers - residents of the Russian Federation gaining income in the form of dividends except for that specified in item 1, the tax base of income gained from share holding in other organizations, is determined by the fiscal agent taking into consideration the peculiarities established by the present item.

A Russian organization is the source of the tax-payer's income, the said organization being recognized as the fiscal agent. In such a case, the amount of the tax to be deducted from the tax-payer's income who receives dividend is calculated by the fiscal agent.

The tax amount to be deducted from taxable income of the tax payer - recipient of dividends, is calculated by the fiscal agent on the basis of the total tax amount calculated in the order, established by the present item, and share of each tax payers in the total sum of dividends.

The total tax amount is determined as product of the tax rate of 6 percent and differences between the sum of the dividends to be distributed among shareholders (participants) in the current tax period, reduced by the sums of the dividends subject to payment by the tax agent according to item 3 of the present article in the current tax period, and the sum of the dividends received by the fiscal agent himself in the current accounting (tax) period and the previous accounting (tax) period if the given amounts of dividends have not been taken into account in calculation of the taxable income in the form of dividend earlier. In case the received difference is negative, the duty on tax payment does not arise and compensation from the budget is not made.

3. Peculiarities of taxation for foreign organizations that do not operate through a permanent representative office in the Russian Federation and gain income from sources in the Russian Federation
The following types of income gained by a foreign organization, that are not related to its business operations in the Russian Federation are included in income of a foreign organization from sources in the Russian Federation and are subject to a tax deducted from the source of income payment:

- dividend paid to a foreign organization being a shareholder (participant) of Russian organizations;

- income from realization of shares of Russian organizations, over 50 per cent of the assets of which consist of real estate situated in the territory of the Russian Federation.

Tax rate:

15 per cent – on income gained in the form of dividend from Russian organizations;

30 per cent – income gained by individuals being tax non-residents of the Russian Federation

1. Общие положения

1.1. During its authorized operation "Southern Telecommunications Company" Public Joint –Stock Company (hereinafter referred to as "UTK" PJSC or the Company) accumulates, processes and retains significant volume of information, part of which is not generally known, has real or potential economic value and subject to protection as a trade secret.

1.2. Any information, not being the state secret, connected with financial, economic and social activity of the Company which disclosure can damage its interests, is considered to be a trade secret.

1.3. The following information must not be assigned the trade-secret status:

- determined by paragraph 3 of Articles 10 of the Federal law «On information and protection of information » (№ 24-FZ of 20.02.95);
- stipulated by the List of data which cannot be a trade secret (approved by the Resolution of the Government of RSFSR №35 of 05.12.91);
- protected by patents and copyrights.

1.4. The Company does not consider expedient to refer data, to which it provides access for the shareholders according to Article 91 of the Federal law «On joint-stock companies » (of 26.12.95 №208-FZ), to a trade secret.

1.5. Measures on restriction of access to the information cannot be used for concealment of the facts of mismanagement, squandering, unfair competition and other negative facts in the Company's operation.

1.6. Categories of data protection as well as period of restricted access to the information are determined in «The List of the data being "UTK" PJSC trade secret" (hereinafter referred to as - the List) being worked out by Commission of experts on data protection (EKZI), examined by Management Board of the Company and approved by the Order of "UTK" PJSC CEO.

1.7. The data received as a result of joint activity of the Company with public authorities, enterprises and organizations, may be considered a trade secret on the basis of concluded contracts and letters reflecting mutual obligations and responsibility of the parties on non-disclosure of such information.

1. Principles of considering data to be a trade secret

2.1. Main principles of considering data to be a trade secret (introduction of restrictions on access to it) are legality, validity and timeliness.

2.2. Legality of introduction of restrictions on access to data is provided by observing the legislation of the Russian Federation in the procedure of referring it to confidential information. At that, legal regulations on imposing restrictions on access to the information as well as those forbidding such restrictions.

Validity of access restriction lies in determining the expediency of this action on the basis of expert judgment, its possible economic and other consequences as well as comparison of possible damage, which can be caused to the Company as a result of trade secret disclosure, with the access restriction cost.

2.3. Timeliness of referring data to a trade secret consists in introduction of restriction on access to the information from the moment of its reception (work-out) or beforehand.

3. Rights of the Company's officials on making proposals on considering data to be a trade secret and removing restrictions on access to such information.

3.1. The following "UTK" PJSC officials are entitled to make proposal on considering data to be a trade secret and removing restrictions on access to such information:

- In the General Directorate – Deputy General Directors, Chief Accountant, Heads of structural units - on the questions referred to their competence;
- In the regional branches of the Company - Directors of the branches, their deputies and chief accountants.

Proposal should be submitted in written form to the Deputy General Director on Security.

3.2. The data related to trade secret, may lose necessity of protection prior to expiration of validity of access restriction prescribed by the List, under the agreement of the interested parties which have established these restrictions.

3.3. Disclosure (open publication) of the information being a trade secret, shall not necessarily result in automatic removal of a restrictive signature stamp from it.

4. The operating procedure of a commission of experts on formation of the List of the data being a trade secret

4.1. The commission of experts on information protection (hereinafter referred to as - EKZI), constituted according to the Order of the Company № 18 of 15.01.2002 «On Constituting "UTK" PJSC Commission of Experts on Data protection" shall take part in working out the List.

4.2. Working out the List and determining the data being a trade secret shall be composed of the following stages:

- Drawing up the preliminary List of the data being a trade secret of the Company ;
- Carrying out legal examination of the data being a trade secret included in the List;
- Determination of the possible damage caused by non-authorized disclosure of data, included in the List;
- Determination of advantages of the open usage of information in comparison with the restricted one;
- Making decision on including data in a final Draft List;
- Making up the generalized List and its consideration at EKZI session;
- Legalization of the results of work on formation of the List.

4.3. The preliminary List is formed on the basis of examination and all-round analysis of the data contained in statutory acts of the Company, information flows, correspondence, databases, etc., being processed (transmitted) for the benefit of the Company, of the foreign organizations and enterprises, public authorities. Besides, life cycle (ageing) of information, loss of its urgency should be taken into account. Special attention shall be paid to new directions of activity and functions related to change of the Company's organizational structure.

4.4. EKZI members perform their duties in accordance with: the Constitution of the Russian Federation;

The law of the Russian Federation « On the state secret »; the Civil code of the Russian Federation;

The federal law « On information and data protection»;

The federal law « On Joint –Stock Companies»;

The federal law « On participation in the international data exchange »;

The law of the Russian Federation «On Communication»; the List of the data referred to the state secret; the List of data of confidential character; the List of data which cannot be a trade secret; - the Charter of "UTK" PJSC;

other active laws and new legal acts on data protection that become effective.

4.5. Data categories, considered and discussed by EKZI and to be transferred from the preliminary List to its generalized variant, should have exact wording excluding their double meaning.

4.6. Possible damages from disclosure of a trade secret are estimated using qualitative or quantitative indicators of material (financial) or moral damage.

Quantitative (cost) parameters are determined by approximate (comparative) economic calculation taking into account level of decrease in factors of business efficiency in either sphere of the Company's activity (for the most part - in economic and financial activity).

Qualitative indicators are determined by probability of possible failure to receive certain advantages, profits or possible decrease in the Company moral factors.

4.7. Negative consequences (damage) caused by the disclosure of trade secret include:
