President's comments

Consistent work with holdings is reflected in Investor's net asset value

In 2003, many of Investor's holdings made clear progress. Investor's net asset value increased in excess of SEK 20 billion, or 32 percent. The work that has been carried out in the companies during the past few challenging years, on all levels, is now starting to be reflected in their financial performance and market valuations. During the year we continued to work with our business model to actively develop our companies at the board level, supported by our business teams.

In order to allow for continued investing during an economic downturn, when exits are unattractive, financial leverage can be used as a bridge. During the past few years we continued to invest in many of our holdings while striving to keep our leverage on a reasonable level. At the same time, we have been careful to maintain our financial flexibility, through a high level of liquidity. It is worth noting that we also continued to reduce our operating costs during the past year, as in 2002.

In December, Investor subscribed for its pro-rata share of ABB's new rights issue. In our opinion, ABB has succeeded in strengthening its financial position, focusing on its core business and increasing the efficiency of its organization. At the same time, we made a minor reallocation among our stakes in core holdings. Small portions of shareholdings in AstraZeneca, Electrolux, Ericsson, Gambro, OMHEX and WM-data were sold, as well as Investor's holding in ABB's convertible bond. Our positive view of these core holdings remains unchanged.

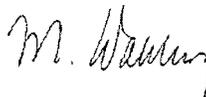

Core holdings generally performed well in 2003. As examples, we can mention that AstraZeneca has been renewing its product portfolio during the past year. The development of the cholesterol-lowering medication Crestor is significant in this respect. Ericsson achieved good results in 2003 when it came to streamlining its organization, reducing its cost base and further developing its proprietary technology. In October, Ericsson reported a profit for the first time in 11 quarters. In 2003, SEB reported improved operating results, reduced costs, low credit losses and growing market shares. It will be important for SEB to further develop its banking business in Germany and the Baltic states going forward. Atlas Copco is well equipped for the future after successfully implementing restructuring programs, strengthening its balance sheet and introducing new, innovative products. During 2003 Saab enjoyed a good trend of order bookings, especially in export markets, such as the Czech Republic's selection of JAS Gripen. Finally, it can also be noted that OMHEX and WM-data have taken strategic steps to advance their positions, due in part to their acquisitions last year.

Important areas for core holdings to focus on in coming years include product and organizational development, geographic expansion in growth markets, such as China and Eastern Europe, and to further develop an effective capital structure. Enhancing their innovation and cost efficiency will be of importance in view of stiffening competition from countries in growth regions and the weak dollar.

In 2003, 3 became the first company in Scandinavia to offer mobile broadband services in Sweden and Denmark. In the fall, 3 was awarded a 3G license for operating in the Norwegian mobile market. Now that a large part of the network is built, 3 will focus on sales and marketing activities during the coming year to attract more subscribers. Central to these efforts will be new 3G mobile handset models. These phones will be gradually launched during 2004 and are designed for several different customer categories.

The New Investments business contributed positively to Investor's net asset value in 2003. In brief, Investor Growth Capital made seven new investments in our strategically selected markets of Asia, Northern Europe and the United States. Tessera Technologies was also listed on the Nasdaq exchange. Investor Capital Partners – Asia Fund made a major new investment and a follow-on investment. EQT launched a new fund for mezzanine financing, made two new investments and executed a number of exits. On the whole, we participated in approximately 50 financing rounds for existing holdings in the New Investments business. In addition, we continued to make management changes, develop strategies, products and services, and make efficiency improvements within portfolio companies in New Investments. In general, the work to develop holdings produced encouraging results in 2003.

Confidence and ownership-related issues were hot subjects in 2003. To build and develop companies successfully, the business community must earn the confidence of society as a whole. We are convinced that responsible and visible owners, who focus on the development and success of companies, are needed and necessary. Going forward, we intend to remain deeply involved in the companies we own in order to create good value for our shareholders.

Marcus Wallenberg

Investor Growth Capital

The venture capital industry completed the bottoming out process during 2003 and new investment activity is now on more sustainable levels. The strong recovery of the public equity markets has begun to offer opportunities for exits and IPOs. During the fourth quarter there was also a notable pickup in mergers and acquisitions.

In the fourth quarter two new investments were made – in CSMC Technologies (China) and Spiration (United States). Investor Growth Capital also participated in Investor Capital Partners – Asia Fund's investment in Memorex.

CSMC, based in China, offers integrated circuit manufacturing services. Spiration develops medical devices for the treatment of lung disease.

In the fourth quarter Tessera was listed on the Nasdaq exchange. Part of the holding in Tessera was sold in connection with the IPO. Following this transaction, Investor now has a 14 percent interest in Tessera.

In the fourth quarter, holdings in Amkor and ASM Pacific were partially divested. Shares in these companies were also sold earlier during the year. In addition, holdings in Projectplace, Kyphon, NTRU and Telegea were partially sold.

In the fourth quarter, follow-on investments were made in Entific, Gyros, Medicarb, Åmic, SMT Tricept, Paratek, Sandburst and other companies.

Earlier during the year, new investments were made in BMI Asia, FOI Corporation, Neuronetics, Micronic and Carmeda.

Earlier in 2003, Pyrosequencing acquired the portfolio company Personal Chemistry by means of a directed issue of shares and warrants. In the fourth quarter, the merged company changed its name to Biotage after acquiring a U.S. company with that name. Carmeda and Medicarb also merged under the name Medicarb.

Earlier during the year, follow-on investments were also made in Aerocrine, Bredbandsbolaget (B2) and Neuronova. The remaining position in Intrabiotics was sold, as well as a portion of the holding in Axcan Pharmaceuticals and a few fund-related holdings. In the first half of 2003, B2 closed on a financing round. B2's major owners, including Investor, also bought out the interest of the former main owner, NTL.

Earlier in 2003, Investor Growth Capital Asia purchased holdings in China Green, Infotalk, IP Infusion, iSilk and Ness Display.

b-business partners (www.b-bp.com) made two new investments during the final quarter in the U.K.-based technology companies EST and Centennial. During the year, the company also made follow-on investments in two existing portfolio companies and at year-end had a portfolio of nine investments. As of December 31, 2003, the company had invested approximately EUR 102 m. since inception and had about EUR 145 m. in cash and cash equivalents.

On December 31, 2003, Investor Growth Capital had investments in 139 companies comprising active direct investments, investments in funds and companies that are being disposed of.

EQT

In November, EQT Northern Europe signed an agreement to acquire Sirona Group, a German manufacturer of dental equipment.

In the fourth quarter, EQT Mezzanine had its second closing. The fund currently has about EUR 185 m. in capital commitments. The fund's first closing raised approximately EUR 160 m. In the second quarter, EQT Mezzanine provided capital to Stenqvist in connection with Triton's acquisition of the company.

In the third quarter, EQT Scandinavia I and EQT Scandinavia II sold TAC to Schneider Electric (France).

In June, EQT Northern Europe acquired ComHem.

In addition, EQT Denmark sold Nordic Info Group and EQT Scandinavia I sold the remaining shares in Ballingslöv and Stenqvist.

In EQT Scandinavia II, Dahl was refinanced in the first quarter, releasing capital to its owners.

At year-end, EQT had invested in 23 companies.

Investor's remaining capital commitments in EQT total SEK 2,585 m.

Investor Capital Partners – Asia Fund

In the fourth quarter, Investor Capital Partners – Asia Fund made a new investment in Memorex, a manufacturer of digital storage media products for the consumer market. Headquartered in Hong Kong, the Memorex Group sources 100 percent of its products through its operations in China and Taiwan, and has sales and distribution in North America and Europe.

In the fourth quarter, an add-on investment was made in Cosmetic Group.

The fund currently has three investments in its portfolio: Cosmetic Group Holdings Limited, Kingclean and Memorex.

Investor's remaining capital commitments in Investor Capital Partners – Asia fund total SEK 530 m.

Hi3G

In the fourth quarter Hi3G commenced offering mobile broadband services in the Danish market under the global brand "3".

In the fourth quarter, Hi3G continued to roll out services. The company sells services and mobile handsets through its own retail outlets in the major metropolitan areas, and through a number of resellers in several other cities. In December, the company reported that the number of subscribers had exceeded 20,000.

In the third quarter, Hi3G's wholly owned subsidiary Hi3G Access Norway AS was awarded a UMTS license for the Norwegian mobile market. During 2003 the number of 3G handset models has been limited. A gradual increase in the number of new models is expected to have a

positive impact when it comes to attracting new subscribers from broader customer categories during 2004.

Investor has a 40-percent stake in Hi3G. Investor currently estimates that its capital contribution to Hi3G, in the form of shareholder's contributions, will total between SEK 4 bn. and SEK 5 bn., including the SEK 1,648 m. that has been invested to date. In addition to the capital contribution, SEK 1,800 m. has been provided to Hi3G in the form of a loan, which is reported in the item "Other assets and liabilities". Investor has thus provided a total of SEK 3,448 m. to Hi3G. Of this amount, SEK 200 m. was provided during the year in the form of shareholder's contributions and SEK 1,678 m. in the form of loans.

In the first quarter Investor reached an agreement for a SEK 3 bn. bank facility for Investor's share of Hi3G's loan financing. At the end of the period, approximately SEK 1,630 m. of the bank facility had been utilized. As reported earlier, the intention is to finance Hi3G over time with shareholders' equity and external project financing on an approximately 50-50 basis.

Shareholder's contributions and new loans to Hi3G in 2004 are expected to be in line with 2003.

Volvo

In the second quarter, 1,155,240 A-shares in Volvo were sold for SEK 176 m. Investor's holding in Volvo is now sold in its entirety.

Land and real estate

During the year land and real estate property was sold in the downtown Stockholm area, and outside the city in Saltsjöbaden, for SEK 121 m. (45).

Active portfolio management

Investor's active portfolio management activities generated income totaling SEK 40 m. in 2003 (349).

Consolidated results

Operating costs amounted to SEK 591 m. in 2003, as against SEK 624 m. in 2002, a five-percent reduction in expenses. The goal to have a cost ceiling below SEK 600 m. for 2003 was thereby reached.

Income after financial items for the year amounted to SEK 1,003 m. (1,925). The amount includes capital gains/losses and write-downs totaling SEK 735 m. (1,283).

Income for the year (after tax) was SEK 929 m. (1,610), corresponding to SEK 1.21 per share (2.10). A more detailed description of operations is provided as a table in Appendix 1 on page 15.

Consolidated net debt

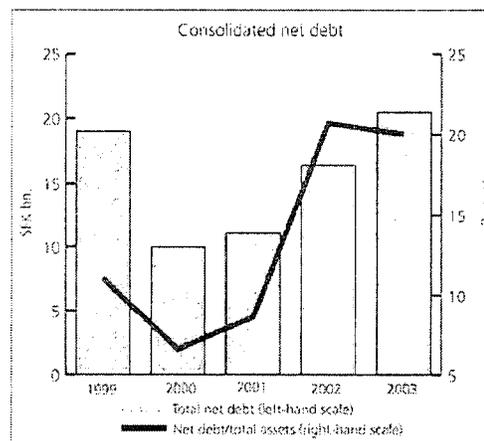

Consolidated net debt at year-end was SEK 20,493 m., as against SEK 16,358 m. at year-end

2002. Dividends totaling SEK 2,608 m. were paid to Investor's shareholders in 2003 (4,219). Investor's net debt thereby amounted to 20 percent of total assets, compared with 21 percent at year-end 2002.

In view of the favorable market conditions, Investor issued a Euro Medium Term Note loan in the third quarter in the amount of EUR 600 m. The loan has a maturity of seven years.

In the first quarter, Investor obtained long-term funding in the amount of SEK 4.4 bn. Of this amount, SEK 2.6 bn. has a maturity of 30 years. Investor's syndicated bank loan of USD 1 bn. was renegotiated in the same amount and has a maturity of five years. The Swedish Medium Term Note program was also updated and increased. On December 31, 2003, the Group's loans amounted to SEK 30,110 m. (21,525).

Cash and short-term placements increased during the year to SEK 9,803 m. (5,361). In 2004, SEK 692 m. of outstanding loans will be due for payment. In 2005, SEK 4.2 bn. in loans will be due for payment and SEK 6.0 bn. in 2006.

Income and investments

Income after financial items totaled SEK 129 m. in 2003 (2,154), of which SEK 359 m. (2,019) consisted of capital gains/losses from holdings and write-downs.

During the year shares were purchased for SEK 2,292 m. (5,840) and shares were sold for SEK 2,182 m. (8,232).

Other

Proposed dividend

The Board of Directors and the President propose an ordinary dividend to shareholders of SEK 2.25 per share for fiscal 2003 (2.25). In 2002, an extraordinary dividend of SEK 1.15 per share was also paid due, among other reasons, to the tax situation.

Investor's dividend policy for coming years is under review following changes in tax legislation in Sweden.

Repurchase of own shares

As in the past four years, the Board of Directors has decided to propose to the Annual General Meeting that it should extend the authorization of the board to decide on the repurchase of the company's shares. Under such mandate, the board would be given the opportunity until the next Annual General Meeting – provided they deem this appropriate – to decide on the repurchase of the company's shares. Repurchases can amount up to 10 percent of the total shares outstanding in Investor. Any repurchases may be effected over the stock exchange or through offerings to shareholders. It is also proposed that the board's mandate include the possibility to transfer repurchased shares.

This authorization to repurchase shares has existed since 2000. However, to date Investor has not utilized the possibility to buy back its own shares.

Annual General Meeting

The Annual General Meeting of Investor AB will be held at 3:00 p.m. on Tuesday, March 23, 2004, at Cirkus in Stockholm. Investor's audited Annual Report will be made available at the company's headquarters at Arsenalsgatan 8c in Stockholm as of March 9, 2004.

Employee stock options

The Board of Directors proposes an employee stock option program for 2004 that covers all employees and is based on the same structure

as the programs that have existed for all personnel since 2000.

The allocation of employee stock options to Investor's CEO and members of the Management Group is intended to change so that portions of employee stock options are replaced by a share program. The allocation of employee stock options to the CEO and Management Group members will thereby decrease in scope. As with employee stock options, the shares will only become gradually available over a period of time.

The strike price for the 2004 employee stock option program is set as the closing price of the Investor share on the first trading day after the release of Investor's Year-end Report for 2003 plus 10 percent. The term is seven years, during which the options will gradually become available over a three-year period.

As in the structure of previous employee stock option programs, the proposed employee stock option program will not result in the issue of new shares.

The board's proposal for Investor's share program for Management Group members and the stock option program for all personnel will be presented to the Annual General Meeting for decision on March 23, 2004.

Accounting principles

When preparing this year-end report, the same accounting principles have been applied as those used in the preparation of the latest annual report. The interim report has been prepared in accordance with Recommendation No. 20 of the Swedish Financial Accounting Standards Council.

Application of the new recommendations from the Swedish Financial Accounting Standards Council, which came into effect on January 1, 2003, have not had any significant effect on this year-end report.

Holdings in associated companies are reported in accordance with the acquisition value method. This report will be supplemented with the consolidated accounts in accordance with the equity method (income statement, balance sheet and specification of equity), which will be made available on investor's website as of February 27, 2004. Investor's Annual Report for 2003 will be prepared in accordance with the equity method.

Investor hedges its seven-year employee stock option programs only against increases in the company's share price. Any decrease in Investor's share price below the average hedge price is reported on an ongoing basis as an adjustment item under shareholders' equity. To the extent that Investor's share price is lower than the hedge price, any possible negative effects on cash flow would not arise until after the seven-year term of the option programs.

Valuation principles for New Investments

The valuation of listed holdings is based on the share price of each company on the last business day of the reporting period, less 10 or 20 percent, depending on the liquidity of the company's shares and any limitations to disposal rights.

For unlisted holdings, Investor uses a valuation method in which the holdings are valued at acquisition cost, less any write-downs. The valuation, and if relevant, any need for write-downs, is determined quarterly on the basis of the market's development and the performance of each company in relation to its plan and budget.

Unlisted holdings in funds are valued on the basis of the underlying value of their holdings at the lower of acquisition cost and fund manager's valuation. Listed holdings are valued as described above. For funds in which Investor has a holding of less than 10 percent, or is inactive in the fund's activities, the main rule is that Investor uses the valuation that the fund manager makes of all holdings in the fund. However, the fund is never valued higher than Investor's acquisition cost. If Investor's evaluation is that the fund manager's valuation has not given sufficient consideration to factors that can negatively affect the holdings, the value may be written down.

Reporting in accordance with IFRS

In accordance with the requirements that listed companies in the EU will have to meet as of 2005, Investor will adopt the International Financial Reporting Standards (IFRS).

Based on current knowledge, the most significant difference between current reporting principles and those of the IFRS are that a large portion of financial assets and liabilities will be reported at actual value, instead of at the lower of acquisition value and actual value. Reported shareholders' equity in Investor's formal report will thereby be closer to Investor's net asset value (assets less liabilities at actual value). The net asset value and its change best reflect the company's performance.

Interim reports in 2004

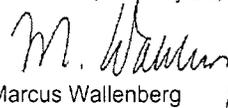

In the interim reports for 2004, Investor's associated companies will be reported in accordance with the equity method in the consolidated income statement and balance sheet. As a consequence, Investor must wait for the interim reports of associated companies before it can prepare its own formal interim

report. However, for the purpose of providing financial information to the market as quickly as possible, Investor will release two reports per quarter (see "Upcoming financial events in 2004"): a net asset value report based on the acquisition value method and a formal interim report prepared in accordance with the equity method.
