INDEPENDENT AUDITORS' REPORT

To the Officers and Directors of
Anglo-American Investor Services Corp.
675 Berkmar Court
Charlottesville, VA 22901

We have audited the accompanying statement of financial condition of Anglo-American Investor Services Corp. as of June 30, 2004. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Anglo-American Investor Services Corp. as of June 30, 2004, in conformity with U.S. generally accepted accounting principles.

The accompanying notes are an integral part of these financial statements.

ANGLO-AMERICAN INVESTOR SERVICES CORP.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2004

Note 1 - Nature of Business and Summary of Significant Accounting Policies

(a) Nature of Business

Anglo-American Investor Services Corp. (the "Company") was formed for the purpose of conducting business as a broker-dealer in securities.

(b) Revenue Recognition

Securities transactions and related commission revenues and expenses are generally recorded on a settlement-date basis which is generally the third business day following the trade date for securities and one day after the trade date for options. Reporting security transactions, revenues and expenses on a trade date basis would not result in material differences. Securities are valued at market. The resulting difference between cost and market is included in income.

(c) Depreciation

Furniture and equipment are recorded at cost. Depreciation is provided on the straight-line method over the estimated useful lives of the assets.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Note 2 - Marketable Securities Owned

Marketable securities consist of corporate stocks and warrants at June 30, 2004.

Note 3 - Income Taxes

The Company follows Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The Company has federal and state net operating loss carryforwards of approximately \$450,000, expiring through June 30, 2023. These losses, if fully utilized, would give rise to a deferred tax asset of approximately \$99,000 which has been offset in its entirety by a contra-valuation allowance as elected by management.

Note 4 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall be at least the greater of \$100,000 or 6-2/3% of total aggregate indebtedness. At June 30, 2004, the Company had net capital of \$688,899, which was \$588,899 in excess of its required net capital of \$100,000. The Company's net capital ratio was 4%.

ANGLO-AMERICAN INVESTOR SERVICES CORP.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2004

Note 5 - Related Party Transactions

Anglo-American Investor Services Corp. is a wholly-owned subsidiary of Anglo-American Financial (the "Parent"). The Company shares common costs with its Parent and a former affiliate associated with office space, personnel, computer equipment and administrative costs. These expenses amounted to approximately \$90,000 for the year ended June 30, 2004.

Amount due to the Parent at June 30, 2004 totaled \$8,463.

Note 6 - Financial Instruments with Off-Balance-Sheet Market and Credit Risk

The Company records customer securities' transactions on a settlement-date basis, which is generally three business days after trade date. The Company is therefore exposed to off-balance-sheet risk of loss on unsettled transactions in the event customers and other counterparties are unable to fulfill contractual obligations.

In the normal course of business, the Company's securities' activities involve execution of various securities transactions for customers. These activities may expose the Company to risk in the event customers, other brokers and dealers, bank depositories or clearing organizations are unable to fulfill contractual obligations.

Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

The Company at times maintains cash balances in excess of federally insured limits. The uninsured cash balance at June 30, 2004 totaled \$132,891.

A copy of the Company's Statement of Financial Condition as of June 30, 2004, pursuant to SEC rule 17a-5, is available for inspection at the Company's office and at the regional office of the Securities and Exchange Commission.
