**INDEPENDENT AUDITOR'S REPORT**

**To the Managing Member  
Abramson Financial, LLC  
New York, New York**

We have audited the statement of financial condition of Abramson Financial, LLC as of September 30, 2004, and the related statements of income, changes in ownership equity, and cash flows for the period from June 4, 2004 (effective date of registration) to September 30, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Abramson Financial, LLC as of September 30, 2004, and the results of its operations and its cash flows for the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Pages 3, 4 and 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

# ABRAMSON FINANCIAL, LLC

## NOTES TO FINANCIAL STATEMENTS

September 30, 2004

---

### (1) ORGANIZATION AND NATURE OF BUSINESS

Abramson Financial, LLC (the "**Company**"), a Delaware Limited Liability Company, is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc. (NASD).

The Company's effective date of organization was September 18, 2003. The effective date of the Company's registration as a broker-dealer was June 4, 2004 (date operations commenced). The only transactions occurring between those dates were related to the initial capitalization of the Company by its sole member in the amount of \$80,100. Start-up expenses were also incurred during this period and have been expensed as occurring on the Company's first day of operations.

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Securities Transactions**

The Company engaged in no securities transactions during the period.

#### **Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### **Income Taxes**

The Company has elected Partnership status for federal and state tax purposes whereby taxable income is reported by the Company's sole member.

# **ABRAMSON FINANCIAL, LLC**

## **NOTES TO FINANCIAL STATEMENTS**

**September 30, 2004**

---

### **(3) REGULATORY REQUIREMENTS**

The Company is exempt from the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 (reserve requirements for brokers and dealers) in that the Company does not hold funds or securities for customers. The Company has not yet engaged in any customer transactions and is in the process of negotiating a clearing agreement with another broker-dealer whereby any future customer transactions will be cleared on a fully-disclosed basis.

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined, equal to the greater of \$5,000 or 12 1/2% of aggregate indebtedness. Net capital and the related net capital ratio may fluctuate on a daily basis. At September 30, 2004, the Company had net capital of \$45,092, which was \$40,092 in excess of the net capital requirements of \$5,000. The percentage of aggregate indebtedness to net capital was 40.09%. These net capital requirements may effectively restrict the Company's ability to make distributions to its sole member.

### **(4) CONCENTRATION OF CREDIT RISK**

Financial instruments which potentially subject the Company to concentrations of credit risk consist of cash. The Company invests its cash with an FDIC insured bank. The balance in its account may at times exceed federally-insured limits. Management believes the potential for loss is minimal.

Certified Public Accountants

**INDEPENDENT AUDITOR'S REPORT  
ON INTERNAL CONTROL REQUIRED BY SEC RULE 17a-5**

**To the Members  
Abramson Financial, LLC  
New York, New York**

In planning and performing our audit of the financial statements of Abramson Financial, LLC for the period ended September 30, 2004, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("**SEC**"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodian functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at September 30, 2004, to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934, in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
