Financial Statements

For the Year Ended December 31, 2003

KEVIN G. BREARD, C.P.A.
AN ACCOUNTANCY CORPORATION

Independent Auditor's Report

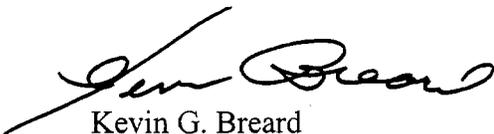

Board of Directors
Diversified Global Capital Group, Inc.

I have audited the accompanying statement of financial condition of Diversified Global Capital Group, Inc. as of December 31, 2003, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Diversified Global Capital Group, Inc. as of December 31, 2003, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My examination was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on Schedules I-III are presented for purposes of additional analysis and is not required as part of the basic financial statements, but as supplementary information required by rule 17a-5 of the Securities and Exchange Commission. Such information has been subject to the auditing procedures applied in the examination of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole and in conformity with the rules of the Securities and Exchange Commission.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Diversified Global Capital Group, Inc. (the "Company") was incorporated in the state of California on March 29, 2002 and assumed the pre-incorporation activities of the Company as of and effective January 1, 2002. The Company is a wholly owned subsidiary of Diversified Global Capital Holding, LLC (the "Parent"). The Company is a broker-dealer registered with the Securities and Exchange Commission (the "SEC") in the business of securities brokerage and investment counseling, and is a member of the National Association of Securities Dealers ("NASD") and the Securities Investor Protection Corporation ("SIPC").

The Company conducts business on a fully disclosed basis whereby the execution and clearance of trades are handled by another Broker/Dealer. The Company does not hold customer funds and/or securities.

In the summer of 2003, the Company's total number of employees decreased substantially. As a result, the Parent is in the process of restructuring the Company's employee base. Soon thereafter, the Company entered into an expense sharing agreement with the Parent, whereby the Parent agreed to incur all expenses of the Company (See Note 4).

Summary of Significant Accounting Principles

The presentation of financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Securities transactions are recorded on a settlement date basis.

Property and equipment are stated at cost. Repairs and maintenance to these assets are charged to expense as incurred; major improvements enhancing the function and/or useful life are capitalized. When items are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gains or losses arising from such transactions are recognized. Property and equipment are depreciated over their estimated useful lives ranging from three (3) to (5) years by the straight-line method.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

Current income taxes are provided for estimated taxes payable or refundable based on tax returns filed on the cash basis of accounting. Deferred income taxes are recognized for the estimated future tax effects attributable to temporary differences in the basis of assets and liabilities for financial and tax reporting purposes. Measurement of current and deferred tax assets and liabilities is based on provisions of enacted federal and state tax laws.

The Company accounts for its income taxes using the Financial Accounting Standards Board Statement of Financial Accounting Standards No. 109, "Accounting for income taxes", which requires the establishment of a deferred tax asset or liability for the recognition of the future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expenses or benefits are recognized as a result of the changes in the assets and liabilities during the year.

Note 2: PROPERTY AND EQUIPMENT

The property and equipment are recorded at cost.

		<u>Depreciable Life Years</u>
Computer	\$ 20,223	3
Furniture and equipment	48,809	5
Leasehold improvement	<u>17,021</u>	7
	86,053	
Less accumulated depreciation	<u>(31,474)</u>	
Net property and equipment	<u>\$ 54,579</u>	

Depreciation expense for the year ended December 31, 2003 was \$19,907.

Note 3: INCOME TAXES

The Company is included in the consolidated federal income tax return filed by its Parent. Federal income taxes are calculated as if the Company filed a separate federal income tax return. The Company files its own state and local returns.

For the year ended December 31, 2003 the Company recorded the minimum California Franchise Tax of \$800.

Diversified Global Capital Group, Inc.
Notes to Financial Statements
December 31, 2003

Note 3: INCOME TAXES
(Continued)

The Company has elected to carry-forward its operating loss at December 31, 2003. This operating loss carry-forward may be applied against future taxable income, resulting in a deferred tax asset of approximately \$58,116, that expires in the year 2023. A 100% valuation allowance has been established against this asset since management cannot determine if it is more likely than not that the asset will be realized.

Note 4: RELATED PARTY TRANSACTIONS

The Company entered into an expense sharing agreement on August 15, 2003, with Diversified Global Capital Holding, LLC (the "Parent") whereby the Parent agrees to incur all expenses of the Company. The Company agrees to reimburse the Parent for these expenses once the Company achieves sufficient revenue provided the withdrawal is not in violation of NASD regulations regarding net capital requirements.

Note 5: COMMITMENTS

The Company entered into a lease agreement for office space under a non-cancelable lease which commenced January 31, 2003 and expires January 31, 2007.

Future minimum lease payments under the lease are as follows:

<u>Year</u>	<u>Amount</u>
2004	\$ 97,852
2005	102,349
2006	104,789
2007	<u>28,812</u>
Total	<u>\$ 333,802</u>

Rent expense was \$75,910 for the year ended December 31, 2003.

Note 6: RECENTLY ISSUED ACCOUNTING STANDARDS

In January 2003, the FASB issued Interpretation 46, *Consolidation of Variable Interest Entities*. In general, a variable interest entity is a corporation, partnership, trust, or any legal structure used for business purposes that either (a) does not have interest entity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. Interpretation 46 requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. The consolidation requirements of Interpretation 46 apply immediately to variable interest entities created after January 31, 2003. The consolidation requirements apply to transactions entered into prior to February 1, 2003 in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The adoption of the Interpretation on July 1, 2003 did not have a material impact on the Company's financial statements.

In April 2003, the FASB issued SFAS 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*, which amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS 133. The Statement is effective for contracts entered into or modified after June 30, 2003. The adoption of this Statement did not have a material impact on the Company's financial statements.

In May 2003, The FASB issued SFAS 150, *Accounting for Certain Financial Instruments with Characteristic of both Liabilities and Equity*. The Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer clarify a financial instrument that is within its scope as a liability (or an asset in some circumstances). It is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The adoption of this Statement did not have a material impact on the Company's financial statements.

Note 7: COMPUTATION OF NET CAPITAL

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net capital and aggregate indebtedness change day to day, but on December 31, 2003, the Company had net capital of \$6,462 which was \$1,462 in excess of its required net capital of \$5,000; and the Company's ratio of aggregate indebtedness (\$800) to net capital was 0.12 to 1, which is less than the 15 to 1 maximum ratio allowed for a broker/dealer.

Supplementary Accountant's Report
on Internal Accounting Control
Report Pursuant to 17a-5
For the Year Ended December 31, 2003

KEVIN G. BREARD, C.P.A.
AN ACCOUNTANCY CORPORATION

Board of Directors
Diversified Global Capital Group, Inc.

In planning and performing my audit of the financial statements and supplemental schedules of Diversified Global Capital Group, Inc. for the year ended December 31, 2003, I considered its internal control structure, for the purpose for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission, I have made a study of the practices and procedures followed by Diversified Global Capital Group, Inc. including tests of such practices and procedures that I considered relevant to objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control structure and the practice and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities, that I considered to be material weakness as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding on my study, I believe that the Company's practices and procedures were adequate at December 31, 2003 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
