Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

 NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -CONTINUED

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditures for additions, major renewals and betterments are capitalized, and expenditures for maintenance and repairs are charged against income as incurred. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income. Depreciation is computed using the straight-line method over the estimated useful lives of the assets of 7 years. Depreciation expense totaled \$391 for 2003.

Property and equipment consists of office furniture and computer equipment with a cost of \$14,627 net of accumulated depreciation of \$14,627.

Income Taxes

The Company uses the liability method of accounting for income taxes in accordance with the Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." Deferred income taxes are recognized based on the differences between the financial statement and income tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized. The provision for income tax represents the tax payable for the period and the change during the period in deferred tax assets and liabilities.

NOTE 2 – MARKETABLE SECURITIES

The following is a summary of marketable securities as of December 31, 2003:

Cost Basis	\$	3,300
Gross Unrealized Losses		<u>(3,300)</u>
Fair Market Value	\$	<u> -</u>

During 2003, certain marketable securities owned by the Company were deemed to be worthless. Thus, the cost basis of \$33,113 was recorded as a realized loss in the accompanying income statement.

NOTE 3 – INCOME TAXES

The provision for income taxes consists of the following:

Current Tax Expense	\$	2,180
Deferred Tax Expense		<u>9,912</u>
Total	\$	<u>12,092</u>

Deferred taxes in the balance sheet are classified based upon the related asset or liability creating the deferred tax. Deferred taxes not related to a specific asset or liability are classified based upon the estimated period of reversal. The major temporary differences that give rise to deferred tax liabilities include use of the cash basis for income tax reporting and accrual basis for financial reporting.

INDEPENDENT AUDITOR'S REPORT
ON INTERNAL ACCOUNTING CONTROL
REQUIRED BY SEC RULE 17a-5

To the Shareholders
Mariner Financial Group, Inc.
Houston, Texas

In planning and performing our audit of the financial statements and supplemental schedules of Mariner Financial Group, Inc. dba Mariner Investment Group (the "Company"), for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rules 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2003, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
