JBS SECURITIES CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2003

Note 1 - Nature of Business

JBS Securities Corp. (The "Company") is a New York State corporation formed in 1997, for the purpose of conducting business as a broker on the floor of the New York Stock Exchange. The Company is registered as a broker-dealer with the Securities and Exchange Commission ("SEC").

Note 2 - Summary of Significant Accounting Policies

a) Revenue Recognition

Securities transactions (and the recognition of related income and expenses) are recorded on a trade date basis. Commission income and related expense are recorded on a settlement date basis. There is no material difference between settlement date and trade date.

b) Income Taxes

The Company has elected to be treated as an "S" Corporation under the provisions of the Internal Revenue Code and New York State tax regulations. Under the provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholder is liable for individual income taxes on his respective share of the Company's taxable income. The Company continues to pay New York City general corporation taxes.

c) Cash and Cash Equivalents

The Company considers demand deposited money market funds to be cash equivalents. The Company maintains cash in bank accounts which, at times, may exceed federally insured limits or where no insurance is provided. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash and cash equivalents.

d) Equipment

Equipment is carried at cost and is depreciated over a useful life of 5-7 years using accelerated methods.

e) Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses.

f) Exchange Membership

The membership on the New York Stock Exchange is owned by a stockholder and contributed for use by the Company. In 2003, included in interest expense are payments of \$265,000 to the stockholder for such use.

Note 3- Profit Sharing Plan

The Company is a sponsor of a defined contribution profit sharing plan for its eligible employees. Contributions to the plan if any, are determined by the employer and come out of its current accumulated profits. The employer's

contribution for any fiscal year shall not exceed the maximum allowable as a deduction to the employer under the provisions of the IRS Code Section 404, as amended, or replaced from time to time. The Company's liability to the plan for the year ended December 31, 2003 was \$30,000.

Note 4- Bank Loan Payable

The Company has a \$100,000 bank line of credit from which was drawn down \$51,239 at December 31, 2003. The loan is payable over three years. Interest is calculated at prime plus one percent and at December 31, 2003 the interest rate was 5.00%.

Note 5 - Commitments

Seat Lease

The Company leases two seats on the New York Stock Exchange. The first lease expires in April 2004 and calls for payments of \$27,083 per month. The second lease expires in January 2004 and calls for payments of \$20,000 per month.

Office Lease

The Company leases premises under a lease expiring January 31, 2005. At December 31, 2003, the minimum rental commitment before escalations under the lease is as follows:

<u>Year</u>	<u>Amount</u>
2004	\$28,920
2005	\$ 2,410

Note 6 - Financial Instruments With Off-Balance Sheet Credit Risk

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company introduces these transactions for clearance to another broker-dealer on a fully disclosed basis.

The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair the customer's ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such non-performance by its customers.

JBS SECURITIES CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2003

Note 6 - Financial Instruments With Off-Balance Sheet Credit Risk (continued)

The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions, when necessary.

Note 7 - Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At December 31, 2003, the Company had net capital of \$133,044, which was \$117,293 in excess of its required net capital of \$15,751. The Company's net capital ratio was 177.58%.

A copy of the Firm's statement of Financial Condition as of December 31, 2003, pursuant to SEC Rule 17a-5, is available for examination at the Firm's office and at the regional office of the SEC.
