AUDITOR'S REPORT

Board of Directors
Audobon Securities, Inc.
9 West 57th Street, 27th Floor
New York, New York 10019

I have audited the accompanying balance sheet of Audobon Securities, Inc. as of December 31, 2003, and the related statements of income, retained earnings, and cash flow for the year then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Audobon Securities, Inc. as at December 31, 2003, and the results of its operations and its cash flow for the year then ended in conformity with generally accepted accounting principals.

My examination was made for the purpose of forming an opinion on the basic financial statements, taken as a whole. The statement

of the computation of the minimum capital requirements is presented for purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by section 1.17 of the regulations under the Commodity Exchange Act. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements, and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Board of Directors
Audobon Securities, Inc.
9 West 57th Street, 27th Floor
New York, New York 10019

I have examined the financial statements of Audobon Securities, Inc. as of December 31, 2003 and have issued my report thereon dated March 26, 2004. As part of my examination I have made a study and evaluation of the company's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards and regulation 1.16(d) of the Commodity Futures Trading Commission. This study and evaluation included a review of the procedures for safeguarding customer and firm assets. In addition, I reviewed the practices and procedures followed by the company in making computations of the minimum financial requirements pursuant to the regulations of 1.17.

Regulation 1.16(d) states that the scope of the audit and review of the accounting system, the internal accounting controls and procedures for safeguarding customer and firm assets must be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination would be disclosed. Under generally accepted standards and regulation 1.16(d) the purpose of such study and evaluation are to establish a basis for reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion of the financial statements and to provide a basis for reporting weaknesses in internal accounting control.

The objective of internal accounting control is to provide reasonable but not absolute assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the

reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance that the cost of a system should not exceed the benefits derived and also recognizes that the evaluation of these factors requires estimates and judgments by management. However, for the purpose of this report under regulation 1.16(d), for the determination of weaknesses to be reported was made without considering the practicability of corrective action by management within the benefit of a cost/benefit relationship.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, or other personal factors. Control procedures whose effectiveness depends on segregations of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management either with respect to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projections of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

My study and evaluation of the system of internal accounting control for the period ending December 31, 2003, which was made for the purposes set forth in the first paragraph above and which would not necessarily disclose all the weaknesses in the system that may have existed during the period under review, disclosed no weaknesses that I believed to be material.
