Supplementary Report of Independent Auditors on Internal Control

Partners

Paragon Advising Group, L.P.

In planning and performing our audit of the financial statements and supplemental schedules of Paragon Advising Group, L.P. (the "Partnership"), for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities, to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission ("SEC"), we have made a study of the practices and procedures followed by the Partnership, including tests of compliance with such practices and procedures that we considered relevant to the criteria stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Partnership does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Partnership in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Partnership is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned criteria. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Partnership has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's

authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional criteria of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of internal control to future periods is subject to the risk that internal control may become inadequate because of changes in conditions or that the effectiveness of its design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, and its operation that we consider to be material weaknesses as defined above.

We understand that practices and procedures that meet the criteria referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not meet such criteria in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Partnership's practices and procedures were adequate at December 31, 2003, to meet the SEC's criteria.

This report is intended solely for the information and use of the partners, management, the SEC, the New York Stock Exchange, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
